Examples? Q uantum theory supports the ideas in eastern religions that reality is an illusion. How? Well, in the world of the subatomic, you can never definitely predict a particles location at a specific time. You can only give the odds o f it being precisely at one spot at one time. Also, the act of observation seems to affect the event. Solid parti cles can pass through barriers. All of this, so far, is accurate. But then they assert that that means that if yo u believed sincerely enough that you could walk through a wall, you could indeed do it. This is complete poppycoc k. Instead, the theory asserts that at our level, it is possible for you to walk through a wall, but it is merely by chance and has nothing to do with belief. Also you\'d have to keep walking into the wall for eternity to ever have even the remotest chance of passing through the wall, the odds are so astronomically against it.

 This is but one example of how they misrepresent the science. But much more annoying is the narrative involving a n unhappy photographer, played by Marlee Maitlan. About halfway through the picture it becomes so confused as to be incomprehensible. Something to do with negative thoughts leading to addiction and self-hate. There may be some truth to that, but Quantum physics has nothing to do with it.

Plus, string theory is the hot new thing in physics nowadays. Instead of wasting your time with this dreck, I suggest you rent The Elegant Universe, an am azing series done for NOVA on PBS that gives you a history of physics from Newton and gravity to Ed Witten and M Theory in only 3 hour-long episodes. Quantum mechanics is explained there quite well if you want to know it witho ut the fog of metaphysical appropriation."'],
['385,"I was truly looking forward to this title. It sounded and looked fun. The idea of someone making a cheesy 50s monster movie could have been worth a few laughs, but instead this title only bores. First off, there is almo st no Froggg in the entire movie which is the biggest disappointment. I have to sit through 75+ minutes of lame d rama and dialog to get a few glimpses of the Froggg humping a bare breasted chick. Why? On top of that the film l acks any sort of fun plot. I mean give me something thats a bit more interesting than just a bunch of talking hea ds. I wanted to see some hot chicks search for the creature in the swamp, I wanted to see some cuties dragged off to his lair in desperate need of rescue (Creature from the Black Lagoon stuff), I wanted to see a few goofy actio n scenes of the Froggg going on a killing spree, or it maybe escaping a silly trap. Something exciting! Geez, hav e fun with it, be creative! Who wants to sit through endless and tiring dialog scenes in a creature flick? My adv ice to the filmmakers: Keep going, your concepts are good, but your execution needs to be a lot more inspired. You also have to find these impossibly hidden jigsaw puzzle pieces, that require you to do almost imposs ible tasks to get them! AND I AM ONLY UP TO STAGE THREE!!!!! ['387,"Chuck Jones\'s \'Rabbit Seasoning\', the second in the much beloved hunting trilogy, is often considered to be the best of the three. While I find it almost impossible to choose between this trio of fantastic cartoons, I would have to concede that \'Rabbit Seasoning\' is the most finely honed script. Here, the emphasis is placed o n language as Bugs and Daffy run through a series of complex dialogues in the grand tradition of Abbot and Costel lo\'s \'Who\'s on next\' routine. As a long term Daffy fan, I have always been delighted by the hunting trilogy b ecause it is consistently Daffy who gets all the best lines (the famous ""Pronoun trouble"" being one of the all time classics) and does most of the work. Bugs plays the role of cool manipulator while Elmer, as always, is the befuddled dupe. Part of what makes the hunting trilogy so much fun is that Daffy and Elmer pose so little threat to Bugs that he is basically just kicking back and having some easy laughs. Elmer falls into every trap that is l aid for him but it is poor old Daffy who comes off worst, being shot in the face again and again, his beak ending up in more and more ridiculous positions. It all builds to the inevitable climactic declaration ""You\'re despica ble"". As intricate an example of Chuck Jones\'s impeccable timing as you\'ll come across, \'Rabbit Seasoning\' i s a true classic."'],

['389,"""Crossfire"" is a justifiably famous 1947 noir that\'s a murder mystery with a strong message. It stars Robert Young, Robert Mitchum, Robert Ryan, Sam Levene, and Gloria Grahame, and is strongly directed by Edward Dmy tryk. We witness the murder in shadow at the beginning, and for the rest of the film, Young, as the detective, Fi nlay, in charge of the case, seeks to figure out which of three soldiers is responsible for the death, and just a s important, why. The victim, Joseph Samuels (Sam Levene) is someone the soldiers meet in a bar; they go up to hi s apartment to continue their visit, and Samuels winds up dead.

I don\'t know about 1947, but seeing " "Crossfire"" today, one knows who did it and why the minute we see the suspects. I don\'t suppose it was so appar ent back then, as these actors were just getting started. Nevertheless, the film packs a big punch with its power ful acting, good direction, violence, and unsparing anti-Semite language.

The characterizations are vi vid, including that of Gloria Grahame in a smallish role - she\'s a woman who meets Mitchell (George Cooper), one of the suspect soldiers, in a bar and can provide him with an alibi. The big performance in the film belongs to R obert Ryan, but everyone is excellent. Robert Young especially is effective as a tough but intelligent police det ective. Mitchum is very likable as a soldier trying to help his confused friend Mitchell, a lonely man unsure if he still has feelings for his wife.

Truly excellent, and a must see."'],

When his favorite wussy \'metal\' singer, Sammi Curr, dies, he throws a hissy fit tearing down all the posters on his bedroom wall. But when he later gets an unreleased record that holds the spirit of his dead \'metal\' idol. He first gets sucked into ideas of revenge, but then he doesn\'t want to take it as far as Sammi does. Which isn\'t really that far as his main victims only seem to go to the hospital. This movie is utterly laughable and has about as much to do with real metal as say, ""Rock Star"". OK, maybe a tad more than that piece of junk, but you get my point. And how ANYone can root for a guy played by Skippy from ""Family Ties"" I haven\'t a clue. The cameo by Gene Simmons is OK, and Ozzy Osbourne reaches coherency, I applaud him for that, but otherwise skip this one.

He was a great story teller and someone suggested that he put his stories into writing. So Rodolfo Sonego did. If you check out his biography, you can see the number of movies that have been made in Italy. Alberto Sordie was the main actor that starred in his stories. My uncle visited Australia and my town, in 1968 to check out locations for ""A girl in Australia"" and created a great movie about a proxy bride after the second world war. You can see his humor in all his movies. I found a copy of this movie on DVD recently. GREAT"'],
['393,"Goldeneye will always go down as one of thee most legendary games in VG history. Their is no doubt about that. But this game, although quite different, could quite possibly be the modern-day Bond champ, of its time.

This was not a bond game based on material from another medium. This was a completely new; scripted game. Which even had its own theme song! (wouldnt be bond without it, haha!) Gameplay was excellent, and if you\'re a fan of the bond games or films alike, you\'ll enjoy it.

Unlike some/most games, these cast members portrayed their characters themselves, as opposed to fictional creations for the game. Which gives it that more cinematic feel. With a very \'bond\'-able storyline, you feel like you\'re in the game as much as you get lost in a movie.

Enjoyable in all aspects, from start to finish. Even after beating the game there\'s still plenty more to be done. With the ranking system and unlockables to be achieved, as well as its multi-player missions, this is a stand-out game. Despite being quite old now, in video game years. It\'s still a good game that you can pick up & play whenever you feel the need to get a little more Bond in your life. Even now just thinking about it, I\'ve got the theme song stuck in my head. Such a great cast and well-written storyline.

The story comes to life on the screen, almost as if the actors were their in front of you, and is every bit as entertaining as the game itself. Superbly done, in true bond fashion. Which can only be named Awesome, Completely Awesome.

I\'ve gotta go throw this game on now. If you haven\'t played it yet, you\'re missing out!"'],
['394,Helena Bonham Carter is the center of this movie. She plays her role almost immobile in a wheelchair but still brings across her traditional intensity. Kenneth Branagh was tolerable. The movie itself was good not exceptional. If you are a Helena Bonham Carter fan it is worth seeing.'],
['395,"I commented on this when it first debuted and gave it a ""thumbs in the middle"" review, remarking that I \'d give it the benefit of the doubt beyond just the first episode. I\'ve seen a total of six episodes now up to this point in June 2006. And as a lifelong Batman fanatic, I can say without hesitation: this show is utter crap.

Everything\'s wrong with it. Everything. Getting past just the lousy animation and design, the stories are ridiculously convoluted and with no character development or apparent interest by the writers of this dreck to give any substance to any stories.

And for God\'s sake...is it just me, or is the Joker in EVERY EPISODE?? Is Gotham that much of a revolving-door justice system? Or, again, is it just a complete lack of interest in the writers to put any effort into other villains (see ""no character development"", above).

And to make matters worse, every single Joker tale is the same 3-part formula.

1) Joker gasses people.

2) Joker sets out to gas the whole city.

3) Batman saves the day.

Pfeh.

There was one episode I saw that wasn\'t a Joker story. The title escapes me, but the villain was that nefarious Clue master...the ""Think Thank Thunk"" episode with the quiz show. That was the single-worst Batman story I\'ve ever seen, heard or read. Yes, worse than ""I\'ve Got Batman in My Basement.""

I can\'t really say what I feel this show is because it\'s probably against the ToS, but it starts with ""B"" and rhymes with ""fastardization"". ['396,"Just because someone is under the age of 10 does not mean they are stupid. If your child likes this film you\'d better have him/her tested. I am continually amazed at how so many people can be involved in something that turns out so bad. This ""film"" is a showcase for digital wizardry AND NOTHING ELSE. The writing is horrid. I can\'t remember when I\'ve heard such bad dialogue. The songs are beyond wretched. The acting is sub-par but then the actors were not given much. Who decided to employ Joey Fatone? He cannot sing and he is ugly as sin.

The worst thing is the obviousness of it all. It is as if the writers went out of their way to make it all as stupid as possible. Great children\'s movies are wicked, smart and full of wit - films like Shrek and Toy Story in recent years, Willie Wonka and The Witches to mention two of the past. But in the continual dumbing-down of American more are flocking to dreck like Finding Nemo (yes, that\'s right), the recent Charlie & The Chocolate Factory and eye-crossing trash like Red Riding Hood."'],
['397,"""Hey Babu Riba"" is a film about a young woman, Mariana (nicknamed ""Esther"" after a famous American movie star), and four young men, Glenn, Sacha, Kicha, and Pop, all perhaps 15-17 years old in 1953 Belgrade, Yugoslavia. The five are committed friends and crazy about jazz, blue jeans, or anything American it seems.

The very close relationship of the teenagers is poignant, and ultimately a sacrifice is willingly made to try to help one of the group who has fallen on unexpected difficulties. In the wake of changing communist politics, they go their separate ways and reunite in 1985 (the year before the film was made).

I enjoyed the film with some reservations. The subtitles for one thing were difficult. Especially in the beginning, there were a number of dialogues which had no subtitles at all. Perhaps the conversational pace required it, but I couldn\'t always both read the text and absorb the scene, which caused me to not always understand which character was involved. I watched the movie (a video from our public library) with a friend, and neither of us really understood part of the story about acquiring streptomycin for a sick relative.

This Yugoslavian coming of age film effectively conveyed the teenagers\' sense of invulnerability, idealism, and strong and loyal bonds to each other. There is a main flashforward, and it was intriguing, keeping me guessing until the end as to who these characters were vis-a-vis the 1953 cast, and what had actually happened.

I would rate it 7 out of 10, and would like to see other films by the director, Jovan Acin (1941-1991)."'],

Among the weird strangers, Jason meets his former sweetheart Nancy (Rose McGowan), who has just left her husband in Los Angeles. Along the night, without any communication with his base, Jason faces distressful and suspicious situations with the clients, and finds some corpses, indicating that among them there is a killer.

""The Last Stop"" could be an average thriller, but the screenplay is simply awful. Most of the chara

cters are despicable persons and the motives of the surprising serial killer are never disclosed, and the viewers have no further explanation why the killer decided to kill the guests. My vote is four.

['399,"This movie was a fairly entertaining comedy about Murphy\'s Law being applied to home ownership and construction. If a film like this was being made today no doubt the family would be dysfunctional. Since it was set in the \'simpler\' forties, we get what is supposed to be a typical family of the era. Grant of course perfectly blends the comedic and dramatic elements and he works with a more than competent supporting cast highlighted by Loy and Douglas. Their shenanigans make for a solid ninety minutes of entertainment, 7/10."'],
['400,"What can you say about the film White Fire. Amazing? Fantastic? Disturbing? Hilarious? These words are not big enough to describe the event which is White Fire. From wobbly, garbled beginning to profound end, this movie will entertain throughout.

Our movie begins in the woods of a country somewhere in the world. A family is hiding from unmarked soldiers in costume shop uniforms. When the father separates from the mother and their childen, you get a real sense of what kind of movie you\'re about to watch. Father makes sure to roll down hills in his all white outfit, and is polite as he gets people\'s attention before he shoots them, but alas, dad is burned alive in what looks like a very unsupervised, unsafe stunt. Meanwhile, mom and the kids are running down a beach with an armed soldier trailing about 5 feet behind them. He too gives a stern warning before action in the form of a bizarre ""HALT!"", and then promptly wastes the mother. This action sequence sets up the happy childhood of our heroes Bo and Ingred.

So now we fast forward about 20 years (30 if you\'re honest about the heroo\'s age) to beautiful Turkey, where Bo and Ingred have settled as professional thieves, or diamond prospectors, or something. Ingred works at a diamond mine where she helps herself to the goods, while Bo (masterfully played by the dynamic Robert Ginty) drives around the desert in his denim outfits. Bo and Ingrid have an interesting relationship. They don\'t seem to have any friends other than each other, and they spend all of their time together. That coupled with the fact that Bo has expressed his desire to sleep with his sister as evidenced in lines such as ""you know its a shame you\'re my sister"" he says to her while she\'s stark naked, make for a very dynamic duo. Bo is then crushed when Ingrid is killed, as he wanders the beaches of Turkey with his ceremonial pink grief scarf. A renewal of hope occurs when Bo finds a girl who looks like Ingrid, and gives her plastic surgery to make her look exactly like Ingrid. This opens the door for Bo to have sex with his sister without it being technically wrong. Bo is a real fan of ethical grey areas, and he is overjoyed with his new love.

So anyway, there\'s a lot of fun action scenes, ridiculous violence, great acting, impossible to follow plot-lines, Fred ""the hammer"" Williamson (for some reason), and a big chunk of dirty ice which is supposed to be a giant diamond (which later explodes). All of these things are great, but the Bo and Ingrid relationship is what makes this movie special....really special. So I heartily encourage everyone to behold the majesty that is White Fire. You may be glad you did..or not."'],
['401,"I am so disappointed. This movie left me feeling jipped out of my time and mental energy. Here was the quintessential Woody Allen film all over again: the neurotic upper-class Manhattanites debating whether or not they will cheat on their spouses. Woody, I\'ve seen these characters already, I\'ve seen the storyline from you ten times already. Where did your creativity go??? You need to open your eyes and look around you. The world has changed dramatically since Annie Hall - and you need to change along with it.

There are far more interesting and funny scenarios to which you can apply your brand of angst and neuroticism - why not try them out instead of rehashing the same old slop over and over and over again.

When I hear that Woody Allen has a new project coming out, it does nothing for me - because now I\'ve come to expect his old standby: the couple who are growing tired of each other and end up cheating. Depressing and same old, same old.

If Woody wants to win his fans back, then he has to understand that our sense of humor and intelligence has to be stimulated - not insulted."'],
['402,"This movie is all ultra-lightweight fluff, predictable from beginning to end. As a Don Knotts vehicle, ""The Incredible Mr. Limpet"" was much better, with Knott\'s character there not nearly as incompetent or ignorant. His performance there was toned down, with none of his trademark goggle-eyed stare, although that may have something to do with him being replaced for most of the movie by a cartoon fish. Knotts made a living of playing the likable imbecile, much as Bob Denver did. Neither really seemed to be able to break out to other types of roles, assuming they were simply typecast. It was probably because of the slouch, the wild stare and the high-pitched voice. John Ritter, whom Knotts worked with in ""Three\'s Company,"" was able to transcend his genre, branching out successfully into dramatic roles like ""The Dreamer of Oz,"" but the closest Knotts ever got was a small role in ""Pleasantville."" Even Leslie Nielsen was a bad fit here, uncomfortably neither straight dramatic actor as he was at the time nor deadpan comedic actor as he later became in ""Airplane!"" and ""Police Squad.""

There\'s also no way the then-43 year-old Knotts could pass for a 35 year-old, as his character insisted he was. It was as ludicrously unbelievable as Tom Hanks at 38 playing the college-age Forrest Gump.

The film was clearly made on a shoestring budget, very much looking like a hastily-filmed TV episode. It\'s especially evident in the ""exterior"" scenes of the ""town"" where Roy goes after he\'s fired. It\'s unlikely even a pre-schooler would be fooled by the Mayberry-like soundstage artificiality.

Even viewing this strictly as a children\'s movie, it\'s very disappointing. It\'s not because it lacks action or special effects, although it does. The pace is much too slow, the situations repetitive. How many times can you watch Roy getting onto a bus? A comedy for kids should at least sometimes be madcap, with breakneck gags, otherwise you risk boring them (and any adults in the theater as well). Movies, even kid\'s movies, have improved quite a bit in the intervening decades. Even many contemporary comedies were better filmed and written. Disney\'s ""The Love Bug,"" for instance, at least had some interesting race action."'],
['403,"If you are interested in learning more about this sort of thing happening in modern civilization, there is an excellent book called ""Outlaw Seas"" or ""The Outlaw Sea"", and it describes, in story after story, how these things do happen. The lawlessness of the high seas is a reality for a number of reasons. One, many of the world\'s freighters are of questionable registry (nationality) and it\'s difficult to impossible to enforce international laws when the ships owners don\'t have an office in a real country. Two, many ship lines employ crews from dirt poor third world countries. The crews are often (like illegal immigrant workers) threatened and bullied into complying with questionable or illegal practices. Three, there is often a language barrier, not only between the officers and the crew, but also between the crew members themselves. The crew are rewarded for their compliance and their silence. Four, once committing an illegal act, the ships are able to hide in plain sight with little more than a fresh coat of paint. Anyway, it\'s fascinating reading.

Horrifying story, excellent movie. Does anyone else notice how HBO seems to make the best and most important movies? Hollywood has trouble releasing enough Oscar worthy movies in any given year, so that several of the top 5 contenders usually come from Britain. Jerry Bruckheimer = the end of quality cinema.

between two characters as they travel 3000 miles or so from France to Saudi Arabia, going through most of Europe
- Italy, Bulgaria, Croatia, Slovenia, Turkey, before arriving in the Middle East. But this is not a tour, and the
re are no stopovers for soaking in the sights.

Reda\'s father is in his twilight years, and wishes to
do the Haj. However, since walking and taking the mule is out of the question, he chooses to travel to Mecca by c
ar. He can\'t drive, and therefore enlists the help of Reda, to his son\'s protest, to get him there in their bro

But Reda doesn\'t see the point of having him go along, when his dad could opt for t
he plane. He resents the idea of having put his personal life on hold for this pilgrimage he couldn\'t understand
. And hence, we set off in this arduous journey with father and son, being not the best of pals.

The b
eauty of this movie is to witness the development of the father and son pair, the challenges they face, the weird
people they meet, having to duke it out in varied weather conditions, and alternating rest stops between motels a
nd sleeping in the car. We see an obvious generation gap in them trying to communicate to each other, the father
trying to impose on his son, and the son trying to assert himself as an adult, but circumstances we see, reveal t
hat Reda is quite a fish out of water. Through the many encounters, they actually team up quite well despite thei
r differences.

It\'s perhaps quite apt to have this film released here last week to coincide with Hari
Raya Haji, and having the opportunity to watch our protagonists join the other pilgrims in their Haj. The final s
cene in Mecca is truly a sight to behold, and you too would feel the claustrophobia and fear as Reda tries to hun
t down his dad amongst the thousands of people congregating. The sights of Europe were perhaps deliberately not d
welled upon, so as to build up the anticipation of and focus on the final destination.

becoming and I quite agree with the comments that this format is disgraceful and if it wasn\'t for the surprises
this could possibly have been the worst ceremony in history . As for the awards themselves

Best Suppo
rting Actress - Cate Blanchett . No great surprise for a competitive category

Best Supporting Actor -
Morgan Freeman . No real complaints since Freeman is one of America\'s greatest living character actors

Best Actor - Jamie Foxx . Most predictable award of the night . Yawn

Best Actress - Hilary Swank .
Major surprise since everyone thought Annette Benning was going to win simply down to academy politics but Swank
did deserve it and gave the best speech of the night

Best Director - Clint Eastwood . Major surprise
since everyone thought Scorsese was going to get the award simply because he\'d never won one . Actually I\'m gla
d about this because if he didn\'t deserve it for TAXI DRIVER , RAGING BULL or GOODFELLAS he didn\'t deserve it f
or THE AVIATOR

Best Film - MILLION DOLLAR BABY . Again another major surprise since everyone thought
the academy would split the awards for best director and best picture while I thought the Hollywood friendly plot
of THE AVIATOR would have made it a dead cert for Best Picture while MDB\'s controversial subject matter would ha
ve turned a lot of voters off

What these awards perhaps illustrate is that this year the voters have
decided to ignore Oscar politics and genuinely give out awards to people who deserve it something they haven\'t d
one in the past , I mean A BEAUTIFUL MIND beating THE FELLOWSHIP OF THE RING for gawd\'s sake ! And long may the
academy vote with their heads instead of their hearts"'],

You will first go through a personal moral assessment of where you stand about the r

You will then watch contestant pulling the trigger one by one and get excited even though you know the first cand

Good acting, good directing, with a movie experience that reminds you those old movies

['418,"Okay, I\'ve watched this movie twice now, I have researched it heavily on the net, I have asked several p
eople on there opinions. I have even gone to the length of reading the original Sheridan Lafanu Classic \'Carmill
a\', a book that this movie is supposed to be based on. I feel that the best way to review this movie is to descr
ibe a game to play whilst watching it. As the plot of the movie doesn\'t seem to make any sense at all, here is t
he plot of the book.

Laura lives in a castle in Syberia with her Father, Mr De Lafontaine. They carry
on with their lives blissfully and peacefully. One day they get a letter from the \'General\' a man who has made
it his mission in life to avenge his daughters death. He makes claims of supernatural powers being at work, and e
xplains that he will visit them soon. Meanwhile, a chance encounter with a strange woman results in the Lafontain
es looking after her Daughter, Carmilla, for several months. Soon Laura starts to be overwhelmed by strange dream
s, and begins to come down with a strange illness. Who is this mysterious Carmilla? And just what has she to do w
ith Laura\'s condition, and the General?

I have invented this game and would like as many people as po
ssible to play it, and let me know what their results are. I even have a catchy name, and would have a jingle too
, but I can\'t be bothered with that. It\'s called the ""this movie doesn\'t make any sense"" game.

Al
l you have to do is, whilst watching the movie, try to come up with a complete plot that explains what is happeni
ng. I mean complete, all questions answered, everything makes sense, absolutely complete.

It will have
to answer such questions as ...

* Why can vampires walk around in day light?

* Why are the
y all lesbians?

* Why is a girl called Bob? and why does she shoot herself?

* When is the m
ovie a dream and when is it real?

* Why does killing zombies appear to be an accepted part of life tha
t doesn\'t make anyone bat an eyelid?

* Why does Travis Fontaine spot and run down a zombie without sl
owing down whilst driving his car, yet when faced with a woman with an obvious hostage in the back of her car, ac
cept the excuse that she is a zombie too?

* And why does he then let a girl, which he later openly rev
eals that he knows is the head vampire, drive with him in his car?

* And then let her drive off, alone
with his daughter in a stolen car?

What the hell is the asylum scene all about?

* What the
hell is the green goo all about?

* Why does the head vampire suddenly start dressing like a nurse?

* Why are there never any vampires fighting Zombies?

* What is the significance of the necklac
e? what is it made of? why does it kill vampires? and how does Jenna know that?

In fact sod it, it\'s
just as much fun trying to come up with as many questions about this movie too.

I have my plot, and I
have to admit it is not quite there, but it is a pretty good effort.

In Conclusion

\'Vampir
es vs Zombies\' has no moment in it where there are actually Vampires fighting Zombies. Everyone in the movie see
ms to know exactly what is going on, yet they seem very reluctant to let the audience in on this. And somehow it
is based on a classic 19th century horror novel. How? Why? What the hell is going on?"'],
['419,"This would\'ve been a *great* silent film. The acting really is good, at least in a Look Ma, I\'m Doing R

eally Big Acting! sort of way.

Everything is HUGE. Every line is PROFOUND! Every scene is SHATTERED BY HUMAN TRAGEDY!

Mostly, I felt like gagging. Yet, like any train wreck, I couldn\'t tear my eyes away. This dialogue might\'ve worked on the stage, although I doubt it. On the screen, it was cluttered, haphazard, hac kneyed and pretty much every other stereotypical negative adjective you can come up with to describe a really bad dramatic work.

If you enjoy your melodrama in huge, heaping doses, you *might* enjoy the movie. Be pre pared to wait, however. For all that melodrama, this thing sure plods along at its own pace.

This scri pt must\'ve sounded a lot different when the actors involved were reading it to themselves. It simply doesn\'t wo rk once they get around to delivering it in front of the camera.

IMDB does us a great disservice, at t imes, when it uses its goofy computer-controlled ""weighted score"". Curse of the Starving Class deserves less th an a 1.

Character-driven fiction is great, but when you develop your characters by simply pushing them through hoops with no plausible explanation for their maturation or evolution, it isn\'t character development! Y our characters must have a motivation. Being drunk for a while and waking up in a field is *not* character develo pment. That\'s a plot contrivance.

Stay away from this movie. Or at the very least, watch it muted. Pe rhaps you\'ll get some amusement from all the arm-waving the characters do.

Oh, and word to the wise - - to prove that this is truly an artsy film, you see James Woods in all his dangly male ""look-at-me, I\'m-the-fi gurative-and-literal-representation-of-the-naked-vulnerability-of- man"" glory.

Don\'t say you weren\' t warned."'],
['420,"This movie starts with the main character lying in a coma in a hospital ward, attended by two orderlies. The unconscious main character is heard in a voice over, saying that the orderlies are gay. The orderlies kiss. I watched this in a DVD version and I have the suspicion that this is supposed to be funny Â— it said Â„comedy"" on the DVD case, after all and it goes on like that. Had I seen this in a movie theater I probably would have heard part of the audience roar with laughter, because it is so funny Â— and because they are supposed to sit in a come dy. While it is fascinating to think about what it is funny and what isn\'t, this movie unfortunately only delive rs arguments about what isn\'t.

Brilliant brains can MAKE anything funny, people like Ernst Lubitsch, Billy Wilder or Mel Brooks have proved that fact. But you have to know the Â„mechanics"", I suppose. Director and co-scriptwriter Dani Levy does not bother about those mechanics, he thinks that certain things simply ARE funny, the fact that two orderlies are gay and kiss over a man in a coma, for example. Do not get me wrong, some people can MAKE that funny, Dani Levy can\'t, not for me, anyway.

The main problem I have with this movie is that I can\'t see a reason behind the way the main characters behave. I could not understand why the two brothers , one an orthodox Jew from West Germany one a third class carbon copy of Fast Eddie Felson from former East Germa ny so strongly disliked each other. They are both rather bland characters. Their children are boring apart from t he fact that they are sexually attracted to each other (well, one is a lesbian now but raises the daughter she ha s with her cousin). But even these incestuous relationships Â— if anything they are embarrassing - just come thro ugh as an excuse because the scriptwriters could not come up with anything better.

The acting is not b ad, Udo Semel I actually came to like quite a lot although he reminded me more of ex chancellor Helmut Kohl (a li ghter version) than of a venerable Orthodox Jew. The direction in itself is not really bad either, but maybe Levy should stick to directing movies, leaving the scriptwriting to someone else. Now I heard he did a comedy about Hi tler. Oi, Vai!"'],

They live together in the same building. They have different expectations of life. The vital Laura wants a child. MuriÃ«l comes from a village and wants to change her life in Brussels. Martha dreams about her youth when she was a young girl. In fact nothing happens in this movie so you wait for something - for instances an accident - which could dramatize this story. As times goes on, you discover that the director DorothÃ©e Van Den Berghe only wants to develop a psychological portrait of the three women and nothing more. ['422,"First and foremost, I loved the novel by Ray Bradbury. It\'s the kind of horror that gets under your skin and sticks with you later. It was one of his best books, with, you know, Fahrenheit 451 and Dandelion Wine. I as just hoping that this movie would be all right. It had lots of chances, with a great cast, like Jason Robards and Jonathn Pryce. And Bradbury even wrote the script himself. And on top of all that, it has PAM GRIER!

H ow could it fail?

There may be spoilers within.

First of all, it was dumbed down. Much of t he horror from the book was lost as Bradbury must have been forced to keep the violence to a minimum. All the vis uals from the book...gone. Everything that made you squirm...gone.

And then there\'s the acting. Like a lot of movies that Disney threw out in the 80s, the kids in this movie cannot act. And, this bugged me a lot, n either of them looked 13 but 9 or 10. Their strong friendship wasn\'t addressed. It was more like they were acqua intaces.

You\'d think Jason Robards and Jonathan Pryce could pull this off in their roles of Mr. Hall oway and Mr. Dark. But here it\'s like they just don\'t care. All they want to do is somehow pay off some mortgag e or something. This is far from being some of their best performances.

Pam Grier was fine as the wit ch, but the charecter of the Dust Witch herself wasn\'t well pulled off. She\'s a lot less evil and doesn\'t have the presence as she did in the book.

And everything that was left out of the book. The ballon night c hase, the marking of Jim\'s house, the real death of Mr. Dark, what happened to Mr. Coogan on the merry-go-round, the fate of the lightening rod salesman, the real death of the witch, and oh so much more.

And the sp ecial effects were bad, even for the 80s. The merry-go-round of doom for one thing with the superimposed horses g oing around wasn\'t really creepy, and that weird green mist that really had nothing to do with anything.

I could keep going about how this movie ripped apart the original novel, but it makes blood boil. Don\'t see this movie but read the book. It\'s a classic of Bradbury."'],

They h ire a man to pose as a very rich Count, his name is Count Ariszted, (Misha Auer) who is drunk all the time and is penniless and gives plenty of comic laughs throughout the picture. Deanna Durbin, (Penny Craig) surprised everyon e when she was booked in a police station and told the chief of police that she was an opera star and then Penny starts singing with the most fantastic soprano voice I have every heard, the entire police department and convict s started applauding, which was a very entertaining and enjoyable scene from this film. ['424,"I had eagerly awaited the first screening of this film ever since it was given to me on DVD at Christmas. Having reserved a special slot for it last night, I sat down to watch it with my daughter (aged 17 and a Film Stu dies student), with chocolates of course, in eager anticipation. We love Jane Austin.

After just the f irst two minutes we knew we were sunk. The shaky camera shots and angles, general poor cinematography, direction and wooden performances had already left us feeling flat and dissatisfied. Despondent, we viewed on.

A nne, played by Sally Hawkins, looked oddly and with no particular purpose, directly at the camera on several occa sions, breaking our hard-won \'fantasy of the moment\' and engaging us directly in an almost \'I\'ll find you\' s talking fashion.

Poor Rupert Penry-Jones, who played Captain Wentworth, did his best with the script a nd direction, bless him. I hope they paid him well, however, as he was practically drowned on one occasion by a h uge wave which predictably breached the seawall, drenching him and his co-actor. They were nearly swept out to se a. Health and Safety would have had a field day! Poor Rupert was left spitting out sea water in order to deliver

his line. Presumably there was not enough money left in the kitty for a re-shoot of this scene. Anyone with any s
ense would have not attempted it on such a day in the first place.

Other than Mr. Penry-Jones, Alice K
rige gave the only convincing performance as Lady Russell but her efforts were soon counterbalanced by those of A
nthony Head\'s unconvincing portrayal of annoying Sir Walter Elliott.

Towards the long-awaited end of
the film, Captain Wentworth appeared to oddly grace Anne with a visit every two seconds having taken great pains
to avoid her for the majority of the movie. It was as if he had developed a memory impediment which caused him to
forget his very reason for being. In contrast, Anne ran, hyper-ventilating, from pillar to post in search of the
good Captain who, in the meantime, had managed to call upon almost the entirety of Bath we are told, in the cours
e of only three or four minutes, without even having worked up a sweat.

We experienced none of Anne\'s
charms crossing the screen. Indeed, we were left wondering what charismatic Captain Wentworth had ever seen in pl
ain, spineless, opinion-less Anne and why someone, anyone, did not tell mean, winging Sir Walter to just shut the
heck up.

The crucial kiss, normally our favourite girlie moment, was painfully drawn out. As they move
d in closer, Anne kept opening and closing her mouth which had the effect on screen of making her look as if she
were chewing gum before lips finally met. Eww!

The most enjoyable thing about last night was the choc
olates and the half hour exchange of views between mother and daughter on just how bad the film had been.

As for the rest of the film.... Every other ac

The plot was well paced and the storyline intriguing and m

rks decided to return to his old skeletons for another dance, this time in color.

1937\'s ""Skeleton F
rolics"" is essentially, a remake of the 1929 classic ""The Skeleton Dance"", the movie that borough him fame and
fortune. Like that short film, it is set on an abandoned graveyard, where at midnight the creatures of the night
come alive and begin to play. The dead rise from their coffins, ready for the show that\'s about to begin, as a g
roup of skeletons has formed an orchestra, and begin to play a happy tune. Now, it\'s not easy to be a musician m
ade of just bones, as some of the orchestra members have problems with their body parts, however, the band manage
s to put a good show and another group of skeletons begin to dance. A lovely couple of them faces the same proble
ms that troubled the orchestra: it\'s hard to dance with loose body parts. Everything ends at dawn, and just when
the sun is about to rise again, the skeletons run towards their graves.

Directed and animated by Ub Iw
erks himself, ""Skeleton Frolics"" follows faithfully the pattern set by ""The Skeleton Dance"" years before, alt
hough with a crucial difference: Iwerks did the whole film in Technicolor. The bright tonalities allowed Iwerks t
o create a more visually appealing film, and also to use the many new techniques he had been practicing since lea
ving Disney, creating even better effects of depth and dynamism than those he conceived before. It is certainly a
more experimental film than ""The Skeleton Dance"", although sadly, this doesn\'t mean it\'s necessarily a better
film. For starters, the film is practically identical to the one he did with Disney, with the only differences be
ing the music (more on that later) and the color effects. It looks beautiful, no doubt about it, but it definitel
y feels kind of unoriginal after all.

However, it is not the unoriginality of the concept what truly h
urts the film (after all, Iwerks executes it in a wonderful way), but the fact that the musical melody created by
Joe DeNat for the film is pretty uninteresting and lacks the charming elegance and whimsical fun of the one done
by Carl W. Stalling for ""The Skeleton Dance"". In other words, while DeNat\'s tune is effective and appropriate
for the theme, it\'s easy to forget about it rapidly while Stalling\'s song has a unique personality that makes i
t unforgettable. Being a musical film, this is of high importance, and so the mediocrity of the music brings down
Iwerk\'s flawless work of animation. Personally, I think that with a better musical accompaniment, ""Skeleton Fro
lics"" would be remembered as fondly as ""The Skeleton Dance despite not being as groundbreaking, as it\'s still
a fun film to watch.

It\'s kind of sad that most of the work Iwerks did after leaving Disney is now fo
rgotten due to his poor success, however, it must be said that if Iwerks lacked the popularity of Disney or Fleis
cher (Disney\'s main rival), he did not lack the quality of those companies\' films. It was probably just a case
of bad luck what made the man who gave life to Disney\'s mouse for the first time to face failure out of Disney.
Despite its shortcomings, ""Skeleton Frolics"" is a very funny and visually breathtaking film, that while not exa
ctly the most original and fresh film (one just can\'t help but thinking of ""The Skeleton Dance"" while watching
it), it definitely reminds us that Iwerk\'s skeletons are still here to haunt us, and inspire us.

Let\'s face it -- most of the time movie-licensed games are flop

The swimming instructor is an almost-Olympian, reduced to

The students characters are mainstream U.S.A; teachers,

Here\'s
the story: A girl, Zoey Brooks, attends PCA, a formerly all-boys school. Absolutely perfect in every possible way

['454,"Empire of Passion starts out deceptively - that is, if you\'re immediately expecting it to be a horror mo
vie. It\'s like a riff on James M. Cain\'s The Postman Always Rings Twice, at first: Seki (Kazuko Yoshiyuki) is a
mother of two and a dutiful, hard-working wife to rickshaw driver Gisaburo (Takahiro Tamura). But when he\'s not
around, and she\'s at home with the baby, the feisty and aimless young man Toyoji (Tatsuya Fuji) comes around to
bring some goodies for Seki... and a little extra. They\'re soon sleeping together, but after he does something t
o her (let\'s just say a ""shave""), he knows that he\'ll find out, and immediately proposes that they kill Gisab
uro. They drink him up, strangle him, and then toss him down a well. Naturally, this will come back to haunt them
- but that it\'s literally, at least to them (at first super-terrified Seki and then only later on skeptical Toyo
ji), changes gears into the \'Kaidan\', a Japanese ghost story.

This is a film where the horror comes
not simply out of ""oh, ghost, ah"", but out of the total dread that builds for the characters. In a way there\'s
the mechanics of a film-noir at work throughout, if only loosely translated by way of a 19th century Japanese vil
lage as opposed to an American city or small town (i.e. the snooping cop, the ""evidence"" found possibly by anot
her, word getting around, suspicions aroused, etc). It\'s compelling because Seiko actually was against the plan
from the start, manipulated by the lustful but ill-prepared Toyoji, and her reactions to Gisaburo\'s re-appearanc
es are staggering to her. Take the one that comes closest to poetry: Gisaburo\'s ghost, pale-blue face and mostly
silent, chilling stare, motions for Seiko to get on the rickshaw. She does, reluctantly, and he pushes her around
on a road she doesn\'t know, in the wee hours before dawn, surrounded by smoke. Most Japanese ghost stories wish
to heavens they could get this harrowingly atmospheric.

While it starts to veer into hysterics towards
the end, there\'s so much here that director Oshima gets right in making this a distinctive work. After hitting i
t huge in the international cinema world with In the Realm of the Senses (which, ironically, got banned in his ow
n country), he made something that, he claimed, was even *more* daring that \'Senses\'. Maybe he was right; Empir
e of Passion has less graphic sexual content by far than its predecessor (also starring Tatsuya Fuji, a magnifice
ntly physical actor with an immense lot of range), but its daring lies in crafting a world of dread. You can beli
eve in ghosts in this story, but you also have to believe how far down to their own personal hells these two woul
d-be lovebirds will go. The snooping detective or the gossiping townspeople are the least of their worries: the f
ate of their very souls is at stake.

And Oshima takes what in other hands could be merely juicy pulp (
sadly, it wouldn\'t surprise me if an American remake was already in the works) and crafts shot after gorgeous sh
ot, with repetition working its way into the mis-en-scene (i.e. the shots of Seiko and Toyoji walking on that roa
d, the camera at a dutch angle, the world tilted and surrounding them in a grim blue hue) as well as some affecti
ng movements that will stay with me long after I finish typing this (i.e. Toyoji throwing the leaves by one hand
into the well in slow motion, or how Seiko\'s nude body is revealed after she becomes blind). It\'s daring lies i

that as well- about life and death\'s connections to one another, inextricably. It\'s a classic waiting to be dis

rb ""see no evil, hear no evil, speak no evil"" and cuts eyes, ears, and tongues out of his victims. So far, six
eyes, six ears, and three tongues. In very ingenious fashion, Renart and Smith figure out that the Monkey Killer
is probably going to kill other three people... well, because he probably wants to complete the number 666. So su
ddenly the film focuses on Tom Gerrick (Casper Van Dien), a young, successful, good-looking businessman, with a d
readful temper. And that\'s where the rip-off of American Psycho kicks in.

So we follow the life of th
e two police officers and the young psychopath, none of which is interesting in the least, until they finally mee
t. Along the way to that, a disco where Renart barely misses Gerrick unintentionally offers us one of the funnies
t scenes in recent memory: Renart goes in the back of the disco club, because... well, just because the script te
lls us it\'s a suspect place; then, with one single punch in the stomach, Renard gets rid of a big guard who bloc
ks the path, and the guard is never heard of again? Does this scene strike anyone else as completely unrealistic?

Anyway, after another murder, Gerrick turns in as a witness, but Smith and especially Renart immediat
ely suspect he might be the killer. In typical Basic Instinct fashion, Smith gets some dates with the young busin
essman, under the assumption that she might discover his true identity.

I won\'t spoil the ending but
it is, quite simply, an embarrassment; there are contradictions, some plot holes, issues that never get resolved,
and especially there is one last scene where a brutal mass murder, supposed to be shocking and sad, comes off as
such laughably overdone and nonsensical that I frankly can\'t imagine how anyone could not laugh at it.

At 87 minutes, Sanctimony is really pushing it. You never care about one single character, because they are all
so flat (not to mention boring) that you know exactly who is who the first time you meet them. You are never pull
ed into the story, because the scenes are connected through weak plot devices when not downright unnecessary and
out of place. The acting ranges from average (Van Dien) to downright atrocious (Rubin, and most of the supporting
cast); the music is abysmal generic techno, and the photography is one of the worst I have ever seen. Of course,
like every fiasco of the genre, we are provided with a little bit of gratuitous nudity.

Maybe if Otto Preminger had shot the thing in the real Chicago instead of those obvious studio sets t
he film might have been better yet. Who knows, maybe Preminger couldn\'t get enough money to pay for the location
. It\'s the only flaw I find in the film.

Frank Sinatra is a heroin addicted card dealer who was buste
d for covering for his boss Robert Strauss when the game was raided. He took the cure while in jail and wants a n
ew life as a jazz drummer. But a whole lot of people are conspiring against him.

First Bob Strauss who
wants him back dealing, especially because a couple of heavyweight gamblers are in town. He uses a few underhande
d methods to get Sinatra\'s services back. Secondly Darren McGavin is the local dope dealer who wants Sinatra goo

d and hooked as a customer again. And finally Eleanor Parker his clinging wife who\'s working a con game to beat all, just to keep him around.

Frank Sinatra got a nomination for Best Actor for this film, but lost to Ernest Borgnine in Marty. Sinatra might have won for this one if he hadn\'t won for From Here to Eternity in the Supporting Actor category a few years back and that Marty was such an acclaimed film in that year. His scenes going through withdrawal locked up in Kim Novak\'s apartment will leave you shaken.

Eleanor Parker does not get enough credit for her role. She\'s really something as the crazy scheming wife who wants Sinatra tied to her no matter what the cost. If she had not been nominated that same year for Interrupted Melody, she might have been nominated for this. 1955 marked the high point of her career.

Darren McGavin got his first real notice as the very serpentine drug peddler. His performance is guaranteed to make your flesh crawl.

Elmer Bernstein contributed a great jazz score to accentuate the general dinginess of the bleak Chicago neighborhood the characters live in. Not a place you\'d want to bring up your family."'],
['458,"This film was basically set up for failure by the studio. One, Anne Rice (author of the book) offered to write the screen play but was refused by the studio. Two, they tried to stuff 2 in depth novels in to a 2hour movie.

I maintain the only way for these two books -Vampire Lestat and Queen of the Damned- to work in a live action form would be through a mini-series. First off the the Vampire Lestat alone takes place from the 1700\'s to the 1980\'s and has a plethora of character vital to the plot understanding of the main character, Lestat. The entire book Vampire Lestat sets up the events of the second part Queen of the Damned. Without that full understanding the premise of a movie is destroyed.

Lestat was not cruel and vicious to all, he was not wanting to go along with Akasha\'s plans, Marius did not make Lestat, Lestat did not love Jesse or make her, Lestat could not go remain unscathed by the light, Marius was not after David nor the other way around, every character was completely represented wrong, BASICALLY same names different story.

If they wanted to make a vampire movie, fine. Even if you wanted to be inspired by these novels, fine. But don\'t piggie back into the theaters off the success of Rice\'s great novels and characters just to destroy what her loyal readers have come to love.

If you haven\'t read the books you won\'t understand the film really, if you have read the books you will be insulted. That being said, I am such a huge fan I had to see the movie knowing full well this was going to be the case and still went for it. Catch 22, must see it, will hate it."'],

['462,"What a frustrating movie. A small Southern town is overflowing with possibilities for exploring the complexities of interpersonal relationships and dark underbellies hidden beneath placid surfaces, as anyone who has read anything by Carson McCullers already knows. This does none of that. Instead, the writers settled for cutesy twinkles, cheap warm fuzzies and banal melodrama. The thing looks like a made-for-TV movie, and was directed with no particular distinction, but it\'s hard to imagine what anyone could have done to make this material interesting.

The most frustrating aspect, though, is the fact that there are a lot of extremely competent and appealing actors in this cast, all trying gamely to make the best of things and do what they can with this--well, there\'s no other word for it--drivel. A tragic waste of talent, in particular that of the great Stockard Channing. "'],
['463,"This movie starred a totally forgotten star from the 1930s, Jack Pearl (radio\'s ""Baron Munchausen"") as well as Jimmy Durante. However, 7-1/2 decades later, it\'s being billed as a Three Stooges film because they are the only ones in the film who the average person would recognize today. Film fanatics will also recognize the wonderful Edna May Oliver as well as Zazu Pitts.

As for the Stooges, this is a film from there very early days--before MGM had any idea what to do with the team. At this point, they were known as ""Ted Healy and his Stooges"" as Healy was the front man. Fortunately for the Stooges, they soon left this nasty and rather untalented man (read up on him--you\'ll see what I mean) and the rest is history. Within a year, they were making very successful shorts for Columbia and executives at MGM were soon kicking themselves for losing the team. This sort of thing was a common occurrence at MGM, a great studio which had no idea what to do with comedy (such as the films of Buster Keaton, Laurel and Hardy, Abbott and Costello and others). In fact, up until they left for Columbia, MGM put them in a wide variety of odd film roles--including acting with Clark Gable and Joan Crawford in DANCING LADY. And, oddly, in this film they didn\'t act as a team--they just did various supporting roles, such as Larry playing the piano!

This particular film begins with Pearl and Durante lost in the African jungle. When they are rescued and brought home, all sense of structure to the film falls apart and the film becomes almost like a variety show--punctuated by scenes with the leads here and there. As for Pearl, I could really see why he never made a successful transition to films, as he has the personality of a slug (but slightly less welcome). As for Durante, I never knew what the public saw in him--as least as far as his films are concerned--he was loud and...loud! He apparently took time off from helping MGM to ruin Buster Keaton\'s career to make this film. Together, Pearl and Durante rely on lots of verbal humor(?) and Vaudeville-style routines that tend to fall rather flat.

In this film, the Stooges they didn\'t yet have the right chemistry. Seeing Healy doing the job that Moe did in their later films is odd. What they did in the film was pretty good, but because all the segments were short, they came on and off camera too quickly to allow them to really get into their routines. Stooges fans might be very frustrated at this, though die-hard fans may want to see this so that they can complete their life-long goal of seeing everything Stooge--even the rotten Joe DeRita and Joe Besser films (oh, and did they got bad after the deaths of Shemp and Curly).

Overall, the film is rather dull and disappointing. However, there are a couple interesting things to look for in the mess. At about the 13 minute mark, you will see a brief scene where a tour guide on a bus is singing. Look carefully, as this is Walter Brennan in a role you\'d certainly never expect! Another unusual thing to look for in the film is the ""Clean as a Whistle"" song starting at about 22 minutes into the film. This song and dance number is clearly an example of a so-called ""Pre-Code"" scene that never would have been allowed in films after 1934 (when the Production Code was strengthened). Despite the word ""Clean"" in the title, it\'s a very titillating number with naked women showing lots of flesh--enough to stimulate but not enough to really show anything! It\'s quite shocking when seen today, though such excesses were pretty common in the early 1930s. Finally, at the 63 minute mark, see Jimmy Durante set race relations back a few decades. See the film, you\'ll see that I mean!"'],

narcissism. It is dangerous, but only slightly historical. I suspect Alexander the Great would not be celebrated

t and just jarring in this particular piece. Peter Gallagher and Jenny Levine are just awful as the slave owning

McQueen\'s a new kid with no crimina

there\'s a gay relationship going on between young Steve and David Clarke. He\'s not liked at all by the other he

Steve also has a girl friend in Molly McC

The

['473,"This is a bad film, as its central message is very muddled and the plot seems like it was the result of m erging several disparate scripts. As a result, it often makes absolutely no sense at all and certainly is not a f ilm Miss Dunne or Mr. Huston should have been proud of making. However, the film IS worth watching if you are a f an of ""Pre-Code"" films because it features an amazingly sleazy plot that strongly says that nice girls DO put o ut--even if they aren\'t married and even if their partner IS!!

The film begins with Miss Dunne as a social worker assisting troops heading to Europe for WWI. In the process, she meets a scalawag (Bruce Cabot) who eventually convinces her to sleep with him. She becomes pregnant and he then goes on to the next unsuspecting wom an. However, Miss Dunne does NOT want him back, as she realizes he\'s not worth it, but later her baby dies at ch ild birth. While all these very controversial plot elements are used, they are always alluded to--almost like the y wanted the adults in the audience to know but hoped that if they phrase it or film it in just the right way, ki ds in the audience will be clueless (after all, films were not rated and kids might attend any film at this time) .

Surprisingly, this entire plot involving a stillborn baby and Cabot ends about 1/4 of the way throug h the film and is never mentioned again or alluded to. It was as if they filmed part of a movie and abandoned it- -tacking it on to still another film. In this second phase of the film, Miss Dunne unexpectedly begins working at a women\'s prison (though we actually never really get to see her doing anything there). What we do see are count less horrible scenes of severe abuse and torture that were probably designed to titillate. And, as a result of al l this violence, Miss Dunne goes on a crusade to clean up the prison and becomes a reformer and famous writer.

But then, out of the blue, another type of film emerges and the women\'s prison reform business goes by t he wayside. Dunne meets a judge (Walter Huston) who is married but he desperately wants her. Now throughout the f ilm, Dunne is portrayed as a very good girl--even though she did have unmarried sex with Cabot (she was more or l ess tricked into it). But now, single Irene, who is a tireless reformer and good lady begins sleeping with a marr ied man. He tells her that he and his wife are estranged and are married in name only, but she never thinks to in vestigate if this is true, and with his assurance, off flies her clothes and they are in the baby making business ! BUT, while she\'s pregnant with his love child, he\'s indicted for being a crooked judge. He assures her he\'s innocent, but he\'s convicted and it sure sounds like he\'s a scoundrel--using inside information from people tha t have come before his bench in order to amass a fortune. Then, in the final moments of the film, Miss Dunne trie s in vain to get him freed and vows to wait with the child until Huston is released. The film then ends.

So, we basically have three separate films AND a bizarre early 30s idea of what a nice girl should be like. I g athered that she should be a strong-minded working girl who instantly becomes an idiot in her personal relationsh ips! This really undoes all the positives about Dunne\'s character and it\'s really hard to imagine anyone liking the film. A strong women\'s rights advocate might easily be offended at how weak-minded and needy she was and rel igious people might see her as totally amoral or at least morally suspect! With a decent re-write, this could hav e been a good film or at least interesting as a lewd and salacious film, but it couldn\'t make up its mind WHAT i t wanted to be and was just another dull Pre-Code film."'],

Two guys (one naive and one loud mouthed a**) take a road trip to stop a wedding but have the worst possible luck when a maniac in a freaky, make-shift tank/truck hybrid decides to play cat-and- mouse with them. Things are further complicated when they pick up a ridiculously whorish hitchhiker. What makes t his film unique is that the combination of comedy and terror actually work in this movie, unlike so many others. The two guys are likable enough and there are some good chase/suspense scenes. Nice pacing and comic timing make this movie more than passable for the horror/slasher buff. Definitely worth checking out."'],
['475,"(Very mild spoilers; a basic plot outline, no real details)

IF you go into this movie with su fficiently low expectations. I saw this film at a free screening a few days ago in Maryland, and the only reason I agreed to go...was because it was free. I expected a few chuckles, but as I have never been a huge fan of Tenac ious D, not much more then that.

The first ten minutes of the film are hilarious, as we are given a lo ok at Jack Black\'s humble Christian origins in a Midwest American town. The film then takes us years into the fu ture, to the first meeting between JB and Kyle Gass, the second half of Tenacious D. We see the formation of the band and the genesis of its name. Finally, as the title suggests, the second half of the film details their quest to obtain the fabled ""Pick of Destiny."" Again, the beginning of the film was laugh out loud funny, and most of the movie at least kept a smile on my face. That said, there were times it felt a bit long; it\'s only 100 minute s, but it still felt like it should have been a bit shorter. The story is every bit as absurd as it sounds, and t his is not a film you see if you want a real plot. Which is fine, except it means that many of the jokes are very hit or miss...and when they miss, they miss bad. Same thing with the songs; it is a musical, but many of the song s lost their appeal after the first minute or so...then kept going anyway.

I will say that the R-ratin g really saved this movie from bombing; The D\'s humor simply couldn\'t work without cussing, sex, and drug refer ences. But unless you\'re a real fan of the band, or at the very least know you appreciate their style of comedy, I would recommend you save yourself some money and rent. ""Pick"" will make you giggle a bit...but is it worth 9 bucks? I don\'t think so. I was tempted to rate it a 6, but since I do think that many would enjoy it enough to j ustify seeing it in theatres, a 7 seems more appropriate. Just be sure it\'s your style."'],
['476,"I shall begin with a disclaimer: This movie is NOT recommended for anyone who lack interest or have never played FF7 the game before watching. The movie relies on the audience\'s knowledge of each character in the game to convey story plot elements. And it does so very subtly. Do your homework before watching this wonderful piece of CG film and I promise it\'ll be that much better.

With that in mind, this film has some of the most spectacular CG sequences I have ever witnessed. The whole experience felt like an extra long FMV sequence from th e game, on steroids. Yeah. The attention to detail in each scene, especially in the heavy action oriented ones, i s so impeccable it left me with a sense of awe.

I believe the soundtrack is simplified so as to help t he audience focus on the animation quality more than the music. Again, for those who are familiar with the FF7 st ory and background, the music should not surprise anyone (although the timing and placement of each soundtrack fr om the original accompany each scene and mood to the point where the music simply enhances the animation).

Once again, I myself having only played through FF7 once, thoroughly enjoyed this piece of art from Square E nix. And that is the feel in most scenes, choreographed and organized. Like a dance.

In short, if you enjoyed the music or the game Final Fantasy 7, this film will blow you out of the water. If you\'re in the unfort unate majority who has not experienced the goodness known as FF7 on Playstation or PC, doing so before watching t he movie will allow for an exponentially greater experience.

Finally, I just want to make a note of th e quality in animating this film. Characters move with fluidity. Each scene background comes to life and tells it s own story. For those who criticize the thinness and dependency of the story plot, I urge you to reexamine the a nimation. Facial reactions, subtle clues that bring about another level of entertainment above the typical narrat ion method of story plot delivery.

Square Enix and the great Tetsuya Nomura has set a new bar for qual ity animation and storytelling. Advent Children has ushered in a new era for CG animations, allowing the subtleti es that lie in each character to speak volumes in and of themselves.

Thanks Square Enix. The wait was well worth it."'],
['477,"This is quite possibly one of the worst movies ever made. Everything about it--acting, directing, script, cinematography--is dreadful. The alien (a human in sparkly suit) claims to be from a nearby universe; one assumes the scriptwriter meant ""galaxy"" but didn\'t bother to get a dictionary to check his terms. A better title for t he film would be ""It Came From the Planet of Plot Contrivances."" The plot is excessively silly and nearly nonex

istent. The humans are all given magical MacGuffins that conform to a tortuous series of unlikely restrictions just to move the bare plot. Any thought to the passage of time is ignored. Now it\'s a couple days after meeting the alien, then BAM! all of a sudden there\'s only a couple hours left until zero hour. Do yourself a favor and miss this movie. You will make yourself stupider for having watched it. The ending is particularly silly, and should have been accompanied by someone going ""Ta-Da!!!!"" as the scriptwriter just pulls something random out of his butt. I think the real alien plot is that this movie sucks so bad you\'ll get cancer watching it. If you can watch the last 10 minutes without crapping yourself (""enemies of freedom""--honestly) laughing, you\'re retarded."'],
['478,"If you really really REALLY enjoy movies featuring ants building dirt-mirrors, eating non-ants, and conquering the world with a voice-over narrative, then this is the movie for you. Basically, a couple of scientists working out of a bio-dome communicate with highly intelligent ants (the most intelligent actors in this film) in an attempt to try to thwart their plans of conquest and extermination. Throughout the movie the two scientists (and a girl they rescued from the ants) use everything at their disposal (computers, green dye, and horrid acting), but to no avail. I guess they just couldn\'t afford any pesticides because the movie would be over too quickly.

The title of the movie ""Phase IV"" is something of a mystery. This is not a spoiler, but ""Phase I"" starts right after the opening credits whereas you don\'t reach ""Phase IV"" until the end credits roll. Apparently the director knew the movie would be tedious to get through and so placed Phases 1 - 3 throughout the movie as a kind of progress report: ""Hang in there buddy! Only 1 more phase until final credits!"" As a MST3K episode, this one wasn\'t very good for two reasons: 1) This one is from the Season 0 on KTMA when they were first starting out so the riffing is not as good as in later seasons; and 2) This movie is so bad not even J&TB can lighten it up. There are one or two Gamera references as they had just finished riffing 5 Gamera movies.

The movie does have a trick/surprise ending, but I was so glad to reach the end the effect was lost on me."'],

['480,"From director Barbet Schroder (Reversal of Fortune), I think I saw a bit of this in my Media Studies class, and I recognised the leading actress, so I tried it, despite the rating by the critics. Basically cool kid Richard Haywood (Half Nelson\'s Ryan Gosling) and Justin Pendleton (Bully\'s Michael Pitt) team up to murder a random girl to challenge themselves and see if they can get away with it without the police finding them. Investigating the murder is homicide detective Cassie \'The Hyena\' Mayweather (Sandra Bullock) with new partner Sam Kennedy (Ben Chaplin), who are pretty baffled by the evidence found on the scene, e.g. non-relating hairs. The plan doesn\'t seem to be completely going well because Cassie and Sam do quite quickly have Richard or Justin as suspects, it is just a question of if they can sway them away. Also starring Agnes Bruckner as Lisa Mills, Chris Penn as Ray Feathers, R.D. Call as Captain Rod Cody and Tom Verica as Asst. D.A. Al Swanson. I can see now the same concept as Sir Alfred Hitchcock\'s Rope with the murdering for a challenge thing, but this film does it in a very silly way, and not even a reasonably good Bullock can save it from being dull and predictable. Adequate!"'],
['481,"Things to Come is an early Sci-Fi film that shows an imagined world, or ""Everytown"" through 100 years. You can break it up into about 4 different scenes or parts. The film spans from 1940 to 2036 and is mainly about how this ruler or the ""Boss"" wanted to get the capability to fly in airplanes again, after Everytown was bombed and war broke out.

This film only has about 3 faults: it\'s audio is muddy and video had some quirks, the characters aren\'t deep at all, and the overall plot isn\'t altogether solid. The plot is lacking something that I can\'t put my finger on... it just seems a little ""fluffy."" But if you love sci-fi and are interested in what H.G. Wells though might happened in the next hundred years, this is a must see. It\'s worth seeing just to learn of what everyone was fearing: a long, drawn-out war, because they were just about to go to war with Germany, and there was a threat of biological weapons and everything.

Things to Come is a pretty good movie that most people need to see once."'],

['483,"One word can describe this movie and that is weird. I recorded this movie one day because it was a Japanese animation and it was old so I thought it would be interesting. Well it was, the movie is about a young boy who travels the universe to get a metal body so he can seek revenge. On the way he meets very colorful characters and must ultimately decide if he wants the body or not. Very strange, if you are a fan of animation/science-fiction you might want to check this out."'],
['484,"While i was the video store i was browsing through the one dollar rentals and came upon this little gem. I don\'t know what it was about it but i just had a gut instic about it and wow was i ever right.

The story centers around two girls who have just survived a school shooting. One of the girls is Alicia a teenage rebble who is the only witness for the full attack and another is Deanna another survivor who survived a bullet to the head by some miracle. Thrown together by fate, they slowly begin a painful and beautiful display of healing and moving on.

I just hate it when amazing movies fall through the cracks. Because wow what a performance by Busy Phillips and Erkia Christensen not to mention the rest of the cast! My only complaint is that the DVD was sorely lacking in special features. Oh and some of the jump cuts in the movie were kind of jarring. But all in all a excellent movie."'],

Best in Show is the last movie that I laughed so hard and so much in. The movie was non-stop until the end when t

As far as the actual film goes, it could have used a better edit, it\'s choppy at times but we have to be
forgiving for that. All the characters are great. It\'s not like an Adam Sandler movie where he tries to be funny
and everyone else suffers around him and is the butt of the joke. I think I will remember all the main characters

['489,"It\'s rare that I feel a need to write a review on this site, but this film is very deserving because of
how poorly it was created, and how bias its product was.

I felt a distinct attempt on the part of the
film-makers to display the Palestinian family as boorish and untrustworthy. We hear them discuss the sadness that
they feel from oppression, yet the film is shot and arranged in a way that we feel the politically oppressed popu
lation is the Jewish Israeli population. We see no evidence that parallels the position of the Palestinian teenag
er. We only hear from other Palestinians in prison. I understand restrictions are in place, but the political nat
ure of the restrictions are designed to prevent peace.

I came out of the film feeling that the mother
of the victim was selfish in her mourning and completely closed minded due to her side of the fence, so to speak.
She continued to be unwilling to see the hurt of the bomber\'s parents, and her angry and closed-minded words cau
sed the final meeting to spiral out of control. It is more realistic, in my mind, to see the Israeli mindset to b
e a root of the problem; ignored pleas for understanding and freedom, ignored requests for acknowledgment for the
process by which the Jewish population acquired the land.

I have given this a two because of these sel
fish weaknesses of the mother, which normally would be admirable in a documentary, however in the light of the la
ck of impartiality, it all seems exploitative. Also for the poor edits, lack of background in the actual instance
, and finally the lack of proper representation of the Palestinian side. Ultimately, it is a poor documentary and
a poor film. I acknowledge this is partially the result of the political situation, but am obliged to note the fl

['492,"In an alternate 1950s, where an outbreak of the undead (caused by a mysterious \'space-dust\') has been c

Fido quickly becomes a surrogate father to
Timmy, whose real dad is unable to adequately express his love for his son (or for his hot-to-trot wife, played b
y the gorgeous Carrie-Anne Moss) having been psychologically scarred as a child (when he was forced to shoot his
own father, who tried to eat him!).

Timmy runs into a spot of bother, however, when his putrid pal\'s
collar goes on the blink, and he attacks and kills an elderly neighbour. With the authorities on Fido\'s trail, t
rouble brewing with a pair of local bullies, and his mother forming a bond with their undead house-help, will Tim
my be able to hold on to his new found friend?

A refreshing take on the whole zombie schtick, Fido is
a thoroughly entertaining, deliciously dark comedy that should appeal to anyone with a slightly twisted sense of
humour. Taking the Romero zombie-verse and transplanting it into 1950s small town America is a stroke of genius,
and the result is simply one of the most original films to tackle the whole \'reanimated dead\' theme that I have
seen.

Connelly\'s Fido is a cinematic zombie worthy of inclusion in the Undead Movie Hall of Fame, alo
ng with Day Of The Dead\'s Bub, and Return Of The Living Dead\'s Tarman; it is not often I feel empathy for a wal
king corpse, but The Big Yin\'s performance is so fine that I actually found myself rooting for the big blue bag

erving special mentionsÂ–Ray, because, for one so young, he puts in a particularly assured turn, and Moss because

she is so bloody yummy!

This is the third zombie film that I have watched this week (the others being the somewhat disappointing Planet Terror and the rather fun Flight Of The Living Dead), and, to my surprise, it is also the best. Director Andrew Currie has given fans of the genre something truly original to treasure and is a talent to be watched in the future.

['493,"An extremely down-to-earth, well made and acted ""Rodeo"" Western. No gussied up stars needed here as all cast members were regular people telling a real life story about a rodeo hustler and his entourage in the 60\'s and 70\'s West. But hats off particularly to Slim Pickens for giving what I think was his signature performance, especially given the fact that he had been a rodeo clown in real life. His role went far beyond the mere clown role as he deeply dealt with all the ""ups and downs"" of the hard-nosed rodeo life and the psychological devastation that so frequently surrounds such a life style. He and Mr. Coburn teamed up extremely well as partners, not only on the circuit itself, but also in the real world outside the corral. Also, check out Anne Archer as Coburn\'s Native American love interest in the latter part of the movie. Must have been one of her first roles.

Not as flashy, perhaps, as ""Junior Bonner"", but equally heart rendering and impacting in its portrayal. Thanks to the Encore Western Channel for showing this true grit of an under-rated movie from time to time."'],
['494,"Despite some reviews being distinctly Luke-warm, I found the story totally engrossing and even if some critics have described the love story as \'Mills and Boon\', so what? It is good to see a warm, touching story of real love in these cynical times. Many in the audience were sniffing and surreptitiously dabbing their eyes. You really believe that the young Victoria and Albert are passionately fond of each other, even though, for political reasons, it was an arranged marriage. I did feel though that Sir John Conroy, who was desperate to control the young Queen, is perhaps played too like a pantomime villain. As it is rumoured that he was in fact, the real father of Victoria (as a result of an affair with her mother The Duchess of Kent) it would have been interesting to explore this theory. Emily Blunt is totally convincing as the young Princess, trapped in the stifling palace with courtiers and politicians out to manipulate her. She brilliantly portrays the strength of character and determination that eventually made Victoria a great Queen of England, which prospered as never before, under her long reign. I believe word of mouth recommendations will ensure great success for this most enjoyable and wonderful looking movie."'],
['495,"""American Nightmare"" is officially tied, in my opinion, with ""It\'s Pat!"" for the WORST MOVIE OF ALL TIME.

Seven friends (oddly resembling the K-Mart version of the cast of ""Friends"") gather in a coffee shop to listen to American Nightmare, a pirate radio show. It\'s hosted by a guy with a beard. That\'s the most exciting aspect of his show.

Chandler, Monica, Joey, and... oh wait, I mean, Wayne, Jessie, and the rest of the bad one-liner spouting gang all take turns revealing their biggest fears to the bearded DJ. Unbeknownst to them, a crazed nurse/serial killer is listening...

Crazy Nurse then proceeds to torture Ross and Rachel and... wait, sorry again... by making their fears come to life. These fears include such stunners as ""voodoo"" and being gone down on by old ladies with dentures.

No. Really.

This movie was, in a word, rotten. Crazy Nurse\'s killing spree lacks motivation, there\'s nothing to make the viewer ""jump,"" the ending blows, and--again--voodoo?

If you have absolutely no regard for your loved ones, rent ""American Nightmare"" with them.

If you care for your loved ones--even a little bit--go to your local Blockbuster, rent all of the copies of ""American Nightmare"" and hide them in your freezer."'],
['496,"First off, I have to say that I loved the book Animal Farm. I read it with my 9th grade class, and it was great. We also decided that watching the movie would be beneficial. The movie was so disappointing to me. The movie cuts out some characters, and misses a lot of the main points of the book. It skips around a lot, and doesn\'t explain anything in detail. If someone was watching this movie without having first read the book, they would be confused. The most disappointing thing in this movie to me, was the ending. The ending in the book was the most powerful, and in the movie, they changed it! It was supposed to be the pigs and men in an alliance and sort of ""melting"" together, but instead, the movie made it seem like the animals were going to rebel against the pigs. To sum up, I don\'t think that this movie captured the real meaning that Orwell portrayed in his book."'],
['497,"This movie was extremely boring. I only laughed a few times. I decided to rent it when I noticed William Shatner\'s name on the cover. She takes him to a club called the Playground, where he befriends several pimps. When mayor Tony Gold (Shatner) decides to take over the pimp business, Lil\' Pimp must lay down for his homies.

The animation isn\'t very good in this. It looks like it was made with Macromedia, which I\'m sure it was. It doesn\'t suck, it\'s just the sort of choppy flash animation that people have gotten used to over recent years. The humor in this is not very good, I didn\'t think any of it was funny."'],
['498,"I was disgusted by this movie. No it wasn\'t because of the graphic sex scenes, it was because it ruined the image of Artemisia Gentileschi. This movie does not hold much truth about her and her art. It shows one piece of art work that she did (Judith Beheading Holofernese) but shows that being entered as testimony in the rape trial when she did not paint her first Judith for a year after the trial.

I don\'t know if you understood this from the movie, probably not, Tassi was not a noble character. He RAPED Artemisia. It was not love, it was rape. He did not claim to accept false charges of rape to stop her from suffering while she was tortured. According to the rape transcripts he continued to claim that he never carnally knew Artemisia (aka had sex with) while she states over and over again ""It\'s true"".

I encourage all of you people to go out and find about the real Artemisia and see what she is really about. Don\'t base all of your knowledge on this fictional movie. I encourage you to do some research, Artemisia really does have interesting story behind her and some amazing art work.

Don\'t see the movie, but find out the true story of Artemisia."'],
['499,"Such a joyous world has been created for us in Pixar\'s A Bug\'s Life; we\'re immersed in a universe which could only be documented this enjoyably on film, but more precisely a universe which could only be documented through the world of animation. For those who have forgotten what a plentiful and exuberant world animation can offer Ã— when it\'s in the right hands that is Â— A Bug\'s Life is a warm reminder. We walk out of the film with an equally-warm feeling, and a sense of satisfaction derivative of only high-calibre film productions.

It is only Pixar\'s second animated feature. The sub-group of Disney made their spectacular debut and perhaps entirely inadvertent mark on the film world three years prior in 1995, with their landmark movie Toy Story. It was a movie which defied convention, re-invented and breathed new life into animation and defined a whole new level of excellence. Now, they return with their sophomore effort which, to be honest, draws a creeping sense of cynicism in us all prior to seeing the film.

After all, it\'s a film about ants. Well, all walks of the insect and bug world are covered in A Bug\'s Life, but it is the ant which is the focal point in this film, as humans are the focal point in dramas, romances and so on. How can such an insignificant species of animal such as an ant act as the protagonist of a movie, let alone provide the entire premise of a feature film? Surely they jest. However, we forget that in Toy Story, a bunch of toy-box items were able to become the grandest, most inspiring and lovable bunch of animated heroes and villains ever concocted. The guys at Pixar manage to pull off the same feat, and manage to turn a bunch of dirty and miniscule bugs into the most endearing and pleasant gang of vermin you\'ll probably ever encounter.

Not only are they all entirely amiable and likable Â— there isn\'t an unpleasant character in sight; even the villains are riveting characters Â— but they\'re colourful, they\'re eclectic, and they\'re idiosyncratic. And the array of characters is also gargantuan for lack of a better term, only adding the rich layers of distinctiveness already plastered onto A Bug\'s Life from the beginning. We shall start with our main character, and our hero. His name is Flik (David Foley), and his character is rather generic to say the least. Out of the thousands of faithful and obedient worker ants residing on the lush, beautiful Ant Island, he is the one considered the \'black sheep\' of the clan, as seen in the opening moments of the movie when he inadvertently destroys the season\'s harvest with his antics.

The problem arises in the fact that the ants\' harvest

is for a bunch of greedy grasshoppers led by Hopper (Kevin Spacey), who are eager to continue to assert their wra
th and autocracy amongst the puny little ants; when they show up to Ant Island for their annual banquet and see t
hat their offering is gone, they go insane, for lack of a better term. Hopper offers a proposition to save the an
ts from total extinction at his pack\'s hands; however, it\'s a negotiation which is simply impossible to fulfil.
The cogs and clockwork in Flik\'s mind run at full steam now despite his guilt and shame, and he offers to leave
Ant Island in search of some mighty bug warriors who can come to the colony\'s rescue and fight off Hopper and th
e grasshoppers.

If you think about it, A Bug\'s Life bears some heavy resemblance to the plot line\'s
of Akira Kurosawa\'s classic Seven Samurai, or the American remake The Magnificent Seven, in which a village of h
apless but good-hearted folk are threatened by malevolent and wicked enemies Â– one lone village-dweller goes in
search for help in the big city, finds it and returns to the colony to drive off evil. In A Bug\'s Life, the help
comes in the form of a down-and-out circus troupe who is mistakenly perceived by Flik as warriors in a bar-room b
rawl.

Much amusement comes out of these scenes, and much amusement comes out of these circus troupe bu
gs. Among them are an erudite stick insect (David Hyde Pierce), a side-splitting obese German caterpillar by the
name of Heimlich and a quasi-femme fatale ladybug who\'s in fact a gritty and masculine ladybug (Dennis Hopper).
It\'s exceedingly enjoyable watching these bugs on-screen, as it is watching the bugs and the insects interact on
-screen, as is the entire movie collectively.

As I\'ve said, much amusement and mirth comes out of the
ir characters and joyous interactions with one another, which give way to a bevy of hilarious lines, wonderfully
suspenseful and riveting situations and overall a dazzling movie. What makes A Bug\'s Life even better is that th
e film isn\'t restricted simply to children as many may perceive it to be, although children would indeed find mo
re entertainment out of this film Â– the clichÃ©d kid-friendly situations are a bit more abundant than we\'d like
. However, it\'s easy to ignore this fault, and it\'s incredulously easy to enjoy this film.

Although
A Bug\'s Life may not reach the dizzying and landmark standards set by its predecessor, this is still a superb mo
vie, and the start of something promising here. Pixar have proved that they\'re not just a one-hit wonder, but in
stead a much-gifted and talented group of film artists in Hollywood. They raise the bar endlessly, and when someo
ne always manages to top their standards, it\'s only always by themselves. What more is there to say about A Bug\
's Life other than: see it; it\'s not quite the best which we\'ve seen from the folks at Emeryville, California,
but this beats out the lot of its year Â– and I\'ll be damned if this isn\'t the best animated feature of 1998.<b

The sets and costumes are flawless, the direction is stylish and the characters

I can really relate to the main character Jess. At the start of the movie she\'s
a shy girl with a slightly odd background who has a lot more friends who are boys than that are girls. She really
sucks you into her life. I also certainly can\'t fault any of the protagonist\'s acting, or anyone else\'s in the
film.

The soccer was interesting to watch even for someone like me who has no idea of the rules. The m
ovie is never boring. The romance is really cute and didn\'t make me blush tooooo hard! One thing that really mad
e it though was the Indian factor. Jess\' parents are Indian and there are many colourful Indian conventions thro
ughout the film providing a very interesting cultural insight as well as everything else. The Indian people are a

 ['507,"This animation has a very simple and straightforward good vs. evil plot and is all about action. What set
s it apart from other animation is how well the human movements are animated. It was really beautiful seeing the
fleeing woman running around on the screen from left to right and look around, her movements were done so well. W
hy don\'t they use this rotoscopic technique more these days? It\'s quite effective.

Fire and Ice, in

it\'s prehistoric setting and scarcely dressed women, was clearly devoted to showing the beautiful damsel in dist
ress in various sexy ways, her voluptuous body serving as pure eyecandy. Some may hate this and regard it as yet
another moronic male sexual fantasy, others (including plenty of women) will adore it\'s esthetic quality. I for
sure did not mind! Bakshi just loves animating lushious, voluptuous babes, as can also be seen in Cool World, and
I don\'t think he has to apoligize since it\'s pretty much animation for adults. But I had also enjoyed this anim
ation as a child and I never forgot it.

This one was just special, so different from the standard Disn

who like animations with lushious women: try Space Adventure Cobra as well.

['514,"First, let me just comment on what I liked about the movie. The special effects were fantastic, and very
rarely did I feel like I was watching a video game. There, that is the last nice thing I have to say about this f
ilm. In fact, I would just like everyone reading this to take note that I can\'t even put into words how hard it
was for me to write this review without swearing.

I have innumerable complaints about the film, but f
our major complaints jump to mind. My first major complaint has to do with the incredible cheesiness of the ""plo
t twist"" (if you can call it that since most people probably saw it coming a mile away) where Lois\'s 5 year-old
son turns out to be the super-powered child of Superman. When the crying super-child throws a piano at Lex\'s hen
chman to save his mother, I almost got up and left the theater. Singer could have made a much better Superman mov
ie without resorting to cheap gimmicks like a seemingly fragile but latently super-powered illegitimate child. It
\'s been 5 days since I saw the movie and I still want to vomit.

My next major complaint has to do wi
th the fact that Superman lifts a continent made out of kryptonite up into outer space. It doesn\'t take comic bo
ok guy from the Simpsons to point out what\'s wrong with that. I don\'t know how many comic books Brian Singer ha
s read, but when Superman is exposed to even a small amount of kryptonite he barely has the strength to stay on h
is feet. Whoever had the idea to have him fly a large island made out of his greatest weakness into space has no
business being associated with any Superman-related projects ever again. The concept is as ridiculous as making a
Dracula movie where the title character has a stake through his heart and still manages to fly a spaceship made o
ut of garlic into the sun. Why not just have Superman eat kryptonite? He can eat it and then brush his teeth with
it, and then go to sleep in kryptonite pajamas. That\'s not any more absurd then having him hoist a continent of
kryptonite into space and then fall powerless through the atmosphere without burning up in re-entry or splatterin
g all over central park when he hits the ground.

My third major complaint has to do with the fact tha
t Singer slaps movie-goers across the face with religious symbolism the entire movie. I have to take issue with h
is characterization of Superman as the only son of a God-like Jor-el sent to Earth to be a savior. Jor-el wasn\'t
all-wise, he was just a scientist. And he didn\'t send his son to earth to be a savior, he threw him in a rocket
and hurriedly fired it into space because his planet was about to explode. I\'ll buy the Christ allegory if Brian
Singer can show me the part in the Bible where God sends Christ to Earth because Heaven was about to explode, and
then radioactive pieces of Heaven become Christ\'s primary weakness. Furthermore, the ""crucifixion"" scene where
Luthor stabs Superman in the side with a kryptonite ""spear"" just makes me want to slam my face into a brick unt
il I\'m too brain-dead to notice the brazenly obvious and inappropriate symbolism that will be tainting the man o
f steel for the foreseeable future. They might as well rename this movie ""Superman Returns: the Passion of the C
hrist.""

And speaking of Luthor, my last major complaint has to do with Singer\'s depiction of Lex Lut
hor. Lex Luthor is a shrewd, cold-hearted business tycoon who is more apt to run for President (which he does in
the comics) than try to destroy the world. The man wants money and power; he wants to be in charge, not wreck eve
rything. Yet the Luthor we see Superman Returns, as well as all the previous Superman movies, is a wacky theatric

al dunce who comes up with zany schemes to destroy the world. If Singer had the slightest loyalty to the characte
rs instead of the (quite awful) previous Superman movies, this film might not be such an unbearable travesty. May
be Singer\'s next project can be a Batman movie where he focuses on the interpretation of Batman from 1960s TV sh
ow. ZAM! WHAP! POW!!

To summarize, I don\'t know what I hate more, the movie itself or the fact that s
o many people seem to be giving it good reviews. Everyone is entitled to their opinion, but if you don\'t hate th
is movie then your opinion is wrong. I sincerely encourage anyone who reads this not to see this movie if you hav
en\'t already. Don\'t see it, don\'t buy it when it comes out on DVD, don\'t rent it...basically don\'t contribut
e any money towards it in any way. This movie does not deserve to make any money. In fact, I think that for every
person that sees this movie, Bryan Singer should be fined 45 billion dollars. If you\'re a Superman fan and you r
eally want to see this movie, just bend over and have someone kick you in the balls and you\'ll get the same expe
rience without having to waste 2 hours of your time."'],
['515,"This is one of the best TV productions of a musical ever. I have heard the Merman cast album, the Angela

ing from the costumes to the sets to the supporting performances is wonderful. The three strippers, led by the al

The story and dialogue needs a complete overhaul. Maybe then the bad acting would not

While I accept that
this had a low budget and the director did a good job visually given what little resources he had, he should have

['517,"Is it a perfect movie? No. It is a weird adaptation from a sci-fi book and it features vampires from spac

When I first saw this movie I was rather young and
all I can remember is the feeling of awe for the movie and Mathilda May. Actually, if it weren\'t for this gorgeo

Lucky for me I got reminded of the movie and watched it

story, but with completely over the top performances. I still enjoyed the movie tremendously (as well as Mathilda
May), but it was a mixture of nostalgia, comparing with the crap movies they make today and actually wanting more

['518,"Overall I was rather impressed with the pilot. The initial first fifteen minutes were worrying, as it did
feel the creators were trying to create a science fiction version of The O.C but this fear is rectified when a te
rrorist incident occurs and from here the show steps into themes and situations that I very rarely see television
tackle.

BSG dealt with themes such as monotheism, existentialism, reality, death and terrorism but the
y were primarily subtext, there for the viewer to contemplate on or ignore if they so choose. Here on the other h
and these subjects are the focus of the show and I personally found myself evoking such works as Ghost In The She

sed. I think if you are a fan of the two I just mentioned or other films/television shows, which deal with the su
bjects I referenced, I think you will find at least something here.

In terms of a starting point to ex
plain how the situation we know in BSG came about I believe they handled it in a very interesting way, I especial
ly liked how they explained where the Cylon\'s belief in one God came from and the creation of Caprica had just e
nough advanced and contemporary technology thrown in to make it appear in the future but not completely alien to
us as viewers.

The only real weak points I noticed were the relationship between the Greystone parents
and the actress who plays \'Lacy Rand\'. While I like Eric Stoltz and Paula Malcomson individually, together thei
r scenes seemed to lack chemistry, at this point it could simply be down to developing their characters, but this
is something I think needs work. I also found Magda Apanowicz to be unconvincing in her role. This again could be
down to experience and time needed to develop, but throughout the episode her acting appeared forced and not comp
letely confident.

Based on the pilot I greatly look forward to seeing where \'Caprica\' goes in the fu
ture and hopefully it will touch the greatness that BSG once did."'],

The story line was new, fresh... A truly brilliant foundation to base a movie on... or so i thought...
<br /
>Farcry the Movie is no less than another directors attempt at cashing in on a successful game franchise (see Doo

The Video Game begins as the player (Jack Carver) awakes in a sea sid

The Movie plays out very, very differently: 1: There\'s a needless 30 mins (1/3 of the movie) of ""back
story"" before we even get to the \'boat blowing up\' scene. 2: Jack then walks onto the beach, kills some goons,
then drives off... Nothing like the game... 3: There is no communicator with Doyle on the other end... 4: The \'M
odified Soldiers\' look like albinos with singlets on... And there was no mutated \'monkey-like\' creatures jumpi
ng out of the bushes. A part of the Farcry game i enjoyed allot... 5: There is no sun filled beach scenes, no air
craft carrier, no communications stations on huge cliffs, LITTLE reference to any in-game contents (characters/it
ems/vehicles), in fact no attempt to follow the story line at all. 6: The climactic Volcano scene from the game i

['523,"Today, I wrote this review in anger at Uwe Boll and Hollywood.

Hollywood has produced movies b
ased on one of the darkest days of our nation. 911 changed everything. It changed our perception of security. It
changed our understanding of the evil of man and humanity. Most importantly and devastatingly , it changed our wo
rld.

However, I can\'t not stress how utterly repulsed, disillusioned, and angry I am at the careless,
blatant ignorance of Hollywood seeking to make a lucrative profit out of death and destruction. This film and tho
se like it are bound to cause controversy amid word-of-mouth among moviegoers and critics alike; most surely to b
e echoed by the mainstream press. Hollywood has sunk to a new low. Even lower than the low-down bastards who perp
etrated the most barbaric acts of savagery and unrelenting cruelty. Behind it all is Uwe Boll. I am very angry at
this movie. How dare they disrespect the memories of families of those lost? How dare they mock the lives of the
brave men and women who risked their lives to save those trapped in the doomed towers on that fateful day of infa
my?!?!? How dare they try to satirize and at the same time capitalize on a national tragedy in the mist of a mour
ning and weary post-911 world?!?!?! How...dare...they?

To those who have the gall to even think of se
eing this morally appalling travesty, I say this with a heavy heart with all my strength: Remember. Think back to
that day and ask yourself whether or not you are a sane and moral person. Think back to that day, ask yourself wh

tcry of families of loved ones. Think back to that day of the lives lost on those two planes. Think back to the f

Ask yourself if you have a soul.

Think. Rem
ember. Respect the memories of the lives lost on 911 by not seeing this film at all."'],
['524,"You cannot deny that we have an affinity for speed. That\'s why movies like Fast and the Furious, Dhoom,
Rempit get made to play to the satisfaction of audiences, especially local ones. We live on a tiny island, and I
cannot fathom why, for the relative efficiency of the public transportation system, most of us want to get into d
ebt by owning a set of wheels which come with 100% tax when they reach our shores, and the myriad of taxes and bi
lls to pay when operating one. Not only that, the high end sports cars were once quipped by a prominent politicia
n up north that they will never reach fourth gear, lest they reach the sea.

And these movies are relat
ively easy to make. Hot wheels and hot chicks always go down well together in targeting the required demographic.
For once, those plunging necklines exposing uncanny buxom and short skirts accentuating legs two meters long, can
\'t compete with the attention given to those beautiful curves that exotic cars possess in movies such as these.
Of course there are amongst us (ahem) those that go for the sexists portrayal of women as mere sexual objects (ot
herwise explain why motor shows come with truckloads of models, and movies such as these cannot do without a legg
y model in a frame), however, they don\'t warrant the kind of collective orgasmic sighs whenever the four wheeler
s come on screen, even when they do exactly nothing and have their gears into Park. The guy sitting beside me, I
swear he wet his pants every time his dream car(s) appear, and creamed his pants even more when he hears those gr
owling engine moans.

So there we have it, the fan boys who turned up in droves just to watch which of
the latest cool cars get featured in the movie. With the Fast and the Furious franchise, the Japanese models like
the Evos and the Skylines take centerstage, as does the GT. Here, the Ford GT takes on an incredibly drool-worthy
facade modification, that even I\'m impressed, alongside the latest models like the Ferrari Enzos, Porshe Carerra
GTs, Koenigsegg CCXs, and every car out there that has wings for doors. But seriously, my heart goes out to the c
ars each time they\'re mercilessly wrecked just for entertainment. I mean, this are perfectly fine, high performa
nce models that are at the apex of motoring, but yet because whoever financed the movie had millions to blow, the
y do so because they can,

There\'s no story in Redline, just excuses to put together a movie full of b
eauties (the cars that is) that can rip down the tarmac in probably the most boring fashion possible, and with th
e usual shots of pedals (always the accelerator, mind you, tapping the brake pedal is tantamount to blasphemy, an
d earn you no respect), steering wheels, gear shifts (always shifting up and not down), all these while having th
e actors make pretend that they\'re the baddest asses with an engine, snarling and giving each other dirty looks.
Not a very tall order for an actor, and that\'s why we get the most woeful performances ever, with lines that see
m to be written by elementary schoolkids.

The heroine (yes, it made a statement that girls can drive)
Natasha (a very plasticky looking Nadia Bjorlin) is one of those million dollar finds - a girl with model looks w
ho don\'t mind getting down on fours and immersed in oil, who has racing pedigree within her, and performs with a
rock band singing songs with lyrics that are just plain laughable (every line had to do with cars, and when singi
ng about love, just had to string those innuendos like shifting gear shafts, lubricants and going for rides). Int
roduced against her wishes to illegal racing by a gangsta called Infamous (Eddie Griffin), she gets drawn into fa
mily squabbles involving a Leo DiCaprio lookalike Iraq war veteran, and some sleazy lecherous looking rich uncle.
Everything else, well like I said, just serves as an excuse for the movie to go from race to race.

And
it\'s almost always the same, as there\'s very limited to what you can do to heighten tension between race cars,
especially when you know the race is rigged (for narrative reasons) and can see the race outcome a mile away from
the finishing line. While Fast and Furious had quite charismatic actors, and I will put my head on the chopping b
lock by naming Paul Walker, Sun Kang, and of course, the star it created - Vin Diesel, Redline had none, just pre
tty faces with lots of air unfortunately. It looks like a TV movie in its treatment from the get go, with a very
insipid opening sequence where it\'s one man, one car, and a 105 minutes race against time to get to Vegas.

If not for the cars, then this movie seriously is a piece of junk, with bad acting, bad lines and bad actio

and double take really adds to the effect. Then of course, San Francisco is unmatched for the setting of cars rac

ing up and down hills and around bends. Also, Bullitt being filmed in the 60s when cars were still ""Hot"" (Musta
ng GT and Dodge Charger) made for a better set of wheels then two boring, smog device laden Pontiacs in the 1970s
Seven Ups. Bill Hickman was the driver of the bad guy car in both movies. I saw him sitting at an insider movie p
review once on the Univeral lot when I was doing movie reviews for a paper. They gave it a good try in Seven Ups
though with the chase scene. Seven ups had a few ""jumps"" over little hills, (Yawn) but of course they were not
San Francisco hills. The Seven Ups chase, where they are actually going fast, is longer than the go fast sequence
in Bullitt. But the scene of a single shotgun blast totally blowing the hood OFF of Roy Schieders Pontiac is the
height of absurdity. Strictly Hollywood, I would say, except that it was filmed in New York."'],

The bottom line: obvious plot, one-not

['528,""Night of the Living Homeless"" was a fairly strong finish to the first half of Season 11. Obviously a p
arody of various zombie movies, most notably Dawn of the Dead, this episode parallels the homeless with the livin
g dead, as creatures who feed and thrive off of spare change rather than brains.

Kyle is blamed for th
e sudden mass outbreak of homeless people when he, out of the goodness of his heart, gives a $20 to a homeless ma
n in front of his house. More homeless people begin to infiltrate South Park, until the town is completely overru
n with them. This is a very strong Randy Marsh episode, as he assumes the role of the shotgun-wielding leader of
the adults who take refuge on the roof of the Park County Community Center. But before Randy makes it to the comm
unity center, he is accosted by hundreds of homeless people while hilariously screaming ""I don\'t have any chang
e!!"" Unfortunately, the refugees end up losing Gerald Broflofski to the homeless, when he tries to escape by cat
ching a bus out of town, and unwittingly tosses away all his change for the bus to distract the homeless people.
Then he becomes one of them, asking everyone for change.

The boys attempt to find out why there are so
many homeless people in South Park, and find a man who is a director of homeless studies. They find out that the
nearby city of Evergreen used to have a similar problem with the homeless, so they escape to Evergreen to find ou
t what they did to solve the problem. Unfortunately, homeless people break into the man\'s house, and he attempts
to take the easy way out by shooting himself. However, he fails several times, as he shoots himself in the jaw, i
n the eye, in the chest, in the neck, in the shoulder, screaming horribly until he finally dies. This scene may h
ave been funnier had a similar scene not happened in ""Fantastic Easter Special"" two weeks ago.

Meanw
hile, a member of the refugees discovers that due to the homeless problem, the property values have nosedived, th
us the bank has foreclosed on his house, making him homeless. Randy immediately turns on him, holding the gun to
the man\'s head. When the man finally begs the others for a few bucks to help him out, Randy pulls the trigger.<b
r />
In Evergreen, the boys find out that the citizens of the town sent the homeless to South Park, and that
the passing of homeless from town to town happens all over the country. The boys modify a bus that leads the home
less out of South Park and takes them all the way to Santa Monica, California.

The zombie movie parall
els and the great Randy Marsh lines make this one definitely re-watchable. 8/10"'],

was, on the non-literal level, a ""man vs. cruel nature"" plot, where the individual who represented innocence an
d goodness came through in the end, triumphing to face a new, indefinable world beyond man\'s petty squabbles; a
world where there were no more struggle, but peace. I rated Cube a 10 out of 10, and it\'s a movie that was never
meant to have any sequels.

The second movie, Hypercube was a massive disappointment. Some of the ideas
were kind of cool, but in the context of the original movie, both the story and the setting made no sense and had
no meaning. Still, for being fairly entertaining, I rated it a 5 out of 10.

The third movie, Cube Zero
, while ignoring the second, plays like a vastly inferior commercial B-movie rehash of the first, sans the symbol

That we see something from ""behind the scenes"" means nothing, because the watchers are just part of the Big B

just flippin\' stupid. I\'m glad I didn\'t pay to see this.

['550,"A response to previous comments made by residents of the region where this motion picture was lensed: One person suggested that the closing and destruction of the Ocean View Amusement Park led to a downturn in the surro unding neighborhoods. This is simply not true. Prior to the construction of Interstate 64, which bypasses the Oce an View area, the primary route for traffic went through the heart of Ocean View. Once the interstate was complet ed, Ocean View rapidly became a ghost town with businesses closing up and an increase in crime. This led to a hug e reduction in revenues for the park, which also faced new competition from nearby Busch Gardens in Williamsburg. Meanwhile, in the past few years, the City of Norfolk has done a remarkable job of fostering redevelopment so tha t the area has become a sought-after location for construction of high-end housing.

It has also been s aid that the destruction footage of the roller coaster was used in the film ""Rollercoaster"". This is also untru e. Footage was shot of two coaster cars careening off the ride for that film, but the actual explosions and colla pse are exclusive to ""Death of Ocean View Park"".

As to the film itself, the storyline of a ""superna tural"" force in the water adjacent to the park was certainly silly, but somewhat typical for B-grade movies of t he time. With the cast involved, there should be no surprise that the scenery was gnawed in almost every scene by the primary actors. I don\'t believe this film was intended to be another ""Citizen Kane""; I believe Playboy was experimenting with a new non-nude format to determine if this was an area for the company to expand into (apparen tly not!). A strange force in the water causing strange events in an old amusement park probably sounded good at the conference table, but proved unmanageable in execution. The roller coaster and the rest of the park was desti ned for the wrecking ball anyway; ""let\'s come up with a weird way to justify an explosive demise!"".

 >For the casual movie viewer, this would be a ""see once and forget about it"" film (except for Diana Canova fans); but for the thousands of people who live in the region and have fond memories of the park, this movie is like a ""walk down memory lane"" for footage of the park as well as old footage of downtown Norfolk, the first ""Harbo rfest"", and Old Dominion University. In tensely loyal to each other, they meet their greatest & most deadly challenge when they encounter the resurgence of a hideous cult & its demented, implacable guru. Now they must rely on the lowliest servant of the regiment, th e water carrier GUNGA DIN, to save scores of the Queen\'s soldiers from certain massacre.

Based more o n The Three Musketeers than Kipling\'s classic poem, this is a wonderful adventure epic - a worthy entry in Holly wood\'s Golden Year of 1939. Filled with suspense & humor, while keeping the romantic interludes to the barest mi nimum, it grips the interest of the viewer and holds it right up to the (sentimental) conclusion.

It i s practically fruitless to discuss the performance nuances of the three stars, Cary Grant, Victor McLaglen & Doug las Fairbanks Jr., as they are really all thirds of a single organism - inseparable and, to all intents & purpose s, indistinguishable. However, this diminishes nothing of the great fun in simply watching them have a glorious t ime.

(It\'s interesting to note, parenthetically, that McLaglen boasted of a distinguished World War O ne military career; Fairbanks would have a sterling record in World War Two - mostly in clandestine affairs & ear ning himself no fewer than 4 honorary knighthoods after the conflict; while Grant reportedly worked undercover fo r British Intelligence, keeping an eye on Hollywood Nazi sympathizers.)

The real acting laurels here s hould go to Sam Jaffe, heartbreaking in the title role. He infuses the humble man with radiant dignity & enormous courage, making the last line of Kipling\'s poem ring true. He is unforgettable.

Montague Love is prop erly stalwart as the regimental major, whilst Eduardo Ciannelli is Evil Incarnate as the Thuggee guru. The rest o f the cast, Joan Fontaine, Robert Coote, Lumsden Hare, are effective but have little to do. Movie mavens will rec ognize Cecil Kellaway in the tiny role of Miss Fontaine\'s father.

The film picks its villains well. T he demonic Thuggee cult, worshipers of the hideous, blood-soaked Kali, Hindu goddess of destruction, was the bane of Indian life for 6 centuries, ritualistically strangling up to 30,000 victims a year. The magical realism was completely missing because Demi Moore was grim and the lovers she was two-timing were guys who usually play villains, though each was kind of sexy and appealing.

['556,"I thought that ROTJ was clearly the best out of the three Star Wars movies. I find it surprising that ROTJ is considered the weakest installment in the Trilogy by many who have voted. To me it seemed like ROTJ was the best because it had the most profound plot, the most suspense, surprises, most emotional,(especially the ending) and definitely the most episodic movie. I personally like the Empire Strikes Back a lot also but I think it is slightly less good than than ROTJ since it was slower-moving, was not as episodic, and I just did not feel as much suspense or emotion as I did with the third movie.

It also seems like to me that after reading these surprising reviews that the reasons people cited for ROTJ being an inferior film to the other two are just plain ludicrous and are insignificant reasons compared to the sheer excellence of the film as a whole. I have heard many strange reasons such as: a) Because Yoda died b) Because Bobba Fett died c) Because small Ewoks defeated a band of stormtroopers d) Because Darth Vader was revealed

I would like to debunk each of these reasons because I believe that they miss the point completely. First off, WHO CARES if Bobba Fett died??? If George Lucas wanted him to die then he wanted him to die. Don\'t get me wrong I am fan of Bobba Fett but he made a few cameo appearances and it was not Lucas\' intention to make him a central character in the films that Star Wars fans made him out to be. His name was not even mentioned anywhere in the movie... You had to go to the credits to find out Bobba Fett\'s name!!! Judging ROTJ because a minor character died is a bit much I think... Secondly, many fans did not like Yoda dying. Sure, it was a momentous period in the movie. I was not happy to see him die either but it makes the movie more realistic. All the good guys can\'t stay alive in a realistic movie, you know. Otherwise if ALL the good guys lived and ALL the bad guys died this movie would have been tantamount to a cheesy Saturday morning cartoon. Another aspect to this point about people not liking Yoda\'s death.. Well, nobody complained when Darth Vader struck down Obi Wan Kenobi in A New Hope. (Many consider A New Hope to be the best of the Trilogy) Why was Obi Wan\'s death okay but Yoda\'s not... hmmmmmmmmmmmm.... Another reason I just can not believe was even stated was because people found cute Ewoks overpowering stormtroopers to be impossible. That is utterly ridiculous!! I can not believe this one!! First off, the Ewoks are in their native planet Endor so they are cognizant of their home terrain since they live there. If you watch the movie carefully many of the tactics the Ewoks used in defeating the stormtroopers was through excellent use of their home field advantage. (Since you lived in the forest all your life I hope you would have learned to use it to your advantage) They had swinging vines, ropes, logs set up to trip those walkers, and other traps. The stormtroopers were highly disadvantaged because they were outnumbered and not aware of the advantages of the forest. The only thing they had was their blasters. To add, it was not like the Ewoks were battling the stormtroopers themselves, they were heavily assisted by the band of rebels in that conquest. I thought that if the stormtroopers were to have defeated a combination of the Star Wars heros, the band of rebels, as well as the huge clan of Ewoks with great familiarity of their home terrain, that would have been a great upset. Lastly, if this scene was still unbelievable to you.. How about in Empire Strikes Back or in A New Hope where there were SEVERAL scenes of a group consisting of just Han Solo, Chewbacca, and the Princess, being shot at by like ten stormtroopers and all their blasters missed while the heros were in full view!! And not only that, the heroes , of course, always hit the Stormtroopers with their blasters. The troopers must have VERY, VERY bad aim then! At least in Empire Strikes Back, the Battle of Endor was much more believable since you had two armies pitted each other not 3 heroes against a legion of stormtroopers. Don\'t believe me? Check out the battle at Cloud City when our heroes were escaping Lando\'s base. Or when our heros were rescuing Princess Leia and being shot at (somehow they missed)as Han Solo and Luke were trying to exit the Death Star.

The last reason that I care to discuss (others are just too plain ridiculous for me to spend my time here.) is that people did not like Darth Vader being revealed! Well, in many ways that was a major part of the plot in the movie. Luke was trying to find whether or not Darth Vader was his father, Annakin Skywalker. It would have been disappointing if the movie had ended without Luke getting to see his father\'s face because it made it complete. By Annakin\'s revelation it symbolized the transition Darth Vader underwent from being possessed by the dark side (in his helmet) and to the good person he was Annakin Skywalker (by removing the helmet). The point is that Annakin died converted to the light side again and that is what the meaning of the helmet removal scene was about. In fact, that\'s is what I would have done in that scene too if I were Luke\'s father...Isn\'t that what you would have done if you wanted to see your son with your own eyes before you died and not in a mechanized helmet?

On another note, I think a subconscious or conscious expectation among most people is that the sequel MUST be worse (even if it is better) that preceding movies is another reason that ROTJ does not get as many accolades as it deserves. I never go into a film with that deception in mind, I always try to go into a film with the attitude that ""Well, it might be better or worse that the original .. But I can not know for sure.. Let\'s see."" That way I go with an open mind and do not dupe myself into thinking that a clearly superior film is not as good as it really was.

I am not sure who criticizes these movies but, I have asked many college students and adults about which is their favorite Star Wars movie and they all tell me (except for one person that said that A New Hope was their favorite) that it is ROTJ. I believe that the results on these polls are appalling and quite misleading.

Bottom line, the Return of the Jedi was the best of the Trilogy. This movie was the only one of the three that kept me riveted all throughout its 135 minutes. There was not a moment of boredom because each scene was either suspenseful, exciting, surprising, or all of the above. For example, the emotional light saber battle between Luke and his father in ROTJ was better than the one in the Empire Strikes Back any day!!!

Finally, I hope people go see the Phantom Menace with an open mind because if fans start looking for nitpicky, insignificant details (or see it as ""just another sequel"") to trash the movie such as ""This movie stinks because Luke is not in it!"" then this meritorious film will become another spectacular movie that will be the subject of derision like ROTJ suffered unfortunately.

['557,"Crossfire remains one of the best Hollywood message movies because, unlike the admirably intentioned Gentleman\'s Agreement, which it beat to theatres by a few months, it chooses to send its message via the form an excellent noir thriller rather than have an outraged star constantly saying ""It\'s because I\'m Jewish, isn\'t it?"" It\'s much easier to get the message that hate is like a loaded gun across when the dead bodies are actual rather than metaphorical. Somewhat shamefully, the brief featurette on the Warners\' DVD doesn\'t mention that novelist Richard Brooks disowned the film over the shift from a homophobic murder to an anti-Semitic one, but it\'s interesting to note that while the victim is killed primarily because he is Jewish, there\'s little doubt in Sam Levene\'s performance that the character is in fact also gay Â— not a mincing caricature, but there\'s definitely a two lost souls aspect to his scenes with George Cooper\'s confused soldier. There\'s not much of a mystery to who the murderer is: even though the killing is carried out in classic noir shadows, the body language of the killer is instantly recognisable, but then the film has its characters drift to the same conclusion before the halfway point: the tension comes from proving it and saving the fall guy.

There\'s an element of Ealing Films t

o the gang of soldiers teaming together to get their buddy out of a fix (you could almost see that aspect as a bl
ueprint for Hue and Cry), but the atmosphere is pure RKO noir. Set over one long sweltering night, the film has a
great look filled with deep dark blacks and shadows born as much out of economy as style (it cut back on lighting
time and allowed director Edward Dmytryk more time to work with the actors) and the excellent cast make the most

['558,"This movie basically is a very well made production and gives a good impression of a war situation and it
s effects on those involved. It\'s always interesting to see the story from the \'other\' side for a change. This
movie concentrates on a group of German soldiers who after fighting in the North Africa campaign are send to Stal
ingrad, Russia, where one of the most notorious and bloodiest battles of WW II is being fought.

It\'s
interesting to see the other side of this battle, since we mainly just always see the Germans simply as the \'vil
lains\'. In this movie those \'villains\' are given an humane face and voice and it sort of makes you realize tha
t the only true enemy in war is war itself and not necessarily those who you\'re fighting against. At first it\'s
kind of hard to concentrate on the movie because you always just have in the back of your mind that the German\'s
are the evil villains. But of course you get accustomed to it quickly and you soon adapt the Germans as the main
characters of the movie and you even start to care -and be interested in them.

The way this story is t
old isn\'t however the best. It\'s hard to keep track of the story at times, as it jumps from the one sequence an
d location to the other. The movie isn\'t always logic in its storytelling and features a bit too many sequences
that remain too vague. It also is most of the time pretty hard to keep the characters apart and see who is who. I
t doesn\'t always makes this movie an easy on to watch but than again on the other hand, there are plenty enough
sequences and moments present in this movie to make it worthwhile and an interesting one, just not the most coher
ent one around. In that regard Hollywood movies are always better than European movies.

The production
values are high and features some good looking sets and locations, though the movie wasn\'t even shot in Russia i
tself. It helps to create a good war time situation atmosphere.

The character are mostly interesting a
lthough perhaps a tad bit formulaic. But I don\'t know, for some reason formulaic characters always work out fine
in war movies and strenghtens the drama and realism. It also helps that they\'re being played by well cast actors
. All of the actors aren\'t the best known actors around (Thomas Kretschmann was also at the time still a fairly
unknown actor) but each of them fit their role well and gives its characters an unique face and personality.<br /

All in all not the best or most consistent WW II drama around but definitely worth a look, due to its orig
inal approach of the German side of the battle of Stalingrad and its good production values.

Dreyfuss as a gangster if the screenplay for this movie were written well. But above all the other things that we

I can certainly tell you I did not care or find that funny. Not only am I disappointed in Dreyfuss (who I admire
much as an actor) for producing and starring in this tripe but I am also extremely disappointed in Jeff Goldblum
because this was released the same year that ""Independence Day"" was the top grossing film of the year and ultim

From then on, one after another, all the king in ancient china spoke the same thing but very few of them did as what they said.

Now the bad news.....regrettably, I can\'t say much positive for the story. It portrayed the James boys in a totally positive light....and Hollywood has done that ever since. Why these criminals are always shown to be the ""good guys"" is beyond me. This film glamorizes them and made their enemies - the railroad people - into vicious human beings. Another thing I loved was the fact that it was filled with young actors, I\'m sure Robin and his men would have young, after all people didn\'t live that long in those days. The movie seems to think it\'s a sports thriller, but it\'s so utterly ridiculous, it can only be a comedy, but it\'s not funny, not even in a dumb/silly way. It\'s like watching your cousins try to act out a skit on family get-togethers. It\'s painful to watch, but at least it\'s only for a minute or two. Second String went on for over an hour.

Whoever was involved with making this movie should not work again. The writing, directing, acting, and everything was just terrible. I mean it was almost worth seeing just for the fact that it gave me some appreciation for every other ""bad"" film I\'ve seen over my lifetime. ['566,"Few would argue that master animation director Hayao Miyazaki is one of the few to hold this ability.

(No. Too many are focused on John Lassiter\'s ""amazing"" ability to steal other movies plots, turn them into pretty puppet shows and then be lauded as a genius . . . but i digress.)

Miyazaki has given us film after film that deals with important mature issues (usually ecologically themed), and has an intelligent script that even the most jaded viewer who would normally despise any film that was animated could thoroughly enjoy if given the chance. Still, Miyazaki (almost) never forgets who will undoubtedly be in the audience of these movies- children.

That said, I am at a loss to think of another filmmaker with this ability. Where else are you going to have a film where a three year old (my nephew Link) will sit still throughout the move, enthralled, a 7 year old (my niece Amber) loving it all her own (and able to appreciate the ""star power"" of Frankie Jonas and Noah Cyrus, a 12 year old (my nephew Aaron) who\'s review was ""of course it was good! Everything Miyazaki-san does is good!,"" a 32 year old animation fan brought to tears by the powerful directing and gorgeous animation (er, that would be me), and a 58 year old woman (my mother) able to connect with the mother characters (and I\'m betting the older charas too) and loving the ""cuteness"" of the child characters.

And that is what I respect most about Miyazaki-san. He seems to speak to his audience in a completely different way than the average film maker. On the surface, ""Ponyo"" could be seen as a simple story about a little fish-girl who gets a taste of the human world and wants to join it and the friend she makes there, a little boy names Soske (somewhat like ""The Little Mermaid""), but there is an entire different level at play here. True to form, Miyazaki populates his film with intensely strong female characters Ponyo\'s Mother, Soske\'s mother, the older ladies in a nursing home are all genuine characters with minds of their own and extremely strong willed.

But the girl who takes the cake is Ponyo herself. Once she decides that she likes the human world, she simply uses her own will to achieve her dreams. Her father is trying to keep her innocent, and keep her a magical fish, but young Ponyo knows what she wants and becomes human out of simply her own determination.

Once human, she teams up with her friend, Soske, whom she loves very much (although maybe not as much as ham). Soske is asked to be the man of the house (at age five) when his mother Lisa decides she has to help the people at the rest home where she works during a typhoon that has been inadvertently caused by Ponyo on her quest to become human. Frankie Jonas (yes. He\'s related to the Jonas brothers. Can we just get past that please?) gives, perhaps, the best performance in the film as young Soske (which is good since he has the most lines). His character is also strong willed, but also very respectful and friendly- characteristics you\'re not likely to find in a child character on THIS side of the Pacific.

In the end, Ponyo\'s father, Fujimoto must cope with his daughter\'s decision and his estranges wife\'s wishes to allow her to be human. He hopes that Ponyo and Soske will ""remember him fondly."" And once again, Miyazaki REFUSES to allow a character to become the stereotypical ""bad guy."" Although Miyazaki has (for some reason) received some criticism for this, it is, honestly, what makes his movies magical and yet relatable. No one in real life is completely a ""bad person."" All humans are various shades of gray. And that is exactly what Miyazaki does with his characters.

And then there\'s the animation itself. In a time when CGI would certainly have helped with the copious amounts of effects shots in this film, especially the water, Miyazaki has chosen to incorporate NO CGI whatsoever. Certainly the hand drawn animation was colored by digital means, but every film in this was hand-drawn and I, for one, was extremely grateful for that. The character animation was extremely fluid, and there even appeared to be some lip-sync going on (quite unusual for an anime film). The backgrounds seemed to be rendered with colored pencil and had an effect all its own on the audience. This is what animation used to look like- and what it SHOULD look like.

In the end, I found Ponyo to be thoroughly enjoyable. Certainly not Miyazaki\'s best (in my opinion, that honor is still held by Kiki\'s Delivery Service), but still a 10-star fun movie for the ENTIRE family."'],

['575,"The film began with Wheeler sneaking into the apartment of his girlfriend. Her aunt (Edna May Oliver--a p erson too talented for this film) didn\'t like Wheeler--a sentiment I can easily relate to. The aunt decided to t ake this bland young lady abroad to get her away from Wheeler. They left and Wheeler invested in a revolution in a small mythical kingdom because they promised to make him their king. At about the same time, Woolsey was in the same small mythical kingdom and he was made king. So when Wheeler arrived, it was up to the boys to fight it out, but they refused because they are already friends--which greatly disappointed the people, as killing and replacin g kings is a national pastime.

I am a huge fan of comedy from the Golden Age of Hollywood--the silent era through the 1940s. I have seen and reviewed hundreds, if not thousands of these films and yet despite my love and appreciation for these films I have never been able to understand the appeal of Wheeler and Woolsey--the only comedy team that might be as bad as the Ritz Brothers! Despite being very successful in their short careers in Ho llywood (cut short due to the early death of Robert Woolsey), I can\'t help but notice that practically every oth er successful team did the same basic ideas but much better. For example, there were many elements of this film r eminiscent of the Marx Brother\'s film, DUCK SOUP, yet CRACKED NUTS never made me laugh and DUCK SOUP was a silly and highly enjoyable romp. At times, Woolsey talked a bit like Groucho, but his jokes never have punchlines that even remotely are funny! In fact, he just seemed to prattle pointlessly. His only funny quality was that he looke d goofy--surely not enough reason to put him on film. Additionally, Wheeler had the comedic appeal of a piece of cheese--a piece of cheese that sang very poorly! A missed opportunity was the old Vaudeville routine later popula rized by Abbott and Costello as ""who\'s on first"" which was done in this film but it lacked any spark of wit or timing. In fact, soon after they started their spiel, they just ended the routine--so prematurely that you are le ft frustrated. I knew that ""who\'s on first"" had been around for many years and used by many teams, but I reall y wanted to see Wheeler and Woolsey give it a fair shot and give it their own twist.

Once again, I hav e found yet another sub-par film by this duo. While I must admit that I liked a few of their films mildly (such a s SILLY BILLIES and THE RAINMAKERS--which I actually gave 6\'s to on IMDb), this one was a major endurance test t o complete--something that I find happens all too often when I view the films of Wheeler and Woolsey. All of the j okes are obvious - the kind that sound kind of funny the first time you hear them but after that seem lame - and they are not given any new treatment or twist. All of the characters are one-dimensional. The acting is - well - mediocre (I\'m being nice). It\'s the classic CBC recipe - one that always fails.

If you\'re Muslim I think you would have to be stupid to believe any of the white characters, and if you\'re white you\'d probably be offended a little by the fact that almost all of the white characters are portrayed as either bigoted, ignorant, or both. Not that making fun of white people is a problem - most of the better comedies are rooted in that. It\'s only a problem when it isn\'t funny - as in this show.

Canada is bursting with funny people - so many that we export them to Hollywood on a regular basis. So how come the producers of this show couldn\'t find any?"'

['577,"First of all ""Mexican werewolf in Texas"" is not a werewolf movie. This title is bullcrap. The story is actually about a Chupacabra that kills all the local villagers in the little town of Furlough in Texas. I suppose the distributors renamed the original title so that it would make some extra bucks or something. And I guess it actually works because that\'s the reason why I bought this piece of crap, it sounded so stupid. Anyway the movie isn\'t any good. Actually it\'s bloody awful. But I didn\'t expect anything else when I bought it. It\'s a low budget horror movie with a Chupacabra monster. If you enjoy low budget horror with bad dialog, actors and some gore then you should check into this movie. But I must warn you, this movie is really baaaaaaad.

This movie has some of the worst acting I have ever seen. The actors try to hard and t it gets completely ridiculous. They almost never say a line in a normal way. They always have this completely wrong tone about just everything they say. It\'s so stupid it almost looks like a freakin parody. It\'s like they shot each scene only one single time and were happy about it. The worst of them all is the blond girl which is supposed to play a bimbo. She\'s the worst of them all. I have never seen an actor as bad as her (And I\'ve seen Pteradactyl). Even when her boyfriend dies she can\'t stop being a bimbo about it. I hate her.

Some of the shots in this movie were actually quite good. The ones that where shot in the daytime are all pretty decent for a low budget project. But most of the movie is shot in the night when the Chupacabra strikes and the lighting is way too dark. The gore scenes are few and short, but really grizzly and violent. The effects are pretty hilarious really, but that\'s the way I like it. The Chupacabra looks pretty messed up, and it\'s easy to see that it\'s a guy in suit.

Overall this movie should only be watched by extreme fans of low budget flicks and it\'s very important to not watch this alone because you will probably be bored to death. I recommend watching this flick with your friends and some beer."'],
['578,"This movie is so God-awful that it was literally a chore to watch. I wanted to eject it from my vcr and throw it across the room, but kept thinking (foolishly) that it would eventually get funny and then everything would be all right. ""You lose, we win, yay!"" This movie should be required viewing for anyone who even once entertained the thought that Jackie Mason was funny. After that, beat them ove the head with this movie until the tape cracks. And if you\'re even considering renting this turd (or worse yet, have!) I have one thing to ask of you: didn\'t you even look at the cover? I mean, with crap like this you can tell with just a glance how bad it is! ""Oy vey!"" This movie sucked."'],
['579,"The symbolic use of objects, form editing, the position of characters in the scene... these were all used with such joyous abandon by Hitchcock that you can really see what a fertile genius he had. The way the wife moves from one corner of the ring to the other as the fight progresses, the editing when the wedding ring is placed on her finger... while these may seem a bit obvious by todays standards, in the silent era they spoke volumes about the story without a word being spoken. Even the title has a least four meanings that I can see; the boxing ring, the wedding ring, the bracelet the lover buys, and the love triangle at the heart of the story."'],
['580,"I found this movie to be very good in all areas. The acting was brilliant from all characters, especially Ms.Stone and Morissey. Tramell\'s Character just gets smarter and more psychologically twisted by the minute. The plot is interesting even though, this movie is more for the mind playing between the main characters and how Catherine continues her writing with new ways and twists for her novels. The setting was also fabulous and the whole atmosphere of the movie was that mysterious,thriller like masterpiece. Go see this film now , it deserves better than what it got from the audience ,which was misled by some faulty terrible reviews about the movie(Before it even started).....You won\'t regret it,if you go see it..."'],
['581,"Rather like Paul Newman and Steve McQueen with their racing car movies this has all the appearance of a ""jollies"" project for Robert Redford, as he gets to ski up hill and down dale in the Alpine sunshine.

The story is as light as powdered snow with Redford\'s small-town boy David Chappellet (what kind of lead name is that?) who with his eyes on the prize of Olympic glory, gets up the nose of, in no particular order, his coach, father and team-mates. Women are a mere side-show in his insular world as evidenced by a fairly distasteful pick-up scene with an old girlfriend in his hometown and then his selfishly petulant pursuit of, heavens above, a free-thinking, independent woman, played by Camilla Sparv. The ski-ing sequences are fine with some good stunt-work involving numerous bumps and scrapes on the piste but their effectiveness is dimmed by our subsequent familiarity with top TV coverage of skiing events down to the present day. Plus I\'m not convinced that the Winter Olympics has the same mass identification with the general public as the summer games so that when Redford eventually wins his gold medal in the final reel, I couldn\'t really be that excited for him one way or another.

Of the actors, Redford, best profile forward, doesn\'t need to do much and indeed doesn\'t, while Gene Hackman does better with equally meagre material. Ms Sparv does well as the chief female interest well who treats Redford the way he\'s doubtless treated every other woman in his chauvinistic way.

In truth though, there\'s a lack of dramatic tension throughout for which the action sequences don\'t fully compensate and you don\'t care a fig for any of the leading characters. One of those films where the actors probably enjoyed making it more than the viewers did watching it."'],
['582,"I would recommend this film to anyone who is searching for a relaxing, fun-filled, thought-provoking movie. The absence of sex, vulgarities and violence made for a most pleasant evening. I especially enjoyed the Buffalo scene, but that\'s probably because I live a short distance from there. Even so, this film could have been produced in any city; it\'s the theme that\'s so important here. I\'m just grateful that Manna From Heaven dropped down on us. Try it...you\'ll like it!"'],
['583,"This is an art film that was either made in 1969 or 1972 (the National Film Preservation Foundation says 1969 and IMDb says 1972). Regardless of the exact date, the film definitely appears to be very indicative of this general time period--with some camera-work and pop art stylings that are pure late 60s-early 70s.

The film consists of three simple images that are distorted using different weird camera tricks. These distorted images are accompanied by music and there is absolutely no dialog or plot of any sort. This was obviously intended as almost like a form of performance art, and like most performance art, it\'s interesting at first but quickly becomes tiresome. The film, to put it even more bluntly, is a total bore and would appeal to no one but perhaps those who made the film, their family and friends and perhaps a few people just too hip and ""with it"" to be understood by us mortals."'],
['584,"I read the book and saw the movie. Both excellent. The movie is diamond among coals during this era. Liebman and Selby dominate the screen and communicate the intensity of their characters without flaw. This film should have made them stars. Shame on the studio for not putting everything they had behind this film. It could have easily been a franchise. Release on DVD is a must and a worthy remake would revive this film. Look for it in your TV guide and if you see it listed, no matter how late, watch it. You won\'t be disappointed. Do yourself another favor - read the book (same title). It\'ll blow you away. Times have changed dramatically since those days, or at least we like to think they have."'],
['585,"A drifter looking for a job is mistaken for a hit man in a small Wyoming town, leading to all kinds of complications. Cage is perfectly cast as the unlucky schmuck hoping to make a quick buck and get out of town but finding he can\'t escape the title town. Hopper does what he does best, playing a psycho known as ""Lyle from Dallas,"" the real hit man. Walsh as a crooked sheriff and Boyle as a femme fatale round out the fine cast. The script by brothers John and Rick Dahl contains delicious twists and turns, and John\'s direction creates a terrific ""neo noir"" atmosphere. Witty and very entertaining, it sucks the viewer in from the start and never lets up."'],
['586,"I really liked this movie. I have seen several Gene Kelly flicks and this is one of his best. I would actually put it above his more famous American in Paris. ['587,"Although promoted as one of the most sincere Turkish films with an amateur cast, Ice-cream, I Scream is m

ore like a caricature of sincerity.

The plot opens with the dream of Ali, a traveling ice-cream salesm
an in a Western Anatolia town, in which he sees himself becoming successful using the same marketing methods of b
ig ice-cream companies. He dreams of playing in his product\'s TV commercial with beautiful models in bikinis, da
ncing around him. As his dream turns into a nightmare, he wakes up with a big erection next to his gargantuan wif
e, who rejects to make sex with him for 6 years with no apparent reason. Is it because he is not successful in hi
s job? Apparently, because he says he was selling better in the old days when there was no pressure from global i
ce-cream companies. But this is what he says; we actually don\'t see him suffer that much: he still sells good, t
raveling the neighboring villages while his apprentice stays at the shop, selling ice-cream to the people in the
town. Ali blames big companies for using sweetening and coloring agents while he is using real ""sahlep"" (powder
ed roots of mountain orchids). Ali buys a motorbike with a bank loan to be a traveling vendor, and gives ads to a
local TV channel which prefers to broadcast even the news bulletin in local dialect. His wife is not fond of his
ways of doing business, they always quarrel, and Ali threatens her that he may do very bad things in a moment of
frenzy.

In a very successful day, his lousy bike is stolen by the misbehaving little boys of the town.
In search of his stolen bike, Ali goes to the police, blames the big companies for the theft, but, of course, nob
ody takes him seriously. Annoyed by the nagging of his wife, Ali goes to a tavern and becomes drunk. One of his f
riends at his table, a wannabe socialist of the town, gives a didactic speech and criticizes globalism, and with
no real connection, jumps to the subject of global freezing. Ali returns home and decides to kill himself with po
ison. His wife wakes up and prevents him. An old neighbor takes him to a night walk and advises him about life. A
ccording to him, Ali can even sell hot sahlep drink if the world faces with global freezing. When he returns home
, suddenly we see that his wife understood his value, treating him like a hero and praising his manhood. Meanwhil
e, the thief boys got sick eating too much ice-cream. They confess to the doctor that they stole Ali\'s bike. Ali
forgives them and there comes the happy end.

Although the plot may look promising in a way, it\'s the
story-telling which makes this film insincere and cheesy. First, the director doesn\'t show much of an effort to
tell the story visually; everything is based on dialogs. And the dialogs never stop to show us that cinema is act
ually a visual art. Even Ali\'s troubles are not convincing because we don\'t see it, we just understand it from
his words. The director markets his film as a righteous fight of Ali against big ice-cream companies, but there i
s nothing in the film about big companies. We don\'t see their pressure enough. The film actually ridicules Ali f
or believing that big companies are behind the theft. And when his motorbike is found, it solves every problem: A
li becomes a happy and powerful husband. Not a real criticism of globalism.

Second, the film is cheesy
because of the crude humor. Maybe the people of that part of Turkey is cursing so much and making so many vulgar
jokes in their daily life, but vulgar language and crude humor are not enough to make a film funny. I may have ac
cepted it if they were both vulgar and ""clever"" but they are not clever jokes at all, they are just cheesy. May
be I\'m wrong, maybe American people may like oriental version of American Pie style humor. But American Pie neve
r had any claim to be a nominee for the Oscars, or to have a political message! If you think that you can laugh b
y just seeing a man\'s big erection in his shorts (and we had to endure this joke twice!) or an old villager woma
n saying ""f**k you,"" then you may find this film funny."'],

ulling Ollie\'s leg cast string, and manages to push The Doctor (Billy Gilbert) out the window, clinging on to it

['590,"I was -Unlike most of the reviewers- not born in the 80\'s. I was born on may 14th 1994. Despite this, my
life was very much in the style of the 80\'s. When other kids had playstations, I was playing Zelda on my NES etc
. Now, this movie holds a special place in my heart already despite me being only 15 years old at the time of wri
ting this review. I, because of my 80\'s style early Childhood, watched many TV shows and saw Many movies that ot
her kids didn\'t see, and this movie was one of those, and one of the greatest too.

It starts off in t
he Los Angeles home of Alvin Seville, Simon Seville, Theodore Seville and David Seville. David, the Chipmunk\'s a
doptive father, is in a rush to get to the airport as he is going on a business trip around Europe. His taxi is a
lmost there and The Chipmunks help him pack. While they are talking, Alvin expresses his will to come with Dave a
nd to see the world (Even though, technically Dave is only going to Europe, so to Alvin, apparently only America
and Europe qualify as \'\'The World\'\'). David is leaving the Chipmunks in the care of Miss Miller, much to the
displeasure of the boys. Soon Dave is off to the airport and the Chipmunks are left at home with Miss Miller. Lat
er, at a local CafÃ© the Chipmunks are playing a game of \'\'Around the World in 30 days\'\' against the Chipette
s(Brittany, Jeanette and Eleanore). After losing the game to Brittany after having his Hot air Balloon eaten out
of the sky by a crocodile, Alvin get\'s in an argument with Brittany about who would really win a race around the
world. Two diamond smugglers sitting at a nearby table, Klaus and Claudia Furschtien overhear their argument and,
needing a safe way of transporting their diamonds over the world, decide to fool the children into delivering the
m for them. They set up a race around the world, where each team will have to deposit a doll in their own likenes
s (Secretely filled with diamonds) at drop offs around the world and receive a doll in the opposing team\'s liken
ess (secretely filled with the payment for the diamonds) to \'\'varify that they were there\'\'. The winning team
would then receive a 100.000 dollar reward. They do this because they believe that Jamal (An Interpol agent who h
as been hot on their heels for some times now) would never suspect them because they are just kids (However, this
seems to be redundant, because on their travels, the kids do not have to go through any security checks and are n
ever even questioned about the dolls, I suspect that neither would Klaus or Claudia if they had taken the diamond
s there personally.) And so begins a great adventure. This film is a classic and I see no reason why anyone would
not like it. It features great animation and top-notch voice acting, not to mention the Kick-ass music (Pardon my
french :P). My favorite song is without a shred of doubt \'\'The Girls and Boys of Rock and Roll\'\' An amazing r
ock song that cannot be topped. It\'s also my favorite moment in the film. Other notable songs include \'\'Gettin
g Lucky\'\'(Kind of Suggestive for a kid\'s film eh?) and \'\'My Mother\'\' as well as \'\'Wooly Bully\'\' and \'
\'Off to see the world\'\' Not to mention the main theme of the movie heard during the opening credits performed
by the Royal London Philharmonic Orchestra. The scene with \'\'My mother\'\' still brings a tear to my eye. In re
lation to the song \'\'Getting Lucky\'\' I first didn\'t think anything of it, but when I grew older and learned
about life, it became clear that that song was a little bit suggestive. That song, along with the fact that the a
nimators insist on the audience knowing the color of the Chipettes panties. This is especially apparent in the sc
ene in Egypt when the Chipettes are being chased by the Arabian Prince\'s men, when Eleanor leans over the side o
f the hot air balloon basket and her skirt defies gravity completely. While this does nothing to draw from the ov

erall quality of the film, it\'s one of those unexplained things like why nobody in the world seems to mind that there are 4-feet tall Chipmunks walking around and speaking in incredibly high-pitched voices and treat them just like they would any human child. Anyway, A bit after that scene, the Chipettes discover the diamonds in the dolls and decide to go find the Chipmunks and get home. The Direction of Janice Karman perfects this movie as she and her husband, Ross Bagdasarian Jr. know the characters better than anyone. They even do the voices of the Chipmunks and the Chipettes. Ross doing the voices for Alvin and Simon (as well as Dave) and Janice doing the voices for All the Chipettes and Theodore. Speaking of male characters that are voiced by female voice actresses, Nancy Cartwright (The voice of Bart Simpson) makes an appearance in this movie. She plays the part of the Arabian Prince, a very small, but important role. The ending is of course, a happy one. The Crooks have been caught, the loose ends tied and The film ends when the Children, Dave and Miss Miller are driving into the sunset, Alvin complaining about not having gotten his 100.000 dollar reward for winning the race, which annoys Dave until he finally yells \'\'ALVIN!\'\' and the screen fades to black

Classic ending, by the way. I hope you found my review of this movie useful, and if you haven\'t seen this flick, give it a watch, It\'s worth the money. This Nostalgic classic from the 80\'s gets a solid 10 out of 10.

['591,"Just when I thought I would finish a whole year without giving a single movie a ""Bomb"" rating, a friend brought this notorious turd to my house last night. I feared the worst knowing its reputation, and it was as God-awful as I\'d anticipated. This is a Mexican-made mess, dubbed into English, and produced by K. Gordon Murray. It\'s got terrible sets and effects, and features a rather frightening Santa who doesn\'t operate at the North Pole, but instead from a cloud in outer space, and who doesn\'t have little elves helping him make his toys but rather all different groups of children from practically every country there is. The opening sequence, where St. Nick chuckles heartily as he observes monitors showing all these kiddies working hard while singing terrible holiday songs in a variety of languages, seems to go on forever, and with no story. Obviously, THIS Santa Claus doesn\'t observe the child labor laws!

Eventually we get some nasty and slinky red-suited apprentice of the devil himself traveling from hell to Earth, just to make little kids naughty and turn Santa\'s Christmas Eve rounds into a nightmare. Watching this movie is a trippy and twisted experience, and it\'s bound to frighten little children and turn them off Santa Claus and the holidays forever. Oddly, the name of Jesus Christ is mentioned often in this Christmas film, which somehow makes it all the creepier in the context of all the bizarre things that are going on. This easily makes my personal list of the ""Worst Movie I\'ve Ever Seen"", but I\'m sure that\'s nothing unique."'],
['592,"As is often the case when you attempt to take a 400 plus page book and cram it into a two hour film, a lot is lost. Here director John Madden (Shakespeare in Love) takes on an extremely ambitious project and almost pulls it off. What we get is a charming and emotionally compelling film that seems somehow incomplete.

There is much about this film that is wonderful and fantastic. The cinematography by John Toll (Cinematographer for Braveheart and Legends of the Fall, winning Oscars for both) is splendid. Working with Madden, the choices for locations on the Greek island of Kefallonia are superb and the visual images that come from photographing these majestic locations in varying light are lush and beautiful. Madden also uses numerous Greek actors as the townspeople, giving the town an authentic feel. The soundtrack is also terrific and the mandolin passages and vocals by the Italian soldiers are marvelous.

Madden does an excellent job of bringing us the Italian occupation and the romance, which take up the greater part of the film. There are numerous sweet and funny moments throughout this segment. However, by the time the serious battle drama is ready to unfold, there isn\'t much film left in the reel and this component is extremely rushed and abbreviated. While the battle scenes are well done, subsequent to the battle it is obvious that increasingly greater compromises are being made to keep the film from running too long. By the time we reach the post war scenes, the treatment is merely skeletal. Another negative is that the DVD is particularly sparse on features.

Nicholas Cage is charming in the romantic lead as the sentimental Captain who seems to have joined the army to sing rather than fight. When fight he must, Cage switches gears seamlessly into a man of fierce principle and resolve and somehow remains believable in both personas.

Penelope Cruz, whom the camera loves, gives an uninspired performance as Pelagia. In part this is because Cage so dominates the screen, but Cruz just seems too placid in a part that should be emotionally torrential and dynamic. She allows the character to be objectified as Corelli\'s love interest rather than establishing her as a powerful character in her own right.

John Hurt gives a fantastic performance as the wise old doctor, who knows as much about human nature as medicine. However, Christian Bale seems a bit overwrought and stiff as Pelagia\'s fiancÃ©.

I rated this film an 8/10. Despite some drawbacks, this is a touching film that is well worth seeing. The photography alone is worth the price of admission."'],

Clark Kent and Lois Lane get sent to a small town with and oil mine and from the mine emerge mole men radioactive and targeted by the town assumed to be deadly and it\'s up to Superman to stop this mayhem.

It\'s just so wonderful and fun to view. The old style special effects and sound - the crew pulled off such a beauty with such little technology. George Reeves was my hero when I was a little kid, and I\'m 16 now, it just goes to show how timeless and classic these adventures are."'],

Deathly boring, I found it hard to sit through as I could feel my eyelids growing heavier and heavier with each endless minute of mindless prattle and supposed \'mystery\'. Being from Atlanta it does hit home but it\'s also nice to see a cop/action/drama that takes place somewhere other than NY City, Chicago, Miami, or LA. The film is funny at points with & good plot & good performances from a great supporting cast (every character is real & the bad guys are not so one sided they are really well thought out)A nice offbeat romance in the 2nd half & it has some good old fashion shootouts & fistfights (no CGI thank God REAL ACTION!)

The dialogue was realistically written, and delivered with honesty. It was so nice to see a film where the story line centered on young professional African-Americans. This is virtuall

y an untapped market. Love Jones was visually captivating as well. The chemistry between Lorenz Tate and Nia Long will bring memories of past and present love. The feeling of the film is jazz and blues, and brings to mine the s ensuality of a warm creamy hot chocolate with a splash of Kahlua and Butterscotch. If you hadn\'t guessed, I love d it!"'],
['599,"The basic genre is a thriller intercut with an uncomfortable menage-a-trois. Fellowes has tried to make a lot more out of this, using the lies of the title in order to bring about all manner of small twists, invariably designed to surprise the characters more than the audience.

It\'s really rather messy though. Fellowes doesn\'t seem interested presenting the thriller elements in a fashion that will keep us seat-edged. Rather his f ocus is on the moral predicaments themselves.

The dialogue is inconsistent, stagey here, vernacular th ere and with the constant surprise of realism undone by the occasional clichÃ©-landmine. Though there is no fussi ng over the locations so that the actors can get on with existing in their space the dreadful score can\'t create a further dimension and often works against the emotional momentum of given set pieces. There\'s also a very pros aic, dare I say it British feel to the filming. I didn\'t want to see a document of two successful middle class p eople caught in an extraordinary situation, I wanted to see some sort of artful recounting of the story.

Finally it is, in fact, the story which lets the rest down. Just as the elements of suspense are rather flat so the story is an asymmetric sum of subplots of different shapes and sizes, woven as a vehicle for character examin ation. Wilkinson and Watson support this meta-essay with good performances and John Warnaby\'s ebullient colleagu e Simon to Wilkinson is a welcome foil for much of the brow-furrowing.

I\'m disappointed; not that it\ 's bad, but that it could have been much better. 3/10"'],

Holes is generally a very cool motion picture. I wish Disney would make more pictures like it. Holes is indeed a rare breed of Disney flicker shows that is cool. Don\'t get the wrong id ea, I don\'t mean to bad mouth Disney but most of it\'s stuff is aimed towards kids and THAT\'S OKAY. Children de serve to have their entertainment too. But Disney has been guilty of trying to appeal to the teen audience and th ey usually fail. But not with Holes. It\'s the type of movie anyone of any age can watch and enjoy and not once t hink it\'s corny. Really, it\'s the kind of movie that even a lot of young hoods might enjoy since there are char acters in it that they can relate to.

Holes does a good job of being a mix of good family entertainmen t but not being too cheesy and living a little on the edge. I hope Disney takes more risks and makes more edgy fl icks like this."'],
['602,"I cannot hate on the show. When the old (and better) tech TV had to hit the bricks, the channel was refor matted and new shows stepped in. ""Attack of the Show"" is the replacement for the Screen Savers, with 3 co-hosts in the beginning. They were Kevin Rose, Kevin Pereira and Sarah Lane. Brendan Moran came to be something of a co-host as well, but he mostly did prerecorded pieces for the show. Kevin Rose decided to leave the show, and eventu ally there was a contest to see who would be the third host, but that didn\'t pan out for some reason.

Eventually (I just learned this from this very IMDb messageboard) Sarah Lane and Brendan Moran moved on because (hey, this is what I read) the two got married. That was a big secret to me! Now there is a new female co-host, t he not-as-hot (my opinion) Olivia Munn. She\'s hiding something in those tops she wears, while Sarah Lane had a p erfect body and she wasn\'t afraid to show it.

AHEM! Sorry.

""Attack of the Show"" deals wi th everything young people want to know about. It\'s music, movies, comic books, the internet and television. Thi s is what\'s great about the show. If you don\'t want to bother with scouring the net or waste time watching MTV, you can get all you want on AOTS. Some segments and bits they do are funny. They have regular guests and contribu tors who are in the industry, as well as guests who range from insignificant internet stars to actual big names.< br />
Even though the hosts aren\'t as geek as I\'d like them to be, I still have found ""Attack of the Show "" to be entertaining, even with its latest lineup."'],

They were so fake! The only good fight scene was between the bro ther and Shen. That was probably the only scene in which I was excited.

Overall, I found this movie ve ry boring and the film kind of ended suddenly.

I will give it a four for Brenda Song who is a very fu nny actress and that one fight scene.

['605,"Some people may call ""Cooley High"" the same sort of thing as ""American Graffiti"", but I wouldn\'t. Fo r starters, in ""AG"", everyone was white, whereas in ""CH"" they\'re all black. Moreover, this one has a Motown soundtrack. Specifically, the movie focuses on several working-class African-American students in 1964 Chicago an d their antics. The movie deals mainly with home life and relationships. In their apartments, we see that there\' s never any dad around. But these young men always know how to live life to the fullest.

One thing tha t really distinguishes this movie from most other portrayals of black people is that the teenagers in this movie are portrayed as very responsible, worrying about missing school. Two really funny scenes are the gorilla scene, and the one white guy in the movie. But overall, the main star is the soundtrack. It is truly one of the best sou ndtracks in movie history (we even have it on vinyl here at home). A classic in the real sense of the word."'],

A kitchen sink world of bakeries, and hairdres sers, and plumbing, but one that shimmers with a soft luminescence. Should the credit go to the screenplay or the direction? Take your pick -- they\'re both faultless. Let me get back to that New York City that lies just beyond the looking glass."'],

['608,"I have recently seen this production on DVD. It is the first time I have seen it since it was originally broadcast in 1983 and it was just as good as I remembered. At first as was worried it would seem old fashioned an d I suppose it is a little dated and very wordy as the BBC serials were back then. (I miss those wonderful costum e dramas that seemed to be always on Sunday afternoons back then) But that aside it is as near perfect as it coul d have been. I am a bit of a ""Jane Eyre"" purist as it is my favourite book and have never seen another producti

on that is a faithful to the book as this one. I have recently re-read the book as well and some of the dialogue is just spot on. Reading the scene near the end where Rochester questions Jane about what St John was like I noticed their words were exactly reproduced on screen by Dalton and Clarke and done perfectly.

All the other productions that have been done all seem lacking in some way, some even leave out the ""Rivers"" family and their connection to Jane altogether. I also think this is the only production to include the ""Gypsy"" scene done correctly.

The casting is perfect, Zelah Clarke is like Jane is described in the book ""small plain and dark"" and I disagree that she looked too old. Timothy Dalton may be a little too handsome but he is absolutely perfect as Rochester, portraying every aspect of his character just right and acting his socks off! I agree with other comment that he even appears quite scary at time, like in the scene when he turns around slowly at the church when the wedding is interrupted, his expression is fantastically frightening. But then in another favourite scene his joy is wonderful to see when Jane runs down the stairs and into his arms the morning after they declare their love for one another. A love that is wonderfully portrayed and totally believable. Oh to be loved by a man like that! There were a couple of scenes that were strangely missing however, like when Jane climbs in to bed with the dying Helen and also when Rochester takes Jane shopping for her wedding things (I thought that one was in it but maybe my memory is playing tricks).

Finally if you never see another production of Jane Eyre - you simply most see this one it is simply perfection!"'],

And believe me, it takes a lot to make me label someone as comic genius. These guys truly understand what is funny. I could watch ten episodes of Seinfeld and wouldn\'t get half the laughs from seeing KOQ just once. Other funny people in this show are Carrie, Janet Heffernan, Spence and Doug Pruzan (Carrie\'s boss). I\'m so happy they managed to get so many seasons from this gem. A lesbian couple (Sally Faulkner and Glory Annan) living in a remote country house are driven apart by the arrival of a young man (Barry Stokes) who turns out to be a flesh-eating alien, the vanguard of a massive invasion...

Despite its shoestring budget and leaden pacing, Norman J. Warren\'s follow-up to SATAN\'S SLAVE (1976) amounts to a great deal more than the sum of its meager parts, thanks to a surprisingly complex script by Max Cuff (apparently, his only writing credit): Faulkner and Annan indulge an obsessive relationship whilst living in isolated splendor within the English countryside (rendered alternately beautiful and ominous by Derek V. Browne\'s eye-catching cinematography), though Annan\'s discovery of bloodstained clothing in an upstairs room marks one (or both) of these doe-eyed lovelies as psychologically disturbed, which may explain the absence of their respective families, some of whom appear to have lived in the house at one time or another and \'left\' under mysterious circumstances. Stokes\' unexpected arrival throws the relationship into disarray, partly because Faulkner has a pathological hatred of men and partly because Annan is attracted to him, creating tensions which result in a climactic whirlwind of violence. There\'s an extraordinary, multi-layered sequence in which Faulkner attempts to \'emasculate\' their clueless visitor by dressing him in women\'s clothing, though Stokes\' alien mentality allows him to rise above the intended mockery.

In the early scenes, at least, the relationship between Faulkner and Annan is depicted with uncommon grace and dignity, but this heartfelt sapphic liaison quickly devolves into crowd-pleasing episodes of sex and pulchritude, culminating in an explosion of horror when Annan allows herself to be ravished by Stokes following a violent argument with Faulkner. The closing sequences are (quite literally) gut-wrenching, especially Annan\'s final scene, which appears to have been clipped for censorship reasons in 1977 and never fully restored (what remains is still pretty vivid, so brace yourselves!). Excellent performances by the three leads, bolstered by Warren\'s unobtrusive direction, which takes full advantage of the stunning woodland locations, thereby compensating for the film\'s budgetary shortcomings. ['611,"The tourist season has just ended on a remote island off the coast of Scotland, winter is beginning to set in and the inhabitants, both humans and sheep alike are settling down to much quieter times ahead. Michael Gaffikin (James Warwick) a former paratrooper in the British Army, is the local dentist, he\'s not an islander by birth and as such his relationship with local artist and cartographer Fiona Patterson (Celia Imrie) is always being viewed with a little suspicion, not maliciously, but just out of the protective instincts the tight knit community have for their kin. The islands serenity is broken when Gaffikin out for a solitary round of golf finds the headless remains of a brutally slain woman. He immediately reports his gruesome find to Insp Inskip(Maurice RoÃ«ves) at the islands police station, Inskip arranges for delivery of the remains to local GP, Dr Goudry, for closer inspection. A quick search for the killer proves fruitless, as does a search for a missing local woman. Over dinner that night with Michael Gaffikin, Fiona realises that the dead woman might be Sheila Anderson, a woman from the mainland, who lives on the island through the winter months. A quick search at her home Dove Cottage reveals the missing remains of her body, her home proving to be the murder scene, but why did the killer drag her torso over a mile into the woods? Suspicion immediately falls on the one stranger left on the island, one Colonel Howard (Jonathan Newth)who also happened be the last person to see her alive as they came across on the last ferry together.

Goudry asks Gaffikin for some dental expertise on the victims body, it reveals that she had been torn apart my somebody or something with great strength, one set of teeth marks on the body seem to point at a human killer, another points to that of an unknown animal of some kind. A sheep is found mutilated and then a Canadian ornithologist is found slain. With a heavy fog rolling in, the island is cut off from the mainland and any possibility of help, the radio also doesn\'t work, seemingly being blocked and the phone lines have been cut. Reports of UFO\'s and the sighting of a camouflaged soldier are compounded by the finding of an odd looking craft hidden behind rocks on the beach. Inskip is confused and refuses to listen to anything but the facts and laughs off Gaffikin\'s idea that aliens might be involved, but a rise in radioactive levels on the island, has him doubting himself.

The Nightmare Man is based on the novel, Child of the Vodyanoi by David Wiltshire, it is here adapted by Dr Who and Blake\'s 7 scriptwriter Robert Holmes and directed by Douglas Camfield who also had directing experience on both Sci/Fi classics and the film benefits from having such experienced genre experts on board. The Nightmare Man though is on the whole, a succinctly better crafted piece, that builds its plot alongside solid character development, even down to the minor characters, time is given to giving them all a firm background. The island setting is perhaps a genre clichÃ© that has been used over and over, but its one that I enjoy very much, the remoteness, the sense of being under siege with no way out always add to the atmosphere and here it is given an extra oomph by having an impenetrable fog close in to hamper all efforts. In many genre efforts of this kind it is very easy for proceedings to get silly and for the plot to resort to melodrama, but credit to Camfield, he holds it all together with the emphasis being on believability at all times. There is an authenticity about proceedings, the characters even speaking Gaelic at times to further this point. If there is one negative about the killer its that, we are given his/her/its POV for the killings, an acceptable clichÃ© on its own, but when seen through a red filter and a fish eye lens, it just screams of overkill and dates the film just a little. Still though you will be hard pressed to guess the outcome or the identity or for that matter the species of the killer, given the clues presented, but it\'s a fun and very well acted piece. The local Scottish cast are exceptional, the local bobbies Roeves and Cosmo in particular spar well off each other and are a delight to behold. Imrie, never one i\'ve taken to in other works, is also pretty good and displays hew womanly physique as if she were in a Hammer production. The outlandish, maybe even preposterous ending may irk some viewers, it disappointed me in some ways, but taking into account when it was made, its an understandable and acceptable addendum that if you think about it, is even more terrifying."'],

actors that they had portray Ryan Phillippe\'s Christian and Sarah Michelle Gellar\'s Kathryn are very poor subst

lutely appalling that some of the dialog was verbatim -- not so much between Christian and Kathryn, but if you li

Also, the tie-in with the photography/""You could be a model"" comment at the end was tota

generally implied rather than shown Dorian\'s essential wickedness. If you want a more explicit rendering, see th
e 1945 film. Wilde and Robert Louis Stevenson lived in about the same time frame, but were certainly vastly diffe
rent men and writers. This story really treats of a theme similar to Stevenson\'s ""Dr. Jekyll and Mr. Hyde"", bu
t note that Wilde chose to treat his story as fantasy, whereas RLS took the scientific route. Both the protagonis
ts are men in whom good wars with evil, with evil winning in the end.

The actors in this BBC movie, ta
ke a different route, too, from those in the 1945 film. John Gielgud says all the same caustic and cynical quips
as George Sanders, in his role really projecting Wilde himself, but with a subtle difference. You\'ll suspect tha
t Sanders really believed what he was saying, but Gielgud may be saying what is expected of him rather than what
he sincerely believes. Peter Firth, too, shows the two sides of his character in restrained fashion, but then we
don\'t get to see as many of his escapades as Hurd Hatfield had a chance to display.

It\'s a very good
production, with the dramatisation reflecting the essentials of the novel, if not all of its ramifications."'],

['616,"This is my first Deepa Mehta film. I saw the film on TV in its Hindi version with its ""Sita"" character
presented as Nita. I also note that it is Radha who underwent the allegorical trial by fire in the film and not N
ita/Sita. Yet what I loved about the film was its screenplay by Ms Mehta, not her direction. The characters, big
and small, were well-developed and seemed quixotic towards the end--somewhat like the end of Mazursky\'s ""An Unm
arried Woman."" They are brave women surrounded by cardboard men. And one cardboard man (Ashok) seems to come ali
ve in the last shot we see of him---carrying his invalid mother Biji. He seems to finally take on a future respon
sibility beyond celibacy and adherance to religion.

Ms Mehta seems to fumble as a director (however,
compared to most Indian mainstream cinema she would seem to be brilliant) as she cannot use her script to go beyo
nd the microscopic joint family she is presenting except presenting a glimpse of the Chinese micro-minority in th
e social milieu of India. She even dedicates the film to her mother and daughter (not her father!) Yet her Radha
reminesces of halcyon days with both her parents in a mustard field. Compare her to Mrinal Sen, Adoor Gopalakrish
nan, Muzaffar Ali and she is dwarfed by these giants--given her competent Canadian production team and financial
resources! Mehta\'s film of two bisexual ladies in an Indian middle-class household may be sacrilege to some, but
merely captures the atrophy of middle-class homes that does not seem to aspire for something better than its imme
diate survival in a limited social space. Kannada, Malayalam, and Bengali films have touched parallel themes in I
ndia but did not have the publicity that surrounded this film and therefore have not been seen by a wide segment
of knowledgeable cinemagoers.

Ms Das, Ms Azmi, Mr Jafri and Mr Kharbanda are credible but not outstand
ing. Ms Azmi is a talented actress who gave superb performances under good directors (Mrinal Sen\'s ""Khandar"",
Gautam Ghose\'s ""Paar"", Benegal\'s ""Ankur"") a brilliance notably absent in this film. Ms Das sparkled due to
her screen presence rather than her acting capability. All in all, the film\'s strength remains in the structure
of the screenplay which is above average in terms of international cinema. I am sure Ms Mehta can hone her writin
g talents in her future screenplays."'],

['618,"At 2:37, a high school student commits suicide. Not shown who has taken their lives or reasons known, tim
e skips back to the start of the day. From here we follow six separate students; Marcus, Melody, Luke, Steven, Sa
rah and Sean. Each student is struggling with their own moral dilemmas, all reaching boiling point, hitting to an
end for one.

After losing a friend to suicide, and surviving his own suicide attempt, writer/director
Murali K. Thalluri has created a revetting drama focusing on teen life and the horrible act of suicide. Suicide h
as been a topic that has been kept in the shadows, 2:37 is Thalluri\'s attempt to bring it to light. If you have
been touched by the act of suicide or anyone who has, 2:37 becomes all the harder to view.

With heavy
and hard subject matter, Thalluri also tackles everyday teenage life crisis\'s. Sex, pregnancy, sexual identity,
bullying, friendship, Thalluri manages and shows them in an extremely realistic manner. The factor on Thalluri\'s
talent is his subtlety. He respect his subject and the problems that everyone will have suffered through at somet
ime. It verges near documentary at times, it has such a painful realism; the interviews with each character splic
ed through the film only heightens this.

2:37 has a distinctive similarity to Gus Van Sants film Eleph
ant. While the core of each film is different, both tackle teen life. Like Sant, Thalluri utilizes long tracking

shots, with time skipping back and forth, to show each characters interaction from different perspectives. A defi
ning point to Elephant was its ethereal ambiance. With spare conversation, little development of characters, and
the long tracking shots, Sant created a haunting and mesmerizing atmosphere to a coming dread. While there reside
s this dread in 2:37, the emotional connection to the characters reaches a higher level Sant couldn\'t reach. As
time goes by, each characters fragility creeps out, dragging you along their emotional roller-coaster.

this scene is the complete intrusion and discomfort we have as an audience watching someones life end in a grueso

the pain and agony involved with this act and that its not the best solution. With unknowns in the leads and thei

h the temerity to do so can get back to me with the number of clichÃ©d lines in the movie, I\'m sure it will set
a record.

Some otherwise fine and talented actors got mixed up with this clunker; Mark Hamill portrays
a futuristic bounty hunter and Bill Paxton is his quarry. Paxton\'s character has hijacked Hamill\'s prisoner, an
android taking his name from the poet Byron (Bob Peck). Tasker (Hamill) shoots Owens (Paxton) with a dart contain
ing a tracking device so he and his companion Belitski (Kitty Aldridge) can keep tabs on the pair. The real quest
ion though is why didn\'t he just fire the device at Byron thereby cutting out the middleman.

If you e
njoy scene after disjointed scene with tedious characterization and artsy fartsy pretense, then I suppose you\'ll
find something of interest here. But you can\'t convince me that the film makes sense on any level. Scenes of a f
uturistic Stone Age make way for high society snobbery, but the pinnacle of poor taste is reached when Paxton\'s
character is displayed following a night of revelry with hickeys all over his torso. If anyone thinks there\'s so
me hidden meaning here, you\'re really stretching.

Patiently waiting for the frame proclaiming ""The E

The film has one Peach of a line... ""He\'s no Angel....""

The cast is a sizzling displ

The direction is very good, managing to show very little actual gore, and relyi

Essentially, the main directorial plus, lies within the ""borr

['625,"There are a couple of prior comments here which opine about this flick\'s abundance of clichÃ©s throughou
t -- and I agree completely, both with regard to the characters AND the dialog.

I\'d read about Elizab
eth Berkly\'s awful performance in the equally-awful ""Showgirls,"" which I\'ve never seen - and her performance
here, while not awful, is barely up to the standards of Lifetime\'s worse fare. There was not a hint of depth to
her character, but then there probably shouldn\'t have been. If so, it would have placed the film completely out-
of-balance, since there wasn\'t a hint of depth or charisma - not a trace - in any one character, performer, or p
ortrayal.

The principal\'s handling of Liz\'s initial complaint after her tutee had kissed her in the
hall was laughable. Her husband\'s initial reaction and advice were likewise (Forrest Gump, attacking Jenny\'s bo
yfriend in his car provided a more realistic, intelligent action, and, hell, he was mentally-challenged).
<b
r />The smarmy, unctuous lawyer (excuse the redundancy) father of the lying student actually performed something
probably worthy of praise in his performance: he was both laughable and thoroughly annoying at the same time, no
mean feat. Her attorney was more of an insensitive nerd, also not unknown in the profession.

Finally (
and frankly, I rather enjoyed this part), the police were such a collection of insensitive oafs, that you\'d rath
er depend upon Barney Fife, without Andy, to handle all law enforcement and investigation in your community. I kn
ow that most real-like cops fall a bit short of the sharpness, intelligence and empathy of the level displayed by
most characters on the ""Law and Order"" series\', and the like -- but dolts of this level seem to be a staple on
""Lifetime.""

Finally, I found a kind of ""story within a story"" fascination with Josh\'s concoction

of his being the ""victim"" of his teacher. This scripted performance within the story was even worse than his overall performance in the main story. This was something of an achievement, like going from ""F"" to ""F-minus.""

This whole lame situation should have been resolved - in real life - in about 15 minutes, following a realistic meeting between teacher and school authorities, with husband involved. But then that would have precluded the contrived drama following, and left an hour\'s blank film in the camera.

But the writer(s) here, proved with their ending, they could do even worse. When the situation was finally ""resolved"" and ""righted,"" this was accomplished in all of about 45 seconds, with no indication of what measures might have been forthcoming in any ""real world"" context for the perpetrator and his parents, or whether they might have been able to find some sort of path toward redemption.

This one\'s a 2* presentation; the second ""*"" because it does have some mild ""fascination.""'],
['626,"If you haven\'t seen this yet, you really should, on DVD. I can\'t believe how much I enjoyed it! It is amazingly realistic and believable. True, much of it is speculated, and I would have liked to have known more about what was speculative and what were proven facts (there aren\'t many of them), but it handles everything quite well with a ""Cruel Mother Nature"" theme. It will remind you of the nature programs that you\'ve seen on Animal Planet and the Discovery Channel, only the animals here are Dinosaurs. They act natural; they eat, kill, mate, play, and fight for survival. You will actually find yourself rooting for some of them and against others.

For the most part, the effects are excellent. At times they will look a little too much like CGI\'s, but then you will see them in a different angle that makes them look more realistic. In some cases, you will actually be convinced that you\'ve seen a dinosaur. My favorites were the Coelophysis, the raptors, the diplodocus, the iguanadons, the allosaurus and the arctic bipeds. I was most disappointed with the T-Rex, however, which looked a little too computer generated at times.

In any case, you should definitely see this production. It is educational, well made, and very entertaining. For what it is, its an A!"'],
['627,"Why is it that Canada can turn out decent to good movies in every genre, other then action? I caught Dragon Hunt on TV the other day and it was like a train wreck. I just could not change the channel, it\'s sheer stupidity sapped my willpower. Its pretty telling that the cast IMDb ""credits"" with this monstrosity apparently never worked again.

Bad acting, bad writing, bad narration, bad music, bad hair, bad cinematography. It just goes on and on. The movie really has nothing to recommend it. If you\'re looking for bad action films to enjoy by laughing out, there are a tonne of other films that won\'t require you to scorch out your retinas afterwards.

I hope this film didn\'t get money from the government for financing, otherwise I\'m never paying taxes again."'],
['628,"Ab Tak Chhappan is a fictitious story surrounding a police department in Mumbai, India. Sadhu Agashe is a hard working, hard-edged cop heading up a plain clothed crime squad who makes a name for himself by killing dangerous criminals in staged police encounters rather than locking them up in prison. His loyal officers obey him without question but a rift forms when one of his officers, Imtiaz, becomes frustrated by Sadhu\'s high ranking status and is secretly competing with him for criminal kills and status. A new recruit is also pushed into the fraternity and Imtiaz is angry when Sadhu allows him to take the lead on his first case. Further change comes in the form of a new police commissioner who disapproves of Sadhu\'s tactics and everyone gets caught up in internal politics.

I was surprised to see such a well directed action thriller coming from India. The camera work is excellent, the story is well told and the tension is high when the drama unfolds. The acting, pace and political subterfuge convinces the viewer that they are a fly on the wall witnessing the blood, sweat and tears from a close up and personal view and that the events are based on reality which is no doubt why we are told that it is not at the beginning of the film although it is likely that the director, Shimit Amin, has taken liberties with factual accounts. Nevertheless, Ab Tak Chhappan is an extremely polished piece of film-making."'],

Not that\'s it\'s really a bad thing, but it is the kind of movie you watch just once. Don\'t buy the DVD.

We\'re back in time during the Spanish settlements. A group have made their way onto an island. It doesn\'t take too long before they encounter a large ""reptile"", which gobbles up their horse. Soon they\'re captured by the natives and in order to gain freedom they must kill the ""reptile gods."" THE CG sucks; it reminds me of the CG of early console video games. The encounters were lame. The only positive thing I have to say about this was the hottie native running around in a skimpy outfit. Otherwise it\'s just a middling effort."'],

The acting was superb. I felt as if i knew the characters. I could almost \'feel\' them. They reminded me of people that I knew as a child growing up in the 50\'s and 60\'s. Oh, the memories!! My personal belief is that this movie should have been on the big screen for all to see. I have watched this movie so many times, that I can almost recite the lines as the characters are saying them. I can\'t even list my favorite part, because I have SO MANY favorite parts. Thank you for bringing back a part of my youth that I never see in this day and age...and that is Black people loving each other, looking out for each other, respecting each other, caring about each other, and doing all we can to help each other. Monday June 5, 4:30pm The Neptune

Few celebrations of ethnic and cultural identity succeed as mightily as Carlos Saura\'s brilliant interpretation of Isaac Albeniz\' masterpiece Iberia Suite. At the approach of its centennial, Saura drew together an unprecedented wealth of talent from the Spanish performing arts community to create this quintessential love song to their homeland. The twelve ""impressions"" of the suite are presented without narrative in stark surroundings, allowing the power of each performance to explode before Saura\'s camera. Creative use of large flats and mirrors, moved throughout the set, combined with screens, shadows, fire, rain and rear projection add glorious dramatic effects to the varied selections of song, dance and instrumental performance. Photographs of Albeniz reappear throughout the program, connecting the passion of the music to its great creator. This movie is a welcome change. It could be classified as romantic comedy for it\'s genre but don\'t let that turn you off this movie. This is a very original movie which is not like most things Hollywood produces.

If you are reading this, you already know the basic plot so I will not bother going over that. The only movies that come to mind to compare this to are ""Interstate 60"" and ""Art of Travel"" which are little known gems that take a different path than most of the Hollywood garbage.

This is well worth seeing if you are tired of watching more of the same.

['634,"Many of the reviews and comments I have read about this movie say that this is a rather stale film and performance by Clara Bow. Although the story-line was rather typical of Clara\'s later silents, I still find it somewhat heart-stirring and incredibly fun. Clara plays a happy-go-lucky Hawaiian girl who will stop at nothing to win the man she loves...never mind that this man is married! Clara\'s lack of modesty was shocking in the day, but I believe it lends to the sweetness and general fun of the movie. Though definitely not a brilliant story-line (quite typical, actually), this movie is a nice showcase of Clara\'s ability to make the audience laugh."'],

The premise involves a fashion model or something being kid
napped and taken into the jungle to be held for ransom by a motley crew of idiots. Some other goof gets hired to
bring her back and is given a sack of money to use as a bargaining chip, though if he returns with the girl and a
ll the money, he gets a significant cut. He\'s brought a helicopter and pilot with him and, wow, that pilot is on
e of the worst actors EVER! Granted, they are all totally terrible and the dubbing will make you cry blood. After
stealing away into the jungle, we learn that nearby is a cannibal cult whose flesheating earthbound god wanders t
he woods like a human King Kong looking for tribeswomen to ravage and devour. Now, this fellow is just a naked gu
y with some of the worst makeup ever, ping-pong balls for eyes and that\'s pretty much it. His growls and groans
are an everpresent feature on the soundtrack, and I found myself muting much of those scenes.

Oh, did
I forget to mention the almost constant nudity? This is probably the main reason this film was banned, though the
re is one specific scene, about one second long, where the god attacks a girl and pulls her guts out, but it\'s n

['637,"I found out about this film because Jewish Ben Chaplin from Game On was in it. Game On is a funny British
sitcom and apparently he left because he wanted to break into Hollywood and star in this film. He failed thank Go
d.

The film is a very simple romantic comedy with Janeane Garofalo playing an ugly woman who uses her
neighbour Uma Thurman to date Ben Chaplin because she thinks Ben Chaplin won\'t like her because she\'s ugly. The
film is just bad for so many reasons. The plot is unbelievably predictable from the overtly slapstick bits to the
serious mushy bits: ugh just that montage where all three of them are having fun and then the photograph bit. Tho
se two scenes made me cringe! Janeane\'s character is sickeningly arrogant (and guessing from her role as stand-u
p ""comedienne"" and arch-feminist is in real life too). She claims that the film is ""anti-feminist"" when in fa
ct it\'s just realistic. Men more often than not go for looks over personality. It\'s interesting to note her hyp
ocrisy too. She\'d been a feminist and ""comedienne"" for years before taking this role and then suddenly decides
afterwards that the film was bad. I imagine she hated the idea and script of this film before it was released but
she made sure she kept that quiet so she could get paid for this travesty of a film. I mean come on! She acted in
it for Heaven\'s sake! What this film was really was anti-men if anything. It portrays men as stupid animals whos
e brains are in their groins with the men doing stupid things to attract the attention of Uma Thurman\'s characte
r Noelle.

There are other bad things about this film too like Ben Chaplin\'s character being the Briti
sh man every American girl finds cute and Jamie Foxx being the token black best friend of Chaplin and of course F
oxx had to try and mimic his accent a few times for good measure. Is that the best the script writers could come
up with? Blimey they\'ve never done that before except with every Hugh Grant and Dudley Moore film ever made. The
re\'s also a truly awful phone sex scene which is just grotesque and proves how cheap the film is. The other comm
ents on here all say how Janeane Garofalo isn\'t ugly but is actually beautiful. Erm was I watching the same film
as they were? She\'s certainly no looker and the only good thing about this film was that she was rightly cast as
the ugly one. Although having said that, I fail to see the appeal of Uma Thurman as well: she\'s lanky and gaunt
looking.

I guarantee three things about this film if you\'ve never watched it:

You will kno

You will find the phone sex scene painfully embarrassing and;

Yo

['641,"Emily Watson and Tom Wilkinson together - what a treat! With Rupert Everett and Linda Bassett rounding of
f the supporting roles to the foursome of lies and intrigue. Yet at the heart of it all, each character maintains
a streak of decency - moral conscience held up in spite of obvious contradictions. ""Contradictions are the sourc
e of all movement and of all life."" How true these words are. Watson\'s Anne Manning is at the core of this intr
igue - she\'s the central conscience that the other three latched on. She is the decency undeterred.

The circumstances of lies are to each its own: one to defend one\'s professional name; one to hold back due to fa

d lies to save friendship. These are all precarious situations. There lies the intrigue - fascinating to watch ho
w each tackles truth and lies. Contradictions, indeed. In spite of the seeming dishonor, decency and heart remain
strong.

The treatment of the subject involved and how each of the character behaves are masterfully d
elivered simple with clarity. It\'s not sensational or complex as another film ""Where the Truth Lies"" 2005. Cre
dits due to Fellowes\' writing and the nuanced performances of both Watson and Wilkinson. There is warmth somehow

You might say there\'s no
obvious action drama or thrilling scenes in ""Separate Lies,"" yet the intrigue is there and it will hold your at

People out there who think that because it stars Sarah Michelle Geller it is somehow like The Grudge should forget about it. This film is more like Dark Water, except it is even more predictable and slow moving than it. I was extremely disappointed with this film. It didn\'t scare me nor interest me either. Let\'s face it , this type of plot has been flogged to death at this stage e.g. the dead trying to contact the living - Dragonfly, What Lies Beneath, Ghost Story, Dark Water, Darkness, The Changeling etc.etc. It seems to me that the only ones writing original horror films nowadays are the Japanese and the Koreans. This very exciting movie has many assets. First, Bullock and Northam are two very beautiful, interesting actors and their presence adds immediate captivation. The script is very clever and sure in its knowledge of the capabilities of computers and their relevance in today\'s world. The costumes, sets, production, and direction of the movie are also quite wonderful. While the film may present some info from the report in the drama, you\'re taking the word of the producers - there\'s no reference to the commission report anywhere in the film. Not one.

The acting, all around, is pretty bad - pretty much all of the stereotypes of \'hot shot\' bitchy foul mouthed government agents, each thinking they know more than everyone else. There may be some truth to it, but it really has a bad Hollywood stereotype smell to it.

['646,"It wasn\'t until I looked at the trivia section that I found out that the original producer/star of this movie Tyrone Power died during its making . This no doubt explains why everyone on screen seems to have their minds on other things , a symptom of which appears in a very early scene involving a battle that can only be described as pathetic . You know when you\'ve been painting a wall until you\'re completely bored ? Well that\'s the sort of expression the combatants have on their face when they\'re swinging their swords in a highly unconvincing manner

The plot centres on Soloman the King of Israel having an affair with the Queen of Sheeba and his people not being happy about it . You can\'t really blame them since there\'s few things more beautiful in the world than those Israeli moteks , though the Israeli women here all seem to look like Cherie Blair ! Modern day Israel is also very cosmopolitan with the majority of Israelis being born outside the country but would this have been true a couple of thousand years ago where everyone speaks in European and American accents

After much talking and a dance sequence that has to be seen to be believed (And no that\'s not praise) we have a climax where the heavily outnumbered Israelis have to defend themselves against a massed Egyptian army who can\'t read a map otherwise they would have known there was a canyon in front of them . This is what I don\'t get - Even though their blinded by the sun the Egyptians spend ten minutes charging towards the Israelis never ever realising they\'re charging towards a gaping ravine ! Isn\'t this somewhat illogical ? It\'s also something of a revealing error since the horses , chariots and men falling into the canyon are obviously miniature figures

Anyway the film ends with Soloman killing his treacherous brother and praising God for his victory . But who needs Moshe Dayan , Arik Sharon or God when you\'ve got an idiotic enemy who can\'t see a ravine in front of him or waves a sword like he paints a wall ?"'],
['647,"I am a huge Woody Allen fan and so when I saw that this was playing at the cinema I couldn\'t help myself . I wanted to see how Allen would follow up his magnificent film Match Point seeing as this is another one of his films shot in G.B. (which is unique among Allen\'s work) along with what seems to be his new muse Scarlett Johanson. Scoop is much lighter than MP and the humor is Scoop\'s most enjoyable aspect. The plot revolves around Johanson\'s character (a journalism student) who gets a tip on a hot story from beyond the grave. She falls in love with a suspected serial killer (Jackman) and she must decide whether the truth is worth finding. Oh and all of this is done with the help of a bumbling magician turned detective played by Allen.

I must say that I thoroughly enjoyed Johanson\'s performance but I am a bit bias, I could watch a three hour film with Johanson in ever frame and remain enchanted. She plays a ditsy, yappy, bumbling sweetheart that is kind of a variation in a sense of Allen\'s stereotypical neurosis stricken character. She adds appropriate body language for comic effect. Needless to say almost anyone who sees this will find Johanson\'s character sickeningly cute and that is a plus.

Allen is Allen... He is still playing the same character much like Chaplin and his Little Tramp character. Something that occur in this film makes me wonder if I will see the neurotic little hypochondriac again however. He is not in the cast of his next picture and has been spending more time exclusively behind the camera as of late...

Jackman is also enjoyable as the suave, millionaire murder suspect. I cannot say that Jackman does anything in particular to make the role his but he suits his character none the less.

In terms of the plot I cannot help but feel that this is fresh... In fact it stinks of Curse of the Jade Scorpion. Johanson and Allen are more detective-like than anything. However I must applaud Allen on his ending because it is a bit more clever than your typical unoutstanding Hollywood version of this film. Instead of everything being black and white, things are painted in shades of gray. Being entirely innocent has nothing to do with it nor does unequivocal guilt. Though the plot seemed old Woody still has a knack for one liners. I did find his allusions to his last film interesting... Come for the humor, laugh and be merry.

Needless to say if you enjoy Allen\'s work watch it. If not watch something else..."'],
['648,"I rented this film because of my interest in American history, and especially the somewhat weird story of

the Mormons. This movie attempts to make some sense out of how Joseph Smith could turn his ""vision"" into a majo
r world religion. It first focuses on the troubles the Mormons had in their settlement at Navuoo, Illinois. It po
rtrays the trial of Joseph Smith. Within the course of that trial, Brigham Young stands up to tell of his convers
ion to Mormonism, and of his belief in the spiritual message of Smith. Then Smith is assassinated, and Young must
deal with his own doubts about whether he has been chosen to lead the Mormons to a new land. Despite his grave do
ubts, he perseveres, and finally has a vision (that Utah is the place for his colony) that gives him confidence i
n the rightness of his leadership. Later, as crops are destroyed by crickets, he again doubts that he has truly b
een chosen--however, a miracle occurs, which cements his place in history.

I found the performances to
be moving, and the story to be convincing and interesting. I would love to know whether Mormons believe that this
is an accurate portrayal. Polygamy is a part of the story, but the reasons why this is central to LDS are not rai
sed. The issue is not emphasized.

I\'m sure people stay away from this movie because of its religious

['649,"1983\'s ""Frightmare"" is an odd little film. The director seems to be trying to combine the atmosphere o
f classic \'30s/\'40s style horror movies with the shock factor of the then-exploding \'80s slasher genre. It isn
\'t totally successful (mostly due to very obvious budgetary restraints, and the less-than-professional caliber o
f its cast of young actors) but it still has its moments, mostly due to the classy performance (classier than the
movie deserves) by the late German actor Ferdinand Mayne, who plays an aging old time horror movie star (ala Vinc
ent Price) named ""Conrad Ratzoff."" At the beginning of the movie we meet the has-been horror star as he\'s shoo
ting a commercial for dentures and we quickly learn that ol\' Conrad is a bit of a hoity-toity, prima donna jerk-
off. Just when you think he couldn\'t be any more un-likable, the commercial director berates Conrad for blowing
a take for the umpteenth time and the old goat pushes him off a balcony to his death. Nice, huh? Conrad then visi
ts some fans at a college campus horror movie club, unfortunately he suffers a heart attack in the middle of his
speech to them and eventually ends up back at his mansion waiting to die. Still feisty even at Death\'s door, he
manages to do away with a despised business associate by smothering him with a pillow before he finally kicks the
bucket himself. Conrad is then laid to rest in true Hollywood style in a high tech neon tomb with video screens a
bove the casket, which will play personal video messages from Conrad himself for visitors who enter to pay their
respects.

It is at this point that the kids from the college Horror Movie Society decide to pay Conrad
\'s grave an after hours visit, breaking into the tomb and taking his body back home with them for an all night p
arty. (Not exactly my idea of fun, but hey, these are characters in an \'80s horror film. Logic has no place here
.) The college kids spend the evening having dinner with Conrad\'s body seated in a place of honor, posing for ph
otos with it and even dancing around the room with it, before parking Conrad and his coffin in the attic, plannin
g to return him to his crypt in the morning. In the meantime, Mrs. Ratzoff, distraught over the theft of her husb
and\'s body, has called in a psychic friend to try and ""reach"" Conrad through a seance. You can pretty much fig
ure out the rest from here. Since Conrad wasn\'t a very nice guy in life, it\'s not much of a stretch to assume t
hat he won\'t be any friendlier in death. Psychic Lady makes contact with Conrad and he re-awakens in predictably
ticked off fashion, then spends the rest of the movie strolling around the corridors of the students\' ridiculous
ly huge house, picking off the young grave robbers one by one. This is where the movie falls apart. Endless scene
s of teens wandering around empty hallways saying ""Hello? Is anyone there?"" are intercut with occasional bursts
of violence (we do get a pretty gnarly decapitation scene, which is the highlight of the movie) before the last t
wo survivors finally figure out (WAY later than any semi-intelligent people would have figured out the same thing
...but again, we\'re in an \'80s horror film!) that the only way to stop the mayhem is to get Conrad\'s body back
to its crypt where it belongs. The sluggish pacing is padded out with a lot of weird lighting and dry ice fog eff
ects backed by a soundtrack made up almost entirely of sound effects rather than music(thunder, moans and groans,
howls, etc.) that becomes severely annoying after a while.

I can\'t really recommend ""Frightmare"" to
anyone who didn\'t grow up watching cheap movies like this on late night cable back in the \'80s. ""Modern Horror
"" fans will doubtlessly find ""Frightmare"" incredibly slow moving and goofy. If you came of age in that magical
decade, however, you may get a blast of nostalgia from ""Frightmare."" Fans of Jeffrey (""Re-Animator"") Combs ma
y also want to check it out, as the future Dr. West appears in an early role here as one of the unlucky film stud
ents.

I will advise the reader to avoid the version of this film on the EastWestDVD label (paired with
Roy Ward\'s ""Vault of Horror"" and sold at dollar stores) because the print quality is terrible. I\'m told the f

This is a very real movie about very real people, none of them perfect in
any way but together they are put into a situation where they learn to explore and accept what is different and t
hat in turn makes order out of chaos. I am not prepared to limit the possibility of parapsychology, since I\'m ne
ither an expert nor use the full extent of my own brain.

So watch this movie for the characters. It is
brim-full of a whole cast of wonderful quirky folk.

Within the first three minutes Kiefer Sutherland
enacts Detective Michael Hayden\'s life superbly and he keeps developing the character throughout the movie. Exce
llent acting, very believable.

Henry Czerny could not have been cast better and the rapport between h
is \'Harvey\' and Kiefer\'s \'Mickey\' enhances the oppositeness of their characters.

I thoroughly enj
oyed the cranky landlady, \'Mrs Ramsay\', I\'m sure she and my mother-in-law are good friends!!!

There
\'s a host more of these wonderful characters but space is limited here so watch the movie and enjoy them."'],

I was really looking forward to seeing this movie as it seemed to be right up my alley. I can not for the life of

One day they are here diffusing a bomb. Tomorrow they are tooling around the countryside, by themselves no less a
nd start taking sniper fire. No wait here they are back in Bagdad. There is no cohesive story at all. The three m
ain characters are so overly characterized that they are mere caricatures. By that I mean, we have the sweet kid
who is afraid of dying. We have the hardened military man who is practical and just wants to get back safe. And t
hen we have the daredevil cowboy who doesn\'t follow the rules but has a soft spot for the precocious little Iraq
i boy trying to sell soldiers DVDs. What do you think is going to happen??? Well, do you think the cowboy soldier
who doesn\'t follow rules is going to get the sweet kid injured with his renegade ways?? Why yes! Do you think th
e Iraqi kid that cowboy soldier has a soft spot for is going to get killed and make him go crazy? Why yes! There
is no story here. The script is juvenile and predictable! The camera is shaken around a lot to make it look ""art

happens to be occupied by very realistic looking mannequins. He goes with the one guy in the bunch out to work on
the car and leaves the 3 girls in the house. Before he goes he warns them not to leave and go up to the house beh
ind his shack; he warns them about ""Davy"", his brother who is lurking about and isn\'t all there. Of course, on

['654,"Most Lorne Michaels films seem to fail because they\'re essentially just extended versions of skits that
barely managed to make people laugh in five-minute segments. ""Tommy Boy"" is a character right from ""SNL"" - a
big fat lovable (in their opinion) goof who doesn\'t know anything.

David Spade gets the Thankless Ove
rwhelmed Everyman role. He\'s paired with the Annoying Overweight Slob and they endure Miserable Misfortunes as t
hey travel cross country to Save Daddy\'s Business.

The plot, for starters, is really faulty. The whol
e premise - daddy dies and rich stupid son has to save the family biz - can be traced back to just about any movi
e you want. Like any SNL style film it is reduced to a simple motivation - empty, shallow; just a reason to see a
fat guy and a thin guy be ""funny"" together.

The movie\'s biggest ""influence"" is the 1987 comedy cl
assic ""Planes, Trains & Automobiles."" That movie is great because the plot isn\'t stale and recycled. It\'s bas
ic, yeah - a guy traveling home for Thanksgiving gets stuck with a slob. But it\'s real, dammit. It makes all the
difference. The characters are real, the situations are far more real. ""Tommy Boy"" is pure slapstick and its ri
diculous situations undermine the characters - we feel nothing for them, and we don\'t care about what\'s happeni
ng on-screen. ""PTA"" walked the careful line between outrageous and utterly believable and relate-able - ""Tommy
Boy"" is simply absurd, with jokes like a simple deer-in-the-headlights turning into a crash turning into a strug
gle with a dead deer that really isn\'t dead, then awakens and wrecks their car.

The whole wrecked car
thing is stolen completely from ""PTA"" and it\'s eerie how much stuff in this film actually does resemble the St
eve Martin/John Candy movie.

Farley is simply way too obnoxious to find likable - I\'ve never enjoyed
watching him in any movies and this hasn\'t changed my mind. Spade\'s given very little to do, serving as the mov
ie\'s most thankless character.

Dan Aykroyd is wasted as the Evil Baddie who plans to destroy Daddy\'s
Business. The ending is a joke, and not in a ""har-har funny"" way. More like a ""oh god are they serious?!"" way
.

Some people dig it, that\'s cool. But I just can\'t get into it, nor do I appreciate all the stuff i
t ""borrows"" from - not just counting ""PT&A"" - without any credit whatsoever."'],

t connoisseur and an off-screen narrator as they ponder through a series of paintings (which are shown in the sty

The only thing th

y find is a robot more advanced than anything imaginable on earth, a beautiful and totally socially inept young w
oman, and her father, a hermit philologist haunted by more than the demons of the ancient civilization he has imm
ersed himself in.

On the surface, this story is a pulp scifi murder mystery. Some compare it to Shakes
peare\'s Tempest, but this is a stretch, and, in some ways, an insult to the scifi genre. Stripped of what makes
it a scifi film, sure, its The Tempest, but how many hundreds of films can you say something similar about? <br /
>
Underneath, this is a cautionary tale about progress and technology and the social evolution necessary for
its appropriate and safe use. Yet the film still proceeds with all the hopefulness for our future that we have co
me to expect from shows like Star Trek.

Anne Francis is not the only reason why this film is best desc
ribed as beautiful. The special effects, and even the aesthetics of the backdrops are powerful enough to make the
uninspired directing and uneven acting almost unnoticeable. If it were not for the goofy retro-art-deco-ness of 1
950s sci-fi props, you might think you were watching a 1960s piece.

This is a classic of that very spe
cial sub-genre of sci fi I like to call 1950s sci-fi, and, though not, in my opinion, the best it is certainly a
must see for anybody interested in sci-fi film and special effects. The clever plot, now rendered trite by its re
use in six or seven episodes of Star Trek, Lost in Space, and even Farscape, is worth paying attention to, and wi
ll sustain the interest of most scifi fans. Trekkers will be particularly interested in the various aspects of th
e film which seem to have inspired themes of Star Trek\'s original series aired about 12 years later, though they
may find themselves disappointed by the (relatively mild) 1950s sexism and the lack of any kind of racial integra
tion. While I do not mean to nitpick, the lack of social progress manifest in this film was the one major problem
I had with it.

Some will probably see this film simply to catch a glimpse of young, good-looking Lesl
ie Nielsen in one of his first starring roles. Unfortunately, Nielsen\'s performance is only average, and at time
s down-right poor (especially at the climax of the film). Walter Pigeon, though quite excellent in other films, o
ver-acts his role as well. Ms Francis, Earl Holliman, and the amazing Robby the Robot are the stand-out actors in
this crowd, though on the whole the character actors filling in the ensemble do a good job. The problems with the
featured performances, I think, are as much the fault of the director and the editor, as anything. Though they ce
rtainly got most of the film quite right."'],

""I, Robot"" has polarized the critical viewing community here on IMDb (and given rise to a lot of insults and na

I find this somewhat surprising, as this film is not great (or even good), but neith
er is it terrible (or even really bad). What this film really is, is...depressing. Depressing that the US film-go
er population is so ready to lap up insipid, clichÃ©d re-heats, and acclaim them as spectacular new works. This f
ilm as ""retread"" written all over it, from the plot line (an uneasy mix of Asimov and modern-day uber-action) t
o Smith\'s character (a smart-mouthed cynic with a backbone of titanium), to the special effects (that borrowed f
rom Matrix and a few others).

""I, Robot"" is, sadly, quite possibly the perfect action movie for toda
y\'s audience: superficial plot, insipidly snappy dialog, and lots and lots of adrenaline. Smith is mediocre, but
we already knew that (he seems to be Hollywood\'s latest unsuccessful attempt to create a black Bruce Willis). Th

I have to disagree with another
commenter, who said the special effects were okay. I found them pretty bad: it just wasn\'t realistic and they we
re so fake that it just distracted from the actual story.

Maybe that distraction is the reason that I
did not fully understand the story. The archaeologists are looking for ""the set"". They do not bother to tell wh
at set, or what is so special about it. That also makes it unclear why they search for it in California, while th
e intro of the movie takes place in ancient Egypt.

If you\'re shooting a movie that takes place in the
desert, take the effort to actually go to the desert. The beginning - the ancient ceremony - looks like it was sh

The action-level was constant throughout the movie, no ups and

['672,"Having seen Carlo Lizzani\'s documentary on Luchino Visconti, I was bound to higher expectations before w
atching this film made three years later by Adam Low. But the viewer like me did get dissatisfied... I faced a ne
ed for critical opinion, which I generally don\'t like giving due to the fact there are no documentaries that wil
l satisfy every viewer. There are also no documentaries that will examine a theme totally. But when I read the re
views already written on this title, I also felt a bit confused. People sometimes don\'t know what to criticize.
Therefore, to be clear, I\'ll divide this film into two major parts that differ considerably: the former one abou
t Visconti before his director\'s career and latter one about Visconti the director.

The aristocratic
background, all the hobbies, the wealth that young Luchino experienced and enjoyed are clearly presented. His eff
ort in horse racing is mentioned as well as his relation with his mother so much disturbed after his parents\' di
vorce. We also get a very accurate idea of where Luchino was brought up as a real count of Milano: in riches galo
re, with nannies, cooks with access to everything, in TRUE ARISTOCRACY. For instance, his father\'s splendid vill
a at Grazzano and other marvelous villas prove that. There is also an emphasis on Visconti\'s crucial visit in Pa
ris in the 1930s where he met eminent people (""left wingers"") who later had impact on his style and message in
art. That clearly explains the idea of a communist with the aristocratic upbringing (a contrast at first sight).

However, the part about his director\'s career, which started with OSSESSIONE during WWII and ended w
ith INNOCENTE just before the director\'s death in 1976, is poorly executed. His movies are not discussed well. W
hy? Because there are very few people who really have something to say. Franco Zeffirelli, the director, remember
s the works on LA TERRA TREMA and that is all right. There are also some interviews with Franco Rosi. But later,
such movies like IL GATTOPARDO, LA CADUTA DEI REI, LA MORTE A VENEZIA or LUDWIG are mostly discussed by Helmut Be
rger. Although I liked the actor in the role of Ludwig, I did not like the interviews of his. Moreover, some thou
ghts he reveals are not accurate to entail in such a documentary... There is no mention of significant works of V
isconti like CONVERSATION PIECE, there are no interviews with eminent cast Burt Lancaster. A mention about Silvan
a Mangano and Romy Schneider should also be made. There is one footage interview with Maria Callas that appears t
o be interesting but that is only a short bit. Franco Zeffirelli, though I appreciate him as a director, makes fu
n of it all rather than says something really precious. For instance, he mentions the event how Visconti separate
d from him after years of service. Therefore, I say: simplified and unsatisfactory.

What I find a str
ong point here are footage interviews with Visconti himself. As a result, we may get his own opinion about his wo
rks. For instance, I very much appreciate the words he says about death regarding it as a normal chapter of life
and as natural as birth itself. He also discusses his health problems after the stroke while filming LUDWIG.<br /
>
I believe it is better to see LUCHINO VISCONTI (1999) by Carlo Lizzani than this doc. Although it is short
er and condensed as a whole, you will get a better idea of the director. Visconti would be furious about that and
the fury of his usually turned people\'s emotions and viewpoints into stone... 4/10"'],

The hook of this film is the upwardly

The acting is superb.

The production (lighting, sets, editing, sound) is about 2 steps above a 60 minutes story. The characters

From the safety of Hollywood, Chaplin uses this soapbox to exhort Europe to

erate polemic.

The story involves on the one hand the the vulgar and repellant Hynkel and the reign of
terror over which he ineptly presides, and life in the jewish ghetto where every single person is friendly, human

e, brave, etc., etc, Chaplin is Hynkel, and he also plays The Jewish Barber, the little hero of the ghetto (The T
ramp in all but name). Needless to say, Chaplin writes, directs, stars, composes the music and does the catering.

In 1940 the full truth was not yet known about the Third Reich, and Chaplin can be forgiven for havin
g something less than perfect historical foresight, but even by the standards of the day he gets Hitler badly wro
ng. A comedian and a sentimentalist, Chaplin tries to ridicule Hitler by making Hynkel silly and hapless. All thi
s does is to humanise him. When Hynkel the not-very-warlike soldier fools around with the big gun and the upside-
down aeroplane, he becomes endearing rather than despicable. As dictator, he inspects his subordinates\' technica
l innovations which don\'t work (the parachute hat, the bulletproof uniform etc.) and these passages are meant to
make us think that the real-life Nazis are incompetent and can be swept aside. In fact, Hynkel\'s regime is made
cute and likeable by its bumbling bodgery.

In truth, Chaplin\'s day had already passed when he made th
is ill-considered polemic. At heart, he was still a dinosaur of the silent screen (check out the humour, with gag
s like staggering up and down the street semi-conscious, or the pantomime of the coins in the puddings). The hero
Schultz is meant to represent a yardstick of European decency against which Hynkel can be judged, but Schultz loo
ks more like a character from operetta than a Nazi. Is it in any way believable that a Schultz figure (if such ha
d existed) would say to the Fuehrer\'s face, ""your cause is doomed to failure because it\'s built upon the stupi
d, ruthless persecution of innocent people""? And how does Schultz come to be in the cellars of the jewish ghetto
? If he is the object of an exhaustive manhunt, why does he persist in wearing his Ruritanian uniform? Chaplin di
d not yet know the full horrors of Auschwitz-Birkenau or Treblinka, but the Nazi concentration camp which he offe
rs us is hopelessly out of kilter with the grim spirit of the age. As usual, Chaplin thinks in terms of \'silent\
' comedy set-pieces, loosely pegged onto the narrative clothes line. There is the knockabout scrapping with the s
tormtroopers, shaving a man to the accompaniment of Brahms, and the globe ballet (watch for the segment filmed in
reverse).

Paulette Goddard is the unremittingly perfect Hannah. Just as the people of the ghetto are i
mpossibly nice, and the jewish haven in Osterlich is ridiculously idyllic, so Hannah is quite literally too good
to be true. Brave, defiant, resourceful, hardworking and (of course) beautiful, she is the canary of judaism in t
he ghetto cage. ""Gee, ain\'t I cute?"" she asks, after the Barber gives her a make-over. Too cute by far, is the
answer. She doesn\'t come close to ringing true, because Chaplin has made her a caricature. The \'wouldn\'t it be
wonderful?\' speech which Chaplin puts into her mouth is typical of the author - too wordy, too emotionally cloyi
ng.

Jack Oakie is great as Napaloni, the fascist dictator of Bacteria. He brings a whiff of much-neede
d comic brio to the proceedings, but the film\'s underlying weakness remains. If Napaloni is silly and ineffectiv
e, how can we fear him? And anyway, the stuttering stop-start of the back-projected train is a fine Chaplinesque
example of a gag that is persisted with far beyond its comic worth.

And where did the Jewish Barber ac
quire that immaculate Hynkel uniform?"'],

['685,"The IMDb plot summary in no way describes the essence of this film. It should have read \'Be prepared to
be catapulted back to the prison of the 3rd pew from the back of your family\'s church at 8 years old, listening
to the preacher drone on about God\'s will while all you can think of is getting back home to your Lego\'.
<
br />It starts off well intentioned, building intrigue by planting some real and surreal clues such as Renny\'s \
'how did the cut on my thumb heal so fast?\' moment. It then slowly morphs into a Christian jamboree, sacrificing
its plot completely in a wash of evangelistic-induced babble. I believe I counted the use of the word \'pray\' ab

out 53 times in a five minute span near the end. After the 31st, I tried to twist the context of the word to its synonym, \'prey\'. Sadly, this little mind game of mine made the film at least bearable for the last 20 minutes. Plus it made me laugh whenever a character would say \'prayer\' (\'preyer\' to me) as it became totally zany. Indeed, even my Catholic wife sunk in her chair from boredom, almost to the point of ending up on the floor.

For all the salivating Christians who ranked this film 8-10 stars, I suggest sticking with your theology-reinforcing safety standards like Circle Square, The Ten Commandments, anything from Narnia, Jesus Christ Superstar and the like. Stay away from more cerebrally challenging subject matter in films such as Jesus Camp, The God Who Wasn\'t There, What Would Jesus Buy, or the soon-to-be released Religulous.

At two hours, it was quite long for a 1922 silent film yet continues to hold your interest some 80 years after it was filmed. Mary gives one of her finest performances at times the role seems like a ""greatest hits"" performance with bits of Mary the innocent, Mary the little devil, Mary the little mother, Mary the spitfire, Mary the romantic heroine, etc. characteristics that often were used throughout a single film in the past. The movie is surprisingly frank about one supporting character\'s illegitimate child for 1922 and at one point our Little Mary is thought the unwed mother in question! She thought that it would be a nice Christmas movie for me and my brothers to watch. This movie, however, scared the hell out of me. You may be asking yourself, how could a movie about Santa Clause scare anyone? The plot of the movie revolves around Satan sending one his minions, Pitch, to earth in an attempt to kill Santa and ruin Christmas. That\'s right, Satan sends a demon up from hell to kill Santa Clause. Pitch stalks Santa throughout Christmas eve in an attempt to trap him on earth when the sun rises on Christmas day, for if Santa doesn\'t make it back to his home in space, he turns to powder. Don\'t get me wrong, the movie is funny and fairly entertaining, however, the image of demons and devils dancing in the depths of hell (which occurs at the beginning of the movie) is just downright creepy."'],
['688,"Although there are some snippets in this 4-part documentary hinting at the necessity for recreational drug law reform, these are not very well-developed, in contrast to the many snippets from those who feel that the drugs that happen to currently be illegal are a scourge for which the only imaginable solution is incarceration of even those who are guilty even of mere possession of such drugs.

Although this program, as a whole, leaves the viewer with the impression that the drug war is largely a futile exercise and a waste of money, and for that it deserves some praise, almost nothing in this documentary addresses the very real problems that total war against those who merely possess illegal drugs obviously causes and contributes to--very real problems that most drug warriors themselves would tell you, if asked, they think the drug war is designed to solve. For example, while many minutes are spent on the surge in violence associated with the rising popularity of crack cocaine in the 80\'s, at no point does this program even hint that the very laws designed to suppress crack cocaine make it impossible for drug sellers to enforce their contracts and business arrangements in courts of law, forcing them to resort to violence to stay in business. But instead of seeing the laws as an important cause of the violence, the drugs themselves seem to take the brunt of the blame. Inexplicably, alcohol prohibition, the violence that ensued, and the subsequent reversal of prohibition, is totally ignored by this program.

This program will help to perpetuate ridiculous stereotypes of drug users, and it is these that are the primary force in driving the very expensive and very problematic drug war. The possibility of incorporating drugs other than alcohol into a happy and successful life is not really touched on. Use of any drug in excess is probably going to cause personal problems, but not all users do their drugs in excess, just like not all alcohol users are alcoholics.

If you want a point of view from someone who believes that adults have a moral right not to be incarcerated and have their lives ruined by the criminal justice system just for using drugs that the government, for mostly very arbitrary political reasons rather than reasons based on sound social policy and legitimate science, has decided to totally prohibit, whose users it has decided to not-so-metaphorically wage war against, just forget about it. None of that is in here.

On the other hand, this is hardly in the category of anti-drug propaganda. It is mostly an interesting neutrally-presented history of drugs in 20th century United States like marijuana, LSD, heroin, cocaine, MDMA, and Oxycontin. But there is a significant element of various people\'s points of view with regard to drug laws, and most (but not all) of that is not very thoughtful or well-informed and slanted in favor of the drug warrior mentality, especially with respect to drugs other than marijuana.

The criminal justice system, along with its often harsh life-ruining penalties, is obviously not the only answer or the most appropriate answer to every single social problem, but unfortunately there\'s an epidemic in this nation of an as-yet unnamed disease whose primary symptoms are a lack of imagination with respect to social policy when it comes to certain drugs, a lack of compassion for fellow humans, a prejudice against people who use the drugs that are not governmentally-approved, perhaps a vested interest in the growth of the prison/policing industry, and a horrid apathy with regard to human dignity. It\'s morally wrong to kidnap or incarcerate people unless you have a very damn good reason for doing so, and the mere possession of an arbitrarily selected group of drugs is clearly not such a reason. This is really the primary issue when it comes to drugs, yet this program ignores it.

So, in sum, the parts of this program that neutrally present history without feeding stereotypes of drug users that are at the heart of the drug war mentality are pretty good and interesting and entertaining. But when it comes to presenting a rational non-radical point of view with regard to drug policy, and giving the viewer examples not only of people with drug problems but also the many people who successfully incorporate drugs into happy and successful lives, it\'s pretty disappointing."'],

Back in January of 98 though, I attended the Second Annual Quentin Tarantino film fest held in Austin,Texas. The particular theme of films this night was ""Neglected 70\'s Crime Films"" and boy was her right. ""The Gravy Train(or The Dion Brothers, as it appeared this print)"" was an absolute gem. Wonderful performances, quirky characters, smart plot, hilarious comedy, and just an all around great time. Rarely do you see a Crime film that is so entertaining and fresh. Margot Kidder in one of her earliest film appearances is extremely sexy as well. I hope some cable network gets a hold of this film and allows many more to see it. ['690,"The movie was actually a romantic drama based on three sisters who had desires to become a famous girl group. In their endeavors, the oldest sister meets a drug dealer and street hustler called Satin, whom Sister goes after because she believes he is the ""big time"" who will give her everything she ever thought she wanted out of life. Though he could be accused of killing her, he really kills only her spirit and will to live, after which she becomes a drug addict and ultimately dies from an overdose. The story isn\'t about the street life or the Italian mobster who tries to buy Stix off, then threatens him, it\'s about how love can overcome even the worst tragedies in life as portrayed in song and style and the character that was the life in the times for young women trying to be ""discovered"" back then."'],
['691,"First, I realize that a ""1"" rating is supposed to be reserved for the worst of the worst. This movie gets that from me because, as one reviewer points out, it\'s not bad in a self-aware, over-the-top sort of way that might allow it to have some comic or cult value. It simply misses its mark on every count. **Contains possible spoilers** The dialog is completely disingenuous. The continuity is so deliberate it\'s painful. Daniel just finishes speaking of his lost love, and with his final word the flamenco dancers start. The mock-shock of what\'s her name (see? I don\'t even remember her character\'s name, let alone the name of the forgettable actress) when her husband (the Baldwin) first tells her that her friend is the bad guy. The car and the motorcycle chases did all th

e right things. Vegetable carts gone flying. Cars crashing into each other. Motorcycles going down the stairs. Pe
ople nearly being hit, but remarkably, no one is. Oh, that\'s right... except for the one guy who has been stabbe
d several times, is obviously stumbling along the curb with knife wounds, and an approaching car apparently didn\
't notice him there. Hmmm.

It\'s becoming more and more remarkable to me that movies like this can be
made. There is so much pressure in the film industry to make money, you\'d think that someone in Hollywood would
think of making good films worth seeing. Now there\'s a novel idea.

My suggestion: don\'t see this fi

['693,"The year 2005 saw no fewer than 3 filmed productions of H. G. Wells\' great novel, ""War of the Worlds"".
This is perhaps the least well-known and very probably the best of them. No other version of WotW has ever attemp
ted not only to present the story very much as Wells wrote it, but also to create the atmosphere of the time in w
hich it was supposed to take place: the last year of the 19th Century, 1900 Â… using Wells\' original setting, in
and near Woking, England.

IMDb seems unfriendly to what they regard as ""spoilers"". That might apply
with some films, where the ending might actually be a surprise, but with regard to one of the most famous novels
in the world, it seems positively silly. I have no sympathy for people who have neglected to read one of the semi
nal works in English literature, so let\'s get right to the chase. The aliens are destroyed through catching an E
arth disease, against which they have no immunity. If that\'s a spoiler, so be it; after a book and 3 other films
(including the 1953 classic), you ought to know how this ends.

This film, which follows Wells\' plot i
n the main, is also very cleverly presented Â– in a way that might put many viewers off due to their ignorance of
late 19th/early 20th Century photography. Although filmed in a widescreen aspect, the film goes to some lengths t
o give an impression of contemporaneity. The general coloration of skin and clothes display a sepia tint often fo
und in old photographs (rather than black). Colors are often reminiscent of hand-tinting. At other times, colors
are washed out. These variations are typical of early films, which didn\'t use standardized celluloid stock and t
herefore presented a good many changes in print quality, even going from black/white to sepia/white to blue/white
to reddish/white and so on Â– as you\'ll see on occasion here. The special effects are deliberately retrograde, o
f a sort seen even as late as the 1920s Â– and yet the Martians and their machines are very much as Wells describ
ed them and have a more nearly realistic ""feel"". Some of effects are really awkward Â– such as the destruction
of Big Ben. The acting is often more in the style of that period than ours. Some aspects of Victorian dress may a
ppear odd, particularly the use of pomade or brilliantine on head and facial hair.

This film is the on
ly one that follows with some closeness Wells\' original narrative Â– as has been noted. Viewers may find it info
rmative to note plot details that appear here that are occasionally retained in other versions of the story. Well
s\' description of the Martians Â– a giant head mounted on numerous tentacles Â– is effectively portrayed. When t
he Martian machines appear, about an hour into the film, they too give a good impression of how Wells described t
hem. Both Wells and this film do an excellent job of portraying the progress of the Martians from the limited per
spective (primarily) of rural England Â– plus a few scenes in London (involving the Narrator\'s brother). The dir
ector is unable to resist showing the destruction of a major landmark (Big Ben), but at least doesn\'t dwell undu
ly on the devastation of London.

The victory of the Martians is hardly a surprise, despite the destruc
tion by cannon of some of their machines. The Narrator, traveling about to seek escape, sees much of what Wells t
erms ""the rout of Mankind"". He encounters a curate endowed with the Victorian affliction of a much too precious
and nervous personality. They eventually find themselves on the very edge of a Martian nest, where they discover
an awful fact: the Martians are shown to be vampires who consume their prey alive in a very effective scene. Well
s adds that after eating they set up ""a prolonged and cheerful hooting"". The Narrator finally is obliged to bea
t senseless the increasingly hysterical curate Â– who revives just as the Martians drag him off to the larder (ch
eers from the gallery; British curates are so often utterly insufferable).

This film lasts almost 3 ho
urs, going through Wells\' story in welcome detail. It\'s about time the author got his due Â– in a compelling pr
esentation that builds in dramatic impact. A word about the acting: Don\'t expect award-winning performances. The
y\'re not bad, however, the actors are earnest and they grow on you. Most of them, however, have had very abbrevi
ated film careers, often only in this film. The Narrator is played by hunky Anthony Piana, in his 2nd film. The C
urate is John Kaufman Â– also in his 2nd film as an actor but who has had more experience directing. The Brother
(""Henderson"") is played with some conviction by W. Bernard Bauman in his first film. The Artilleryman, the only
other sizable part, is played by James Lathrop in his first film.

This is overall a splendid film, por
traying for the first time the War of the Worlds as Wells wrote it. Despite its slight defects, it is far and awa
y better than any of its hyped-up competitors. If you want to see H. G. Wells\' War of the Worlds Â– and not some
wholly distorted version of it Â– see this film!"'],

['699,"I decided to watch this movie because I\'d not seen Carol Lombard before in any movie. I\'m sorry it had to be this one because, quite frankly, this is a dog Â– and even with Jimmy Stewart and Charles Coburn, both of w hom were great actors.

The problem with the film is simple: it tries to put too much, too quickly, in to a story about a young lawyer (John Manson played by Stewart) who marries Jane (played by Lombard) within an ho ur of meeting her. What\'s that clichÃ©? Marry in haste, repent at leisure...

In short, the story is a series of episodes that show the couples\' worsening financial status, their troubles with John\'s live-in moth er, their struggles to pay the bills, John\'s diminished status at the office, the arrival of their baby son, Joh n Jnr (unexpected and causing additional friction at home with mother), the couples\' angst about their marriage, the baby\'s sickness which worsens, thus necessitating an heroic flight by a lone pilot (in a fierce storm) to br ing a special serum to save the child, and finally John being accepted as a junior partner at the law firm.

How many more clichÃ©d situations could the writers include? Maybe Mother dying soon after? There wasn\'t m uch comedy; the drama was lacklustre, at best; the dialog was painful to hear. Only the acting of the four main p layers was adequate.

This was the period at the end of the Great Depression with the USA coming out of its long downturn Â– during which many people experienced all of the events portrayed in the movie.

So , it made sense for Selznick to reaffirm good ol\' home spun American values of family, relationships, heroism, p erseverance, and initiative Â– all against the backdrop of the ""average"" American family. Who better to use tha n Jimmy Stewart and Carol Lombard?

And, it should be noted that the film was released in early 1939; so, it was planned in 1938 Â– soon after the USA began to get production going for the coming World War II. Hence , this sort of film was a great booster for the general public, at that time, many of who would soon have to join England in war. As many here would know, Hollywood and Washington formed an uneasy alliance before, during and af ter the war.

However, I\'m glad I saw it Â– as a piece of disguised socio-political propaganda. But, I \'ll have to see other Lombard films to gain a better appreciation of her acting range.

As another rev iewer noted: see this one just to say that you\'ve seen all of Stewart\'s movies; otherwise, don\'t bother."'],

['702,"Hypothetical situations abound, one-time director Harry Ralston gives us the ultimate post-apocalyptic gl impse with the world dead, left in the streets, in the stores, and throughout the landscape, sans in the middle o f a forgotten desert. One lone survivor, attempting to rekindle his sanity, takes food from the city to his bunga low in this desert. All alone, he hopes for more, but with nobody around, he is left with white underwear, and a passion for a local Indian tribe Â– until the discovery of a camera which opens up new doors and breaks the barri ers of human co-existence. Alan, a man of the book, is left on Earth after an unknown disaster. Thinking he is al one, he begins living life his way Â– until, Jeri Ryan, appears (like she would in any dream) out of the woods, d isheveled, and unhappy to find the final man alive to be ... well ... like Alan. Anyway, they try to co-exist, fa il, get drunk, and before creating the ultimate dystopia, they run into Redneck Raphael (played by newcomer Â– Da n Montgomery Jr). Bonds are torn, confusion sets in, a couple becomes a third wheel, and the battle between physi cally inept nerd vs. brainless jock. Even with nobody left on the planet, it becomes a truth that even the darkes t of human nature will arise.

Using a variable film technique, Ralston gives us a mediocre story based loosely on another film entitled ""The Quiet Earth"" (which I will be viewing next) oddly which he never gives an y credit towards. With a borrowed story, I guess he does a decent job of reinterpreting it. His punch seems to be lacking at the beginning while Ralston tries to find his stride, borrowing yet again from other film director\'s techniques to attempt to find his own. He opens the film interestingly enough, but fails to answer any direct ans wers. Sure, the final days have arrived, but could there be a concise answer as to ""how"" or better yet ""why"" these select few survived. A spookier beginning would have led us stronger into a comical film. The juxtaposition would have been like ""Shawn of the Dead"", but instead left us feeling like we were watching a ""made-for-TV"" p rogram. Listening to the audio commentary, I have respect for Ralston because he worked diligently to get this fi lm made, and his passion nearly sells the film, but you could tell from his interaction with the cast that he was n\'t as happy with his overall final product. There were mistakes, ones that he pointed out and others that he wa s ashamed to point out. While this does make for decent independent film-making, it sometimes feels cheap, and in Ralston\'s case, it was the latter.

I must admit, David Arnott\'s portrayal of Alan hooked me. He play ed that wimpy, school nerd, adult role very well. He was funny to both watch and listen to, and thus he became sy mpathetic to the viewer. He was a key player in keeping the film together, alas, I cannot say the same for the re st. This was Dan Montgomery\'s first film, and it was obvious Â– I mean Â– really really obvious. There were scen es in which I thought the cue card was about to come out and read the lines for him, perhaps even giving us a mor e realistic performance, but alas, it wasn\'t the case. Then there was Jeri Ryan. She pulled into her character n ear the end of the film, which to me, was the culmination of the entire piece of art. She goes from estranged unk nown to bitter cranky insane girlfriend by the end. Confused? Again, she fell into her character by the end, givi ng us just a glimpse of what she could have probably done as her acting matured. Even as the commentary progresse d, all that she contributed was a laugh, giggle, or ""ohhh, look at that color"" moment. While her beauty may sel l tickets, one may want to consider knowledge to be just as beautiful. This was her first film, so can I be too h

arsh?

Overall, this film felt like it was missing something. I though the idea was strong Â— the prem
ise that even with only a peppering of people remaining on the Earth the evil of human nature still exists. Jealo
usy cannot be killed by bacteria or bombs (maybe because it is consumed by zinc?) and we as a race will always wa
nt what we cannot have. Ralston is not a surprising director, his techniques are flawed and pre-used, but he does
know how to make a low-budget comedy. I think our idea of ""funny"" is different, so that is why I couldn\'t find
myself laughing at many of the bits he found ""hysterical"". His actors provided the level of acting needed for t
his film, which was lower than average. His film was loose, meaning that there were elements never quite explaine
d or tackled (i.e. anything with wings survived?!?), which overall harmed the intensity of the film. This was a c
omedy, but it could have been much darker and much much funnier. For those thinking that Roger Avery was a huge e
lement to this film, as we learn from their commentary, all he was there for was money Â— the was in essence, the
bank for ""The Last Man"". Don\'t get your hopes up for any classic Avery moments.

Don\'t expect more
from Ralston Â— and that is how I will end it.

I must admit, I was expecting something quite different from my first viewing of \'Cut\' last
night, though was delighted with the unexpected Australian horror gem. I am a true horror fan as true as they com
e, and found \'Cut\' to not only be the best of the genre Australia has ever produced, but one of the great parod
y/comedy films of late.

My only concern is that mainstream audiences may not pick up on a lot of the c
omedic elements - the film was not overly clever in it\'s application but made me laugh at every turn trying to f
it in EVERY possible cliche of the horror genre they could. I am certain this was intended as humour....hoping th
is was intended as humour.

And of course, there was the gore.

The use of the \'customised\'
garden shears was brilliance - besides the expected stabs and slashes. In short, there was a huge amount of varie
ty and creativity in the many violent deaths, enough to please even the skeptics of this films worth.

The appearance of both Kylie Minogue (short that her appearance was) and Molly Ringwald was just another reason t
o see the film - both performances were fantastic, as well as Simon Bossell (\'The Castle\') in a brilliant role
as the jokey technician.

All in all, I think this movie is one of the best horror products of the last
couple or years, as well as a beautiful satire/parody - toungue-in-cheek till the very end.

Loved it.

Watching fantastically gory films like Fulci\'s Gates to Hell or even Savini\'s crowning achievem

u can\'t tell the difference between reality and magic.

I can\'t imagine another reason why anyone wou

math. You don\'t see the torture, or the bloodshed as it happens, you see whatever it looks like afterwords.<br /

The gore? Well, it\'s here, but not as much as one would hope, or expect. A man does get castrated and a w
omen does get hanged by her breasts, but other then those two scenes, and one involving a scalping; there is noth
ing really much else to this film. The scenes of gore even in these three mentioned, are still pretty tame in com
parison to what you were hoping for. Maybe it\'s just me and my sick and twisted experience in the horror and gor
e genre, but I was expecting a bit more. Call me sick or twisted, but isn\'t that the only reason people are watc
hing this film in the first place? I honestly found myself bored in a lot of places.

Cannibal Ferox is
just another film that tries to capitalize on a craze of a superior film. While Cannibal Holocaust is not exactly
a great film, it is much better than this tripe. If you go out of your way to buy this for $20.00, you will feel

descent into the soul of men and women - a dark commentary on what is at the core of the civilized. as one review

['712,"Arguably the finest serial ever made(no argument here thus far) about Earthman Flash Gordon, Professor Za

in spellbinding, spectacular, and action-packed chapters Flash and his friends along with new found friends such
as Prince Barin, Prince Thun, and the awesome King Vultan pool their resources together to fight the evils and ar
mies of the merciless Ming of Mongo and the jealous treachery of his daughter Priness Aura(now she\'s a car!). Th
is serial is not just a cut above most serials in terms of plot, acting, and budget - it is miles ahead in these
areas. Produced by Universal Studios it has many former sets at its disposable like the laboratory set from The B
ride of Frankenstein and the Opera House from The Phantom of the Opera just to name a few. The production values
across the board are advanced, in my most humble opinion, for 1936. The costumes worn by many of these strange me
n and women are really creative and first-rate. We get hawk-men, shark men, lion men, high priests, creatures lik
e dragons, octasacks, orangapoids, and tigrons(oh my!)and many, many other fantastic things. Are all of them beli
evable and first-rate special effects? No way. But for 1936 most are very impressive. The musical score is awesom
e and the chapter beginnings are well-written, lengthy enough to revitalize viewer memories of the former chapter
, and expertly scored. Director Frederick Stephani does a great job piecing everything together wonderfully and c
reating a worthy film for Alex Raymond\'s phenom comic strip. Lastly, the acting is pretty good in this serial. A
ll too often serials have either no names with no talent surrounding one or two former talents - here most everyo
ne has some ability. Don\'t get me wrong, this isn\'t a Shakespeare troupe by any means, but Buster Crabbe does a
workmanlike, likable job as Flash. He is ably aided by Jean Arden, Priscella Lawson, and the rest of the cast in
general with two performers standing out. But before I get to those two let me add as another reviewer noted, it
must have been amazing for this serial to get by the Hayes Office. I see more flesh on Flash and on Jean Rogers a
nd Priscella Lawson than in movies decades later. The shorts Crabbe(and unfortunately for all of us Professor Zar
kov((Frank Shannon)) wears are about as form-fitting a pair of shorts guys can wear. The girls are wearing mid dr
ifts throughout and are absolutely beautiful Jean Rogers may have limited acting talent but she is a blonde bombs
hell. Lawson is also very sultry and sensuous and beautiful. But for me the two actors that make the serial are C
harles Middleton as Ming: officious, sardonic, merciless, and fun. Middleton is a class act. Jack ""Tiny"" Lipson
plays King Vultan: boisterous, rousing, hilarious - a symbol for pure joy in life and the every essence of hedoni
sm. Lipson steals each and every scene he is in. The plot meanders here, there, and everywhere - but Flash Gordon
is the penultimate serial, space opera, and the basis for loads of science fiction to follow. Excellent!"'],

['717,"I want very much to believe that the above quote (specifically, the English subtitle translation), which
was actually written, not spoken, in a rejection letter a publisher sends to the protagonist, was meant to be sel
f-referential in a tongue-in-cheek manner. But if so, director Leos Carax apparently neglected to inform the acto
rs of the true nature of the film. They are all so dreadfully earnest in their portrayals that I have to conclude
Carax actually takes himself seriously here, or else has so much disdain for everyone, especially the viewing aud
ience, that he can\'t be bothered letting anyone in on the joke.

Some auteurs are able to get away wit
h making oblique, bizarre films because they do so with Â©lan and unique personal style (e.g., David Lynch and Al
ejandro Jodorowsky). Others use a subtler approach while still weaving surreal elements into the fabric of the st
ory (e.g., Krzysztof Kieslowski, and David Cronenberg\'s later, less bizarre works). In Pola X, Carax throws a di
sjointed mess at the viewer and then dares him to find fault with it. Well, here it is: the pacing is erratic and
choppy, in particular continuity is often dispensed with; superfluous characters abound (e.g., the Gypsy mother a
nd child); most of the performances are overwrought; the lighting is often poor, particularly in the oft-discusse
d sex scene; unconnected scenes are thrust into the film for no discernible reason; and the list goes on.
<b
r />Not to be completely negative, it should be noted that there were some uplifting exceptions. I liked the musi
cal score, even the cacophonous industrial-techno music being played in the sprawling, abandoned complex to which
the main characters retreat in the second half of the film (perhaps a reference to Andy Warhol\'s \'Factory\' of
the \'60s?). Much of the photography of the countryside was beautiful, an obvious attempt at contrast with the gr
imy city settings. And, even well into middle-age, Cathering Deneuve shows that she still has \'it\'. Her perform
ance was also the only one among the major characters that didn\'t sink into bathos.

There was an earl
ier time when I would regard such films as ""Pola X"" more charitably. Experimentation is admirable, even when th
e experiment doesn\'t work. But Carax tries nothing new here; the film is a pastiche of elements borrowed from co
untless earlier films, and after several decades of movie-viewing and literally thousands of films later, I simpl

Right before the Jackson movies came out, my wife and I rent
ed this movie since she had never seen it and I was feeling nostalgic.

Ralph Bakshi ran out of money a
bout mid-way through the animation process for this movie, and was forced to drastically cut corners on this prod
uction. Since this movie was done primarily with rotoscoping, the animation technique for people on a budget, thi
s is saying something. Much of this movie is animation only in the very loosest sense of the word. There are some
scenes which are very obviously just people standing in front of a screen, with maybe some animation effects supe
rimposed on top of them.

Because of budget constraints, the movie -- already a compression of ""The Fe

a film-strip version of the Cliff Notes of the books.

Its not all bad, though, the animation brings a
warmth to it, that I found lacking in the Jackson movies. Its nice to imagine what it could have been like with d

. He\'s definitely one to look out for in the future. Dame Eve Walton is played by the fabulous Julie Walters. I
loved the simple plot and the way the actors portrayed their characters with great sensitivity. The highlight of

['723,"For Greta Garbo\'s first talking picture, MGM wisely chose Eugene O\'Neill\'s Pultizer Prize winning 1921
play ANNA Christie.

Also wisely, the producers backed Garbo up with not one but two members of the Or
iginal Broadway Cast (George Marion as Anna\'s father, Chris, and James T. Mack as Johnny the Priest - transmuted
to ""Johnny the Harp"" for films so as not to offend).

This little change is interesting. Like too ma
ny films accused (by those who want MOVIES to be MOVIES and ignore their origins) of being ""little more than fil
med stage plays,"" the problem is not the play but the movie makers who wouldn\'t be more faithful to the propert
y. By diluting a great cinematic stage work so it wouldn\'t offend anyone, or opening it up because they COULD, t
oo many lose the very qualities which made the piece worth filming in the first place.

Fortunately, t
he respect the studio had for both O\'Neill and Garbo allowed ANNA Christie to survive the normally destructive p
rocess admirably in Frances Marion\'s generally sensitive screen adaptation. Wonder of wonders, Marion even allow
s the POINT of the scene where Garbo\'s Anna reveals her past on ""the farm"" to the man she badly wants to marry
and the father who sent her there in tact! What the League of Decency must have thought of that!

The
source play\'s greatest problem has always been that Chris\'s friend Marthy tends to walk away with the first act
and then disappears from the last two so that Anna can take stage - the two sides of the genuinely good woman men
don\'t always recognize.

The perfectly cast Marie Dressler (who had cut her teeth on the Broadway sta
ge as well before going to Hollywood) is the perfect balance for Garbo\'s Anna in this area as well and the fast
moving film at only 90 minutes, doesn\'t allow us too much time to miss her - one of the few benefits from atmosp
here being shown rather than eloquently described in the original - AND screenwriter Marion is wise enough to str
ay from O\'Neill to bring Dressler back for a touching scene two thirds of the way through the film that will rem
ind many of Julie Laverne\'s second act appearance in SHOW BOAT.

Anna and Marthy\'s early scene toget
her on screen (16 minutes into the film) taking each other\'s measure and setting up all the tension of the rest
of the story is among the most affecting scenes in the entire piece. Not to be missed.

ANNA Christie
is great tragic play and a good film drama. It\'s hard to imagine that a latter day remake, which would almost ce
rtainly lose the grit and atmosphere of this 1930 remake (it was first filmed without sound in 1923 - also with G
eorge Marion\'s original Broadway Chris) could improve on this excellent filming.

The internal scenes
hew closest to the play, but the exteriors shouldn\'t be missed by anyone with an eye to atmosphere. While the ba
ckground screen work is not to modern technical standards, the backgrounds give a better glimpse than most films
of the era of the actual world in which the screen play is set (especially in the New York harbor).

Ne
arly all Garbo\'s naturalistic performances of the sound era have held up superbly (only the too often parodied d
eath scene from CAMILLE, 7 years later, will occasionally draw snickers because of the heavy handed direction and
the parodies), but this ANNA Christie, together with the variety of her 1932 films, MATA HARI and GRAND HOTEL, an
d the sublime Lubitsch touch on her 1939 comedy, NINOTCHKA (""Garbo laughs!""), surely stand as her best.
<b
r />O\'Neill fans who are taken with this play at the edge of his lauded ""sea plays,"" should track down the fin
e World War II shaped film released in the year before the U.S. entered the conflict, THE LONG VOYAGE HOME (1940)

Jim Carrey (who may I add is
my No.1 actor in the whole world) was absolutely magnificent as the Grinch in this Ron Howard\'s best movie (next

The story is based upon the story of the grinch. As
we all know the Grinch is a horrible person who just can\'t stand christmas. He lives high above whoville and has
never mingled well with the townfolk. But one little girl is going to change The Grinch\'s look on life and on ot

Cindy Lou Who (played by adorable new actress Taylor Momsem) meets the Grinch a

The premise of the show was to show you how the body works. I swear, school still hasn\'t

['727,"Fans of the HBO series ""Tales From the Crypt"" are going to love this MOH episode. Those who know the ba
sic archetypal stories that most of the classic EC comics were based on, will recognize this one right off the ba
t.

Underrated indie favorite Martin Donovan (also an excellent writer - co-author of the screenplays f
or APARTMENT ZERO and DEATH BECOMES HER) is the kind of guy whose everyman good looks can go either way. He could
play a really nice if misunderstood guy-next-door, or he can play the same role with a creepy undertone of corros
ive sleaziness. In the case of RIGHT TO DIE, he takes the latter approach, and it definitely works.

Do
novan is a doctor who has recently had an affair with his slutty office receptionist (Robin Sydney), much to the
displeasure of his inconsolable, unforgiving spouse, Abbey (Julia Anderson). When the two of them get involved in
a terrible car accident while returning from an unsuccessful weekend of ""making up,"" and she\'s horribly burned
in a fire, he\'s reluctant to pull the plug on her, not without some enthusiastic nudging from his even sleazier
lawyer and best buddy (Corbin Bernsen, looking the worse for wear these days.)

But Abbey\'s never bee
n one to give up without a fight, and that\'s where the EC-theme of the episode comes in. Cuckolded husbands - an
d wives - have always been the genre\'s favorite subject matter for some spooky (and OOKY) supernatural shenaniga
ns, and this case is definitely no exception. If anything, the ramped-up quotient of sex and gore must have Bill
Gaines cackling with glee in his mausoleum somewhere.

And that\'s not to mention that John Esposito\'s
original script does give the adultery angle just a slight twist. You don\'t realize as you\'re watching that you
only know half the story, until close to the end...(think WHAT LIES BENEATH with more guts and gazongas, and you\
're there.)

Not a bad effort, but not the best of the lot, either. At least Rob Schmidt does display t
ouches of flair here and there with the direction, especially in a scene that makes cell phone picture messaging
into a truly horrifying experience indeed! As with most MOH episodes, this one is following a prevalent theme thi

He plays Tom Sharky, a vice detective who\'s on the trail of an international mobster (Vittorio Gassman) and the man he\'s financing to be the next governor of Georgia (Earl Holliman). In the novel by William Diehl, the story is more complex because the guy\'s running for president. This is a very long movie that feels more like three hours instead of two. The filming in downtown Atlanta and the Peachtree Plaza hotel sets the mood just right for the story. Reynolds doesn\ 't do much laughing in this one compared to his comedy films. He\'s very serious here, especially in the beginnin g of the movie because he gets demoted for a dope bust that goes wrong. At times though, the movie plays more lik e a voyeuristic drama than a crime film with Burt trying to get close to the mobster\'s woman. Only towards the e nd of the film does the violence get cranked up that leads to the bang bang climax. Just like the great jazz scor e in DIRTY HARRY by Lalo Schifrin, Sharky\'s Machine features an excellent urban jazz soundtrack with many guest stars including Chet Baker, Julie London, Flora Purim & Buddy De Franco, The Manhattan Transfer, Doc Severinson, Sarah Vaughan and Joe Williams. The Countess\' husband goes berserk at his wife\'s betrayal and has her walled i nto a little room with her paramour. this was the style at the time. The ballroom scenes were very nice, the dancing and the outfits looked beautiful.
I especially liked Catherine\'s dress in the first ballroom scene.

Northanger Abbey looked suitably im

Schlesinger gives a good but not exceptional performance

Ugh Peter Firth a

General Tiln

I can handle scenes

hen fill in the blanks and set their story in whatever hick town or urban ghetto from which they just arrived. Yo
u know exactly what this movie is about from the opening shot, four young boys playing in grainy slow motion, acc
ompanied by voice over narration. Next stop after the bus station must be to buy stock footage of four young boys
playing in grainy slow motion. Once they\'re grown, it\'s easy to spot the writer/director among the four. He\'s
the quiet, contemplative, long-haired one who is never seen without his composition book tucked in his pants. Thi

or directing talent on display here. And if you still can\'t figure out which one he is, here\'s a hint: The aute
ur and his character have the same middle name. It took over an hour to figure out that these twenty-something me
n were supposed to still be in high school. What looked like a prison was apparently a high school, the warden tu
rned out to be the principal. Once more, the poor, misunderstood rebel can pound everyone in the movie into the p
avement, murder and pillage, but is powerless to stand up to his alcoholic father. How about hitting back, kid, l
ike you do everyone else? Numerous fist fight scenes for no apparent purpose. Howlingly bad dialogue. Many scenes
badly out of focus. Cartoon characters keep popping up as bit players and extras, drawing unintentional laughs fr
om the premiere audience. Overacting in the extreme. And if you don\'t quite get the self-important speeches, or
the slow-motion scenes, just listen to the overbearing music. It will clue you in and what you\'re supposed to fe
el. Poor Marisa Ryan must be racking up lots of frequent flier mileage as she travels around the country working
in these amateur regional films. The biggest sin is that the audience is supposed to feel sympathy for kids who g
un down old ladies, run over puppies chained to a tree, rob and steal, all the while complaining about their sad,
sorry lives. But if only we could get out of this hick town and go to college. Yeah, that\'s the ticket. Why is i

At least the film\'s title practices truth in advertising, sinc

The ""making of"" feature was far more interesting

First of all ""The Messengers"" is very predictable, and just not much of a thr

t of the audience left before the movie\'s resolution.

Furthermore the acting seemed a little superfic
ial. Some of the emotional arguments between the family were less convincing than the sub-par suspense scenes.

['758,"A call-girl witnesses a murder and becomes the killer\'s next target. Director Brian De Palma is really o n a pretentious roll here: his camera swoops around corners in a museum (after lingering a long time over a paint ing of an ape), divvies up into split screen for arty purposes, practically gives away his plot with a sequence (again in split screen) where two characters are both watching a TV program about transsexuals, and stages his (fi rst) finale during a thunderous rainstorm. ""Dressed To Kill"" is exhausting, primarily because it asks us to swa llow so much and gives back nothing substantial. Much of the acting (with the exception of young Keith Gordon) is mediocre and the (second) finale is a rip-off of De Palma\'s own ""Carrie""--not to mention ""Psycho"". Five med students, Nelson (Kiefer Sutherland), David Labraccio (Kevin Bacon), Rachel Mannus (Julia Roberts), Joe Hurley (William Baldwin) & Randy Steckle (Oliver Platt) decide to attempt an e xperiment; dying for exactly 5 minutes (it is the maximum amount of time somebody can do this before being risk o f brain damage).

Almost everyone does this experiment, Randy being the lone exception, but they begin to have unwelcome visitors; David sees a little black girl shouting crude insults to him, Joe sees all the women he has had sex with (and which he videotaped) asking him why from the TV Screen, Rachel relives her father\'s sui cide and Nelson faces a little boy with murderous intentions.

Why are they here? And how will they get rid of them? This tense and interesting movie, set in an hallucinated city and into a Gothic Med School, is quite the experience, both for the story and the characters, played by then-budding stars such as Kiefer Sutherland, Ju lia Roberts, Oliver Platt, Kevin Bacon and William Baldwin.

The director is Joel Schumacher, who had a lready worked with Sutherland in \'Lost Boys\', and this second cooperation is even better than the first.

A must for psychological-thriller-horror buds and metaphor lovers (this story is about forgiveness and right ing of past wrongs), this is one of the minor classics from the \'80s that get respect even today, like the menti on by Rebecca Gayheart in \'Scream 2\' or the Tru Calling episode which used the movie\'s premise.

E ach episode usually reached a climax with Kolchack having to engage in hand to hand combat with some sort of supe rnatural opponent. To their credit, the writers made a concerted effort to get away from the usual round of vampi res and ghosts as much as possible.

I remember one episode in which the adversary was the spirit of an ancient Indian Chief which/who \'came back\' as a massive electrical current which started to kill people in a ci ty hospital. The final showdown saw Kolchack trying to short circuit the \'power beast\' amidst an explosion of s parks and billowing flames. McGavin always packed a lot of energy and enthusiasm into his roles and this was one of his best.

This MTV-ish answer to the classic Candid Camera TV show features a Gen X (or is that Gen Y) type putting in false choppers and wearing various hats and wigs and glasses, and setting peop le up in fairly outlandish although often not very interesting situations. Example: Kennedy has a guy invite his parents to his ""wedding."" Kennedy is the bride, done up in a full bridal gown and long wig. The ""joke"" is tha t the parents immediately understand their son is marrying a man who claims to no longer have his ""bits and piec es."" Problem is, this schtick goes on way too long, obviously to fill out time. And Kennedy is about as funny as a dead cod lying in the sun. Candid Camera would have run three or four scenarios in the time it took Kennedy to get through this one, running around, constantly asking ""Do I look fat?"" I recognize the show was not made for me. It was made for 12-year-old pinheads who think JACKASS is the height of comedy today. So let them laugh. Than k God the show was short-lived."'],

But for all its unpleasantness and punches in the face, Frown land, really is a remarkable piece of work that, after viewing the inarticulate mess of a main character and all his pathetic troubles and mishaps, makes you want to scratch your own eyes out and at the same time, you feel sic kenly sorry for him.

It would have been a lot easier for me to simply walk out of Ronald Bronstein\'s film, but for some insane reason, I felt an unwavering determination to stay the course and experience all the gr ainy irritation the film has to offer. If someone sets you on fire, you typically want to put it out: Stop! Drop! And Roll! But with this film, you want to watch the flame slowly engulf your entire body. You endure the pain--pe rhaps out of spite, or some unknown masochistic curiosity I can\'t even begin to attempt to explain.

['764,"I first saw this film when I was about 8 years old on TV in the UK (where it was called ""Laupta: The Fly ing Island""). I absolutely loved it, and was heartbroken when it was repeated a while later and I missed it. I w as enchanted by the story and characters, but most of all by the haunting and beautiful music. It would have been the original English dubbed version which I saw - sometimes erroneously referred to as the ""Streamline Dub"" (th e dub was actually by Ghibli themselves and only distributed by Streamline) which is sadly unavailable except as part of a ridiculously expensive laser disc box-set.

Unfortunately I feel that the release has been pa rtly spoiled by Disney. The voice acting is OK but the dialogue doesn\'t have the same raw energy that the ""stre amline"" dub or the original Japanese had, and I think James Van Der Beek sounds too old to play the lead. They h ave made some pointless alterations, such as changing the main character\'s name from ""Pazu"" to ""Patzu"", and added some dialogue. But worst of all I feel that they have ruined many scenes with intrusive music - the opening scene of the airships for example was originally silent but has been spoiled thanks to Disney\'s moronic requirem ent that there be music playing whenever anyone is not speaking, which I find annoying in many Disney films.

This film still blows away most recent animated films, and I cannot recommend it highly enough. The plot i s simple yet captivating and the film shows a flair which is sadly missing from most modern mass-market, homogeni zed animation."'],
['765,"This film can\'t make up its mind whether its message is ""humans are evil and bad and animals are sweet

and blameless"" or ""don\'t ever go in the water again."" A fisherman (Nolan) is out to nab a killer whale, a very bad thing, but when he accidentally (ACCIDENTALLY mark you) hits a pregnant cow instead of her mate, the cow -- and I use the word in all senses -- who is obviously a sick psycho-bitch and the canonical villain of the piece -- throws herself against the propellers trying to chew herself to bits in the most distressing and hideous not to mention ineffectual method of killing herself. (I doubt it was her first.) When her unborn fetus aborts from her hideous self-inflicted wounds, her mate goes mental with revenge and swears to hurt, kill and mutilate every human who even so much as talks to Nolan. Obviously as among humans, total psychos date other total psychos.

The film reeks of half-thought out anti-human message, ""the poor poor whale!! the evil men must suffer and die!"" and yet, it does not succeed in demonizing Nolan at all. It\'s true that when he set out his motives were selfish and cruel, but at the first squeal of the first whale he grows a heart and, as the film progresses, he grows more and more compassionate to the whale\'s pain until it seems he will walk out on the ice and give himself to the whale, just to make it feel a little better.

The films final journey, in which Nolan follows the whale on a bizarre journey to the north, reminds me of Melville\'s eerie man-whale connection, and for a moment hinted at a truly interesting conclusion, where these two husbands might connect, understand even respect each other in their own grief, for Nolan lost his wife and unborn child also to an accident. It\'s clear Nolan respects the whale and feels for its loss. However, it never goes there. The whale-character has no compassion or respect for anyone.

The final scene loses this focus and becomes Jaws-like where the sea-monster finally kills everybody and Nolan and no-doubt through an oversight, fails to chomp up the whale-hugger (tho he made a good snap for her head a little earlier.) I love animals, and I detest whaling, and what is more I love orca whales, but if this film\'s goal was to make me feel that the whale was the victim and that people are evil and detestable it completely failed. Nolan shows compassion and growth, and feels for others, and all the whale thinks about is killing and maiming.

The only message one can walk away with is ""If you see an orca whale, ever, anywhere, run the other way cause if you step on his FIN the wrong way, he will hunt you to the ends of the earth destroying everything around you."""'],

But it\'s not rock, they\'re under the North Pole--it is ICE! Everybody, except possibly hitherto mentioned small children (and even some of them) know that ICE FLOATS.

Then, disaster strikes--that darn VAN ALLEN RADIATION BELT around the Earth catches fire! No one knows how this happened, we are told, which is understandable, because it is utterly impossible for radiation to ""catch fire"", and even if it could, there is NO AIR IN SPACE for it to burn.

There is literally no good reason to overlook science concepts basic to 2nd grade school textbooks when making a film; however, Irwin Allen manages to do it again and again; perhaps we are meant to focus on the ""people"" instead, which is pretty easy, as they are CARDBOARD.

The cast tries very hard not to look embarrassed in this ridiculous sub-kiddie romp, much like later episodes of his ""Lost in Space"" TV series, the concept of which was swiped outright from writer Ib Melchior and then rushed into production.

The sub looks pretty good, though, which is why this one gets a ""2""."'],

Being a fan of Masters of Horror since the beginning, this ridiculous plot twist with it\'s sordid depictions crashed apart like a spindly old rocking chair after being sat upon. Shaggy\'s voice is squeaky and does not sound anything like he has ever sounded in any of the previous incarnations of the Scooby shows. They\'ve also changed the outfit and the classic mode of walking from the original.

I\'m not sure what they\'re on about yet with the villain angle, but it surely isn\'t following the formula used in any of the previous Scooby shows.

And the animation style is very bizarre and distorted. I like it, but it\'s not real Scooby-Doo type animation. But the weird animation used for other WB shows grew on me; this might, too.

It\'s worth a glance at -- once -- if you can handle the lack of proper Shaggy voice. That right there is enough to jar one out of enjoying the show properly. With Aksar it appears as though the director made up the story as he went along, adding twists and turns when he liked, no matter how ludicrous they were. The script was non existent with inane dialogs such as ""Jo Sheena Roy pehenti hai, wahee fashion hota hai"" and ""Yeh Versace hai Madam"" (yeah right).

Every one of the characters was shallow and underdeveloped. Acting was awful. Constumes (lycra for Udita and awful suits for a stocky Emran), locales (the numerous houses that were used for interiors did not even vaguely resemble a Victorian mansion), screenplay etc etc, just one word- rubbish.

This is a thin story -- and quite predictable at times -- but he gets very good performances out of his cast and has some rather intricate camera moves that involve the viewer intimately. The first part looks like a Cinderella story, though anyone with brains can see that the bottom will fall out of that -- the rich \'prince\' will lose his fortune.

Nonetheless, because of his good cast and fast pace, it\'s easy to get caught up in the clichÃ©s. Then the movie does become more original, as the married couple have to find a way to make a living. The mad scientist being investigated by a reporter has been done to death but this script is amusing enough that the plot should have worked, additionally the effects and super soldier design with their dead lifeless eyes have some degree of creepiness, however Boll som

Yes, the plot\'s been done (The Most Dangero

The basic problem I had with this movie was the degree o

The final solution was go

o of the most versatile cult actors of their generation, who previously already starred together in terrific genr
e outings like ""The Flesh and the Fiends"" and ""From Beyond the Grave"", pairing up in a mid-70\'s satanic them
ed exploitation flick. How can this possibly go wrong? Well, unfortunately, it can. To my deepest regret ""Land o
f the Minotaur"" can hardly even be called mediocre, and that in spite of the cast, the exotic setting, the appea
ling title and the potentially great sounding premise. In a remote little area in Greece, more particularly near
an archaeological site, multiple tourists vanish because Baron Peter Cushing and his docile followers keep feedin

g them to a fire-breathing Minotaur statue. Cushing, who never looked more bored and uninterested in any role he played before, owns a giant medieval castle and apparently in Greek this means you also own the complementary arc haeological ruins and an underground network of caverns. That is of course quite handy if your hobby is the kidna pping of random campers and amateur archaeologists. When three of his young friends also mysteriously disappear i n the same area, Father Roch - the priest of a couple of towns before) - decides to investigate. ""Land of the Mi notaur"" is a boring and extremely slow-paced horror effort that never really undertakes any major attempts to ge nerate a satanic atmosphere and doesn\'t bother to elaborate on all the potentially fascinating elements and paga n trivia details. The titular Minotaur, for example, is an intriguing creature of Greek mythology with the head o f a bull and the body of a person, but for some inexplicable reason the script never deepens out the significance . Instead, the film focuses on tedious and overly talkative sequences and loud inappropriate music altered with e xperimental noises. The only reason to even consider giving this major disappointment of a film a chance is becau se of Donald Pleasance. His portrayal of rude, bossy and old-fashioned priest who criticizes everything that repr esents modern youth is powerful and reliable as always."'],
['786,"The three shorts included on this compilation issued in 1959 are timeless Chaplin classics, nothing wrong with them and nothing to criticize either. Chaplin\'s score for these films and the framework added as bridging s ections between the shorts are also well done. The problem with this compilation is a minor one, yet annoying. Th e shorts have been stretch-printed to fit the 24 frame p.s. speed of contemporary films whereas the shorts themse lves where shot at 20 frames p.s. This results is jerky motion that doesn\'t look very attractive, and yet this w as an excusable solution given the limitations of optical printing technology at the time, it\'s just not excusab le that the current DVD version is unrestored, the films look dirty as they did in 1959 and are still stretch pri nted. There are separate restored versions of these classics available, even on DVD, and it would not be a proble m to restore the image, but alas this has not been done.

['787,"1979\'s Tourist Trap is a clever, unique B thriller that stands out as one of the best of it\'s kind.

Travellers stop at a lonely wax museum where the owner\'s mannequins are a little too life-like for comfo rt.

While the film has hints of The Texas Chainsaw Massacre, Tourist Trap is mainly a creepy psycholog ical thriller worthy of The Twilight Zone. Director David Schmoeller gives this movie an atmosphere of darkness a nd mystery, that reaches nightmarish proportions. Also, Schmoelloer adds the occasional touch of comic relief to the bizarre happenings.

Venteran actor Chuck Connors is the best of the film\'s decent cast. Pino Dona ggio\'s music score is excellent, having both lyrical and solemn themes that are perfect to the movie. A number o f the film\'s sequences are quite memorable.

I was so pleased to realize early on into Part 2 that here was a fitting follow on to the great Godfather movie, again everything was just about perfect and I could not wait to s ee Godfather III ..... WRONG!, I wish I\'d stopped at II. The storyline was not good, it seemed to me like a s tory made up just to have a story, the characters were weak especially the daughter. Pacino\'s protege was a weak character that would have been eaten alive in Godfather 1 or 2. Then scenes such as, Corleone being invested with all the trappings of the Catholic Church with full choir, the assassin on horseback riding away into the sunset, the unseen helicopter machine gunning of the meeting (where the \'goodies\' get away and everyone else is shot),d aughter and 1st cousin rolling bits of pasta across a board, the pathetic shooting on the steps ..... Corleone st uffing sweets down him with orange juice for diabetes (a man of his intelligence and guile isn\'t ready for an em ergency?)... ['790,"UK newspaper reviews seem to have concentrated on the fact that the reviewers tend to know Toby Young, th e journalist on whose real-life experiences this movie is based. The key word here is ""based"". How To Lose Frie nds is a fictitious romcom.

Sidney Young joins a prestigious gossip magazine in New York, where he pro ceeds to make gaffe after gaffe before finally Getting It Right and Making It. This involves him selling out, and the movie has some serious points to make about journalistic integrity. However, they are not overdone: the main substance remains a comedy which centres around Sidney\'s misadventures. The script has its cake and eats it in t hat Sidney is a stupid, well-meaning buffoon at the same time as being a smart, moderately obnoxious skilled writ er. This contradiction is never that much of an issue, because Simon Pegg (as Sidney) projects likability too wel l.

Jeff Bridges underplays Sidney\'s editor a little too effectively, and Kirsten Dunst is rather anon ymous as the conflicted eventual object of Sidney\'s affections And, with regard to Megan Fox (who plays an airhe ad bimbo starlet), I can say only this: just say the word, Miss Fox, and I will leave my wife, sell all my belong ings, and buy myself a plane ticket in order to take my place at your side as your consort. Of course, given that I\'m a fat 56-year-old English accountant, you might not find my offer too enticing, but it\'s there on the table anyway. Given how short her career has been so far, one might think it is a little too soon for Megan Fox to take on a role which mercilessly lampoons the sort of actress she might be thought to become: however, she does it swe etly, with some skill, and extremely sexily. This girl will go far.

There is stalwart support from a v ariety of seasoned performers - Miriam Margolyes and Bill Paterson from the UK, Gillian Anderson and Danny Huston from the US.

There are several laugh-out-loud moments, and I smiled most of the way through. As ever, the F-word makes appearances when it really doesn\'t need to, although at least a couple of these are very funny. "'],
['791,"Alien Hunter: 5 out of 10: Is it me or does every movie that starts in Roswell, New Mexico suck. Take Ali en mixed with The Thing, mixed with Contact, mixed with of all things On the Beach, The Andromeda Strain, the cla ssroom scene from Raiders of the Lost Ark and a throw in a little Stargate to boot.

Derivative doesn\ 't even begin to describe this movie. Of course with nothing original plot wise they amp up the gore and sex righ t? Nope gore is a blink and you miss it affair and sex is all tease. (James Spader causally mentions he needs a s hower and the delectable Leslie Stefanson asks to join himÂ…. he turns her down. AGGH!)

In fact if a movie ever needed a shower scene to liven things up this is it. I mean if your going to have impossibly good-look ing women in white bathing suits wandering around an Antarctica research base why not go for broke.

Wi th about 30 seconds of actual thrill in the entire movie Alien Hunter is remarkable serious and slow going for a sci-fi adventure. Needed a much better plot twist to liven it up and by the way the Alien itself is a horribly cl ichÃ©d artifice and has virtually no screen time for someone who shares half the title.

I also inquir ed during viewing what is with the Children of the Corn in space motif. (Note that since Jason of Friday the 13th fame, Pinhead from Hellraiser and that Leprechaun have all traveled to space to slay nubile teenagers why not the cornfield?) The characters in the cornfield dress like Logan\'s Run extras and I was just waiting for the stalks to come alive and attack them.

That however would have been exciting and apparently against this movie s covenant. The acting is mostly fine as Spader reprises his Stargate role while Stefanson and Janine Eser model the latest in Antarctic beachwear. John Lynch however read the whole script and acts the like the insane bad guy well before the story would indicate it.

Alien Hunter is a disappointing derivative slog that makes me pine for a proper Children of The Corn in Space movie."'],

['795,"Lorna Green(Janine Reynaud)is a performance artist for wealthy intellectuals at a local club. She falls p rey to her fantasies as the promise of romantic interludes turn into murder as she kills those who believe that s ex is on the horizon. It\'s quite possible that, through a form of hypnotic suggestion, someone(..a possible task master pulling her strings like a puppet)is guiding Lorna into killing those she comes across in secluded places just when it appears that love-making is about to begin. After the murders within her fantasies are committed, Lo rna awakens bewildered, often clueless as to if what she was privy to within her dreams ever took place in realit y.

If someone asked me how to describe this particular work from Franco, I\'d say it\'s elegant & diff icult. By now, you\'ve probably read other user comments befuddled by what this film is about, since a large port ion of it takes place within the surreal atmosphere of a dream. Franco mentioned in an interview that he was heav ily influenced by Godard early in his career, as far as film-making style, and so deciding to abandon a clear nar rative structure in favor of trying to create a whole different type of viewing experience. And, as you read from the reaction of the user comments here..some like this decision, others find the style labouring, dull, and bewil dering. I\'ll be the first to admit that the film is over my head, but even Franco himself, when quizzed by criti cs who watched ""Succubus"", admitted that he didn\'t even understand the film and he directed it! Some might say that ""Succubus"" was merely a precursor to his more admired work, ""Venus in Furs"", considered his masterwork b y Franco-faithful, because it also adopts the surreal, dreamlike structure where the protagonist doesn\'t truly k now whether he/she is experiencing something real or imagined. In a sense, like the protagonist, we are experienc ing the same type of confusion..certainly, ""Succubus"" is unconventional film-making where we aren\'t given the keys to what is exactly going on. And, a great deal of the elusive dialogue doesn\'t help matters. ""Succubus"" i s also populated by beatnik types and ""poet-speak"", Corman\'s film, ""A Bucket of Blood"" poked fun at. My pers onal favorite scene teases at a possible lesbian interlude between Lorna and a woman she meets at a posh party..q uite a bizarre fantasy sequence where mannequins are used rather unusually. Great locations and jazz score..I lik ed this film myself, although I can understand why it does receive a negative reaction. ['798,"Why do I hate this? Let me list the ways:

I have nothing against Mary Pickford but a 32 year o ld woman playing a 12 year old is just stupid.

There\'s a fight scene in which kids are throwing brick s at each other and it\'s considered funny---and it goes on for 15 minutes

Strange how none of the ki ds are even remotely hurt

The title cards contain plenty of racial and ethnic slurs

For a " "family"" film the fights were WAY too violent (loved it when Pickford was punching it out with a little boy!) an d the humor was just stupid

Seriously, 40 minutes in I gave up and turned it off. The slurs, racism a nd little kids throwing bricks at each other got to me. Also there was no plot that I could see. The only thing w orth seeing in this film was William Haines who was a top leading man in the silent era.

['799,"Thank God this wasn\'t based on a true story, because what a story it is. Populated by despicable charact ers whose depravity knows no bounds, Before The Devil is a mesmerizing, jaw-dropping excursion into perversion wh ich would be laughable (and sometimes is, even with - or perhaps because of - the sickeningly tragic undercurrent of human dysfunction throughout) if it weren\'t carried out with such magnificent, overwhelming conviction by its stars. The excellent script by Kelly Masterson and superb direction by none other than Sidney Lumet doesn\'t hurt either.

The main dysfunction here is of a family nature, with the two majorly screwed up brothers (bri lliant portrayals from Philip Seymour Hoffman and Ethan Hawke) deciding to rob their own parents\' jewelry store, an attempt that goes pathetically awry.

The story is told with time-shifts (which are noted on screen, such as: ""Charlie: Two Days Before The Robbery"", so no one should be confused); some people have said they didn \'t like this device but I thought it worked perfectly, adding to the skeweredness of the whole affair, consideri ng that the two brothers in question are hardly playing with full decks - between them you couldn\'t make a decen t poker hand to save your life. Throw in these cheesy extra tidbits: one of the brothers is a drug addict, marrie d to Gina (Marisa Tomei, also excellent), who is having an affair with the other brother, toss in some monumental sibling rivalry, along with the fact that said drug addict brother hates his father (a wrenching performance from Albert Finney), who has apparently caused him serious past pain, and you\'ve got a Shakespearean/Greek tragedy on your hands. tears rolling down his face. In the end, we follow them up the stairway to their final moment.

The tw

the rest. I hope that this show will last long!

Returning back after months, I still love this show, a

i refuse to watch because the companies took 2 genius ideas and butchered them by making more than one season. Th

and i feel that his acting is absolutely stunning in every episode, after i heard that HBO wanted Ray Liotta to p

Turns out this weird metal kid had dug up some old bodies and used their bones in some weird sacrifice to satan. So maybe stuff like deterred me from metal for awhile, but I love it now, as a 24 year old.

I bought this DVD used for 6 bucks and I expected it to suck due to the lame cover, but to my surprise, it ruled. It is all about the extreme demonic power of metal. And you gotta love a scene where a guitar shoots lazers and vaporizes headbangers in the crowd. This movie is awesome, if you love 80s metal and bad movies, this one\'s for you. 9/10!"'],
['808,"While not quite as good as A Murder is Announced, which was not only delightful but almost surpassed the book, this is an excellent adaptation. And you know what, it is a huge improvement on the Geraldine McEwan version. Now I don\'t take pride in bad mouthing the Geraldine McEwan adaptations, two or three of them were surprisingly good, but others started off well but ruined by either a poor script, a confusing final solution or both. The Geraldine McEwan version suffered from a plodding pace, and both of the above problems, and I would consider second worst of the ITV adaptations, worst being Sittaford Mystery, which even on its own merits turned out dull and confusing. This adaptation of the book Nemesis is a huge improvement, it not only respects the book, despite a few liberties, but it pretty much rectifies the problems the ITV version had. Despite the added character of Lionel coming across as rather irritating, more to do with how he was written than how he was acted, and one or two moments of sluggish pacing, this is solid as an adaptation of a decent book. It is beautifully filmed, with nice photography and period detail, and the music as always is excellent. The performances are wonderful this time around, and make the most of an in general well-done script, with Joan Hickson brilliant as always as Miss Marple, and solid turns from Liz Fraser, Helen Cherry, Joanna Hole and Anna Cropper. Margaret Tyzack is outstanding though in a chilling and moving performance as Clothilde. Overall, well worth watching, better than the recent version in pretty much all departments. 9/10 Bethany Cox"'],

['810,"I had heard (and read) so many good things about Weeds that I was looking forward to getting hooked on another great cable Series (like Entourage, Sopranos or Mad Men) but that slowly eroded away with each episode I watched from Season One. (didn\'t make it past the first six episodes)

The writing was unoriginal, contrived and the portrayal of Blacks embarrassing. The dialog felt forced, like the writers are trying way too hard to be clever and hip . It was a rare moment when I actually emitted an audible laugh.

The characters never developed enough for me to care about them, they were selfish and unappealing. I absolutely HATED the addition of the Brother-in-law (who should have been hauled away on To Catch A Predator) and the removal of the Hodes\' daughter Quinn from the cast by sending her to boarding school in Mexico was so unoriginal and clichÃ©, I had to conclude the writers were testing the viewer\'s loyalty.

Episode after episode I liked the characters less and couldn\'t get past many of the technical flaws in the story line.

Add to that I heard that Season Two wasn\'t as good, so I lost all motivation to continue to watch this play out.

If you\'re a fan of good casting and writing, I suspect this show will be a challenge for you to like, unless of course you\'re stoned and then all bets are off."'],
['811,"This movie is among my favorite foreign films, some of the others are Amilee and My Life As a Dog. The similarities with those movies as with so many great foreign films, is that it takes a mundane slice of life and transforms it into a profound heartfelt lesson.

In Japan, a man who is bored with his mundane life and the rut of his married life, sees a beautiful Japanese woman staring out the window of a dance studio. In the instant that it takes his train to pass, he is enthralled by her. But is it only by her beauty, by her faraway glance, or a connection that they will both discover that they share?

Shall We Dance has memorable wonderful characters who have to deal with painful realities by transcending them through the world of dance. Breaking traditional moulds and stereo types of Japanese society, they risk all for happiness and find that joy is not too far away. It is one of those movies that is so magical and meaningful and, in itself, transcends the mundane by showing the true magic and miracle that life can be."'],

In the summer of 1968 I saw the film in NYC; that fall in graduate school, I read the book for the first time. Some of the pleasure in reading the novel was my memory of the scrupulously detailed film. ['813,"This film is a lyrical and romantic memoir told through the eyes an eleven year old boy living in a rural Cuban town the year of the Castro revolution. It is an obviously genuine worthy labor of love.

The names CUBA LIBRE and CUBAN BLOOD are merely attempts to wrongly market this as an action film. DREAMING OF JULIA makes much more sense. It has more in common with European cinema than with RAMBO and the revolution is merely an inconvenience to people\'s daily lives and pursuits. That fact alone makes the film more honest than most works dealing with this time period in Cuban history.

The excessive use of the voice-over narrator does undermine the story but the film makes up for it with unqualified clips from Hollywood films that say so much more visually than the narrator could.

The comparisons to CINEMA PARADISO and are fair game as the film does wax melancholy about movies, but there is an underlying pain at the loss of a lifestyle that surpasses lost love.

The revolution, like the film JULIE, never seems to have an ending."'],
['814,"I saw ZP when it was first released and found it a major disappointment. Its script seemed forced and arch and too fakey \'60s. It\'s politics too upfront and ridiculous. And let\'s face it, I was still under a love-spell known as BLOWUP : and I still haven\'t completely shaken it. Now the ""love"" is twisted up with all sorts of nostalgia it evokes and, oh well . . . Good Luck to me!

But time marches on and time has been kind to ZP and time has been a teacher to me. I revisit this film about every ten years and it just gets better and better with age. And ZP is it\'s own ""experience""and is only really linked to BLOWUP through its creator, the late,g

reat Mr. Antonioni.

Twelve years ago, I had the great good fortune to see an absolutely pristine print
, projected at its correct size (immense), restored by an Italian government cultural agency who knows a good wor
k of art when they see it and knows the importance of keeping such a thing of beauty in good shape. To this day I
remember the gasp from the audience when the first shot of Death Valley appeared. It was like a thousand volt vis
ual shock Antonioni had intentionally delivered to wake us up to a new level of awareness. And indeed what follow
s from that point is an entirely different sort of ""place"".

What is astonishing to me is how this fi
lm is coming into its own.

I remember the second time around seeing it --- the early 80s --- I had beg
un to feel affection towards the film as a whole and towards Daria and Mark in particular. Whereas, before these
two seemed like a smart-alecky shadow version of Zefferelli\'s Olivia and Leonard (read: Romeo and Juliet)they no
w were engaging me --- particularly The Girl in her insistent slo-motion-ality. She-took-her-time . . . To Live.
Everything, EVERYTHING dies around her.

Upon exciting the theater the daylight of Reality quickly bega
n to erase my new found ""enjoyment"". The encroaching shoulder-padded, big haired 80s whispered ""But that\'s a
hippie fantasy --- let it go""

The force of Antonioni\'s vision had, I had realised, already worked it
self inside of me the FIRST time around so I answered ""80s"" with an ""Uh-Huh"" and guarded my ""love"" secretly
, possessively and jealously.

But, this, then is what good art does it lives inside of you, and, if yo
u wish it has its way and ""loves"" you back: secretly, jealously, and possessively. And you get ""changed"".

Was thrilled to see that Turner Classic Movies had decided to show ZP in its March lineup. Undoubtedly, Z
P must be seen on a gigantic screen so that it can truly take you into its constructed environment. But, hey, som
etimes even a glimpse of the Beloved in a newspaper photo is no better than no glimpse at all.

Today r
eality hit, ZP has been withdrawn mysteriously and replaced with the whiney antics of ALICE\'S RESTAURANT.
<
br />So, it is still too ""difficult"", too ""disturbing"", too ""what""?

Maybe it\'s that, as with al
l good art, it Lives while everything dies around it.

ust returned from a tour in the Pacific as a hard-core Marine \'Raider\'. Gere\'s character is already jaded and
contemplating desertion, and he takes advantage of Vincent\'s innocence, stealing his \'baby blue\' uniform after
getting him drunk and beating him in an alleyway. Vincent\'s character, whose name is Marion, takes Gere\'s outfi

Staying with Hudkins parents, Marion attracts all sorts of attention from the towns folks. Mr Hudkins suspects Ma

!! He made a lot of quality movies during his career, and continued to do so up into the mid 80\'s with the great
TV show Airwolf. He does a very good job in this as \'Hedge\', quietly observing the way people treat him (in his

Vatanen (Antti Litja) -

The bad guy tried to be smooth and Malkovi

['824,"Mexican Werewolf in Texas is set in the small border town of Furlough where Anna (Erika Fay) lives, her b
est friend is Rosie (Martine Hughes) & she has a Mexican boyfriend named Miguel (Gabriel Gutierrez) who are deter
mined to track a beast down that has been terrorising the town, killing livestock & several residents including s
ome of their friends. Local Mexican legends speak of the Chupacabra, an evil creature from myth & legend. Erm, I\
'm struggling now because not that much else actually happens...

Written & directed by Scott Maginnis
I won\'t beat about the bush here & simply say that Mexican Werewolf in Texas is awful, period. The script only e
ver mentions the word Werewolf once & the rest of the time it\'s referred to a Chupacabra, in fact I suspect this
wasn\'t really conceived as a Werewolf flick at all. The \'Werewolf\' creature looks mostly hairless & more like
some vicious dog, there is no reference to anybody changing during the full moon & it actually attacks during the
day on a couple of occasions, there is no transformation scene & at the end when it is killed it doesn\'t change
back into anyone either. To be honest apart from the title there\'s nothing here to indicate a Werewolf film at a
ll & even then the title is just a rip-off of the highly popular An American Werewolf in London (1981). This is t
he type of home made crap that I personally think is killing the horror genre, how long has it been since there w
as a true low budget horror classic like Dawn of the Dead (1978), The Evil Dead (1981), Halloween (1978) or Frida
y the 13th (1980) which were all made on shoe string budgets, maybe The Blair Witch Project (1999) but that\'s it
in recent years & crap like Mexican Werewolf in Texas has absolutely no chance of ever being considered a classic
. The character\'s are awful & things just happen around them, the dialogue is rubbish, the pacing is terrible, t
he story sucks & virtually sent me to sleep & as a whole this film is just crap, I\'m sorry but I don\'t know how
else to describe it.

Director Maginnis does nothing to make this watchable, there\'s the annoying hand
held camera type cinematography which could easily give someone a headache & quick \'blink & you\'ll miss somethi
ng\' editing which just annoys & irritates in equal measure. It\'s not scary, there\'s no nudity, there\'s no ten
sion or atmosphere & the special effects are awful. The monster really does look poor & it\'s no wonder Maginnis
keeps it in the shadows or cuts his scenes so quickly you never get a good look at it. There\'s virtually no colo
ur to the picture either, it\'s either almost pitch black or over saturated desert sand oranges which makes the t
hing an eye sore as well. The gore consists of some fake guts (blink & you\'ll miss them!), a few bloody wounds &
a severed arm, big deal.

With a supposed budget of about $300,000 I admit the budget was low but I sim
ply refuse to accept that for making such a rubbish film, there are plenty of low budget horror flicks that make
their meagre budgets go far. The whole thing has the look of a home movie, it has no style & is throughly bland &
dull to look at. The acting sucks too although you probably already knew that.

Mexican Werewolf in Tex
as will probably con a few people into renting/buying/watching it because they might mistakenly think it\'s a seq

['825,"I found this to be a surprisingly light-handed touch at a 1950\'s culture-clash movie. John Wayne would h
ardly be one\'s first choice as a cultural attache, being about as diplomatic with his good intentions as a bull-
run in Harrods. But this time he was left to play a part that was far more passive than his usual bluff persona,
and he accomplished his task with style. The Duke was a guy who really could act well. His facial expressions and
body language could be extremely subtle.

Despite his considerable presence both as an actor and in ter
ms of screen time, he failed to dominate this movie. Many of his good intentions came a cropper. He had authority
over nobody, and the intermittent narrative was provided by the titular geisha to whom he was the barbarian.<br /
>
The story of American attempts to curry favour with an isolationist Japan was one of political intrigue ra
ther than swashbuckling or hell-for-leather battles. I cannot comment on the accuracy of its research but the str
angeness of the Oriental culture to western sensibilities was demonstrated well. There was a great deal of minute
ly-choreographed ceremony entailing what looked to this observer like authentic costume and props. The set pieces
were complex and detailed. A lot of money and thought had been applied to it.

The fractured romance be
tween Wayne and his geisha added a little extra element, and stopped the movie becoming just a political or flag-
waving effort. Script was good without being too wordy. There was a great deal of Japanese dialogue, but the leng
thy periods of translation didn\'t interfere with the narrative. It was nice to see plenty of genuine orientals o
n the set. Whether or not they were Japanese, I couldn\'t say. But anyway they looked the part. At least the lead
s were not played by cross-dressing Caucasians, unlike other efforts such as \'Blood Alley\' (yes, I know they we
re Chinese) \'The Inn Of The Sixth Happiness\' or even \'The King And I\'.

Frankly, I enjoyed this mor
e than any of those other movies. The script was better for a start. I never liked the songs in \'The King And I\

seen this work before and found it compared very favourably to many of The Duke\'s more popular outings.

The plot is pretty simple, the dir

itch it off about 30 minutes from the end. And i can count the films I have switched off before the end on one ha
nd.

The script and direction are leaden and deeply uninspiring. I wouldn\'t be surprised if they found

the script in a pile of cast off scripts from 1983. For example the irritating scroat threatening the real estate guy from his house phone. I mean seriously. The police would be beating his door down in minutes. The scenes and events just wash by you like turds in a river. It is difficult to understand the actual thrust of the film. The n arrative flicks between characters in a seemingly random manner breaking up the pathetic attempts at building the characters. Oh and what ""characters"" they are. The protagonist played by Rourke is dreadful. He could have just sent a cardboard cut out of himself and stayed in bed. After 60 or so minutes of the film I had built absolutely zero attachment to this character. He is neither sympathetic nor hateful. Just a disfigured dummy from a shop win dow blundering through every single scene. His motivation is impossible to discern from his generally mumbled and emotionless delivery. Is he happy? Is he sad? Angry? No idea. Just those same dead eyes staring out at you from a disfigured chunk of flesh. And the native American theme is just awful and pointless.

The good guys ar e at best unlikeable. A dull white collar stereotype and a simpering neurotic ex-wife stereotype. Cue archetypal wife with shotgun face off with bad guy, ""you aren\'t going to shoot me"" that is both tiresomely unoriginal and annoying.

The richie nix character seems interesting at first but soon descends into an irritating one sided psycho character. Which seems at odds with the seeming intention of making the bad guys in some way sympath etic or at least realistically motivated.

Roasario Dawsons character starts with some promise but soon descends into a sickening and childlike parody of the gangsters chick scenes from Jackie Brown. You really want m e to believe her character was SO attracted to Rourke\'s? Or worse she is just a floozy who sleeps with anything that moves? Realistic female characters FTW!

In summary a complete mess of a film. Hopeless character isations and performances. A leaden and hackneyed script along with uninspired direction. And ultimately extremel y dull. Its not even comedy bad either. Laughing at Rourkes haggard face gets pretty old after sitting through th e first 15 turgid minutes of the film."'],

They did not say anything about more than 96 TV interruptions transmitted by ChÃ¡vez during only 3 days in ""CADENA NACIONAL"" (a kind of confiscation o private TV signals). Each one with about 20 minutes of duration.

['830,"One could wish that an idea as good as the ""invisible man"" would work better and be more carefully hand led in the age of fantastic special effects, but this is not the case. The story, the characters and, finally the entire last 20 minutes of the film are about as fresh as a mad-scientist flick from the early 50\'s. There are so me great moments, mostly due to the amazing special effects and to the very idea of an invisible man stalking the streets. But alas, soon we\'re back in the cramped confinement of the underground lab, which means that the rest of the film is not only predictable, but schematic.

There has been a great many remakes of old films o r TV shows over the past 10 years, and some of them have their charms. But it\'s becoming clearer and clearer for each film that the idea of putting ol\' classics under the noses of eager madmen like Verhoeven (who does have hi s moments) is a very bad one. It is obvious that the money is the key issue here: the time and energy put into th e script is nowhere near enough, and as a result, ""Hollow Man"" is seriously undermined with clichÃ©s, sappy cha racters, predictability and lack of any depth whatsoever.

However, the one thing that actually impress ed me, beside the special effects, was the swearing. When making this kind of film, modern producers are very kee n on allowing kids to see them. Therefore, the language (and, sometimes, the violence and sex) is very toned down . When the whole world blows up, the good guys go ""Oh darn!"" and ""Oh my God"". ""Hollow Man"" gratefully disca rds that kind of hypocrisy and the characters are at liberty to say what comes most natural to them. I\'m not say ing that the most natural response to something gone wrong is to swear - but it makes it more believable if SOMEO NE actually swears. I think we can thank Verhoeven for that."'],

The Porzikova interrogation and rape scene is memorable, as is Mickey Rourke \'s cameo appearance-""take a peak"".

Great Hollywood popcorn B-production with strong performances of A-level aspirants and renegades(Rourke).

This is a fantastic film about a quite gifted boy/man with a special body part helping him. Oscar and BAFTA winning, and Golden Globe nominated Daniel Day-Lewis plays Christy Browna cripp led man with cerebral palsy who spends most of his life on the floor, in a wheelchair and carried by his family. It was nominated the Os cars for Best Director for Jim Sheridan, Best Writing, Screenplay Based on Material from Another Medium and Best Picture, it was nominated the BAFTAs for Best Film, Best Make Up Artist and Best Adapted Screenplay. I know not finishing it is a bad review on myself, but it is the responsibility of the writer and crew to develope a story that will keep a viewer interested, and they failed. This is just a pure propaganda series, very dark, without any charm, or romanticism, it is just boredom i tself. I find the actors work quite weak as well. O\'Donnell might seem charming as Robin (with Batman), but in t his picture he lacks any charm. Probably while he becomes older, he is loosing his childish charm but does not ga in any charm of a grown up. In terms of ch

but its strange visual wanderings and chopping editing ruined what might have been a great crime drama. Many scen

if the director meant Judas Kiss to be a legitimate crime drama or a campy spoof. Why else would he toss in a top

Rickman and Emma Thompson) to use such awful New Orlean\'s accents? As an Alan Freak, I confess that I still thou

['858,"Cinema\'s greatest period started in post-War Europe with Italy\'s Neo-Realist movement. During the next 2 or 3 decades that followed, France\'s New Wavers caught everyone\'s attention, and there was always Bergman up there on his desolate Scandinavian island somewhere, making bitter masterpieces. But in 1971, Luchino Visconti brought the art-form to full circle, geographically speaking, with his miraculous work *Death in Venice*, which might as well be called *The Death of Europoean Cinema*. After the Sixties wound down, so did the great European filmmakers, who, with some exceptions, generally grew exhausted and passed the torch to a new American generation of Movie Brats (Coppola, Scorsese, & Co.). This movie absolutely feels like a grand summing-up, not just of Visconti\'s particular obsessions, but of the general attempt of European filmmakers to achieve the aesthetic ideal in movies. And rest assured, you will find no sterner task-master than the Visconti revealed here. He\'s not playing to the crowd, folks: either you get behind him and follow along, or you get left behind. The pacing is a challenge: slow, but never without emotional weight. ""Incidents"" are few and far between, but each seems loaded with symbolic significance in a sturm-und-drang cosmos.

We will probably never be in such rarefied company again, in terms of the movies: one of the century\'s great writers who inspired the tale (Thomas Mann), one of the greatest filmmakers directing it (Visconti), one of the greatest actors in the lead role (Dirk Bogarde), and swelling almost ceaselessly in the background, Gustav Mahler\'s 5th Symphony. Taking full advantage of Mahler\'s ability to inspire Romanticism in even the most cynical breast, Visconti changes the main character, Aschenbach, into a decrepit composer from his original persona as a writer, even making Bogarde up to LOOK like Mahler (geeky mustache, specs, shaggy hair, duck-like walk). Bogarde, by the way, delivers what is probably greatest performance of an actor in the history of movies: it\'s a largely silent performance, and the actor has to deliver reams of meaning in a gesture or a glance -- a difficult trick without mugging like Chaplin or merely acting like an animated corpse.

Cinema just doesn\'t get better than this. I\'ll ignore the complaints from the Ritalin-addicts out there who say that it\'s too slow, but even the more legitimate gripe concerning some of Aschenbach\'s flashbacks with that antagonistic friend of his is misplaced. The flashbacks fit neatly within the movie\'s thematic concerns (i.e., which is the better path to aesthetic perfection: passion or discipline?), and the suddenness and shrillness of these interruptions serve to prevent sleepiness among the viewers. (Of course, some viewers will sleep through this movie, anyway.) A nonstop stream of Mahler and beautiful, dying Venice would be nothing more than a pretty picture; but this movie is actually about something. And what it\'s mostly about is suffering: Romantic (capital R) suffering, in particular. As a suffering Romantic himself, Visconti knew whereof he spoke.

[SPOILER . . . I guess] If for nothing else, see *Death in Venice* for its portentous opening credits . . . and for its unforgettable ending, with Bogarde\'s jet-black hair-dye dripping off of his sweaty, dying head and onto his chalk-white face. Meanwhile, off in the distance, young Tadzio, the object of Bogarde\'s dying desire, stands in the ocean and points toward the horizon like a Michelangelo sculpture. The climatic sequence sums up with agonizing economy everything that the movie is about: love, lust, beauty, loss, the ending of a life set against the beginning of another life, and cold death in the midst of warm, sunny beauty. *Death in Venice* is a miraculous work of art.

[DVD tip: as with the simultaneously released Visconti masterpiece *The Damned*, I recommend that you turn the English subtitles ON while watching this movie. It\'s ostensibly in English, but the DVD\'s sound seems muddy and there\'s a lot of Italian spoken during the film, anyway.]

['859,"This is a stereotype plot. A young fighter tries to enter a competition when he is not ready and is not selected to represent his fighting school. This leads to separation from the fighting school and naturally he finds a strange new master to teach him to fight.

The fights are not of high standards. They are way too ""simple"" in a way that 1+1 is simple to every adult. The fighter has trained and enters the ring, but does not do what he trained and gets an ass kicking. The coach yells do this and do that with no success. And after some more of this ridiculous beating he suddenly does what he is told and hits his opponent once. This results in a turning point in the fight, although our hero has been taking a beating of his life up until that point. Think about the Rocky movies and you\'ll have a good point of reference of how much beating he really takes. The fights are also shot poorly.

There final thing that screws this film up is the stupid romance. Cheesy music and awkward moments are not what I call entertainment.

These guys really could have made some quality entertainment, but the director wasn\'t up to the task. Or the other crew in my opinion. Maybe they had a small budget, I don\'t know, but what matters in the end is that this movie is bad and deserves the rating of 3 out of 10."'],

The jokes are few and far between, the actors are attractive (they shouldn\'t be), the film makers think far too much about the cinematography (it\'s supposed to look like a home video) and it\'s just like a serious version of Kath and Kim... it\'s stupid.

It\'s too normal to be Kath and Kim. Kath and Kim are supposed to be two curvy, middle-aged women who think they are hot and wear ridiculous clothes. There are no ""Look at me Kimmy!"" jokes. The fat friend of Kim is not fat at all and she\'s not even slightly stupid. She\'s a stereotypical black/Latino chick.

It\'s just not as stupid or funny as the Australian series. It doesn\'t compare. Nothing is the same. I admit, this show is pretty funny at times, but it is NOT anything like the Aussie series. I was looking forward to an American take on a bogan family. They failed. It\'s supposed to be REALLY stupid and hilarious, but the actors don\'t act stupid! this was not to be the case.

Apparently Warner Brothers executives were disappointed with how dark thi
s second Batman film from Tim Burton turned out. Apart from the idiocy of expecting anything else from Burton, an
d the conservative cowardice of their subsequent decision to turn the franchise into an homage to the Sixties TV
series, I fail to understand how ""Batman Returns"" can be considered at all disappointing.

True, it i
s not quite the equal of the first film - though it repairs all the minor deficiencies of style found in ""Batman
,"" a weaker script that splits the antagonism between not just two but three characters invites unflattering com
parisons to the masterful pairing of Keaton and Jack Nicholson as the Joker in the first film. Yet for all this i
t remains a gorgeously dark film, true to the way the Batman was always meant to be, and highly satisfying.

Michael Keaton returns as the Batman and his alter ego Bruce Wayne, tangling with nouveau riche tycoon Max
Schreck (Christopher Walken, named in honour of the 1920s German silent actor), his partner-in-crime Oswald Cobbl
epot, the Penguin (Danny DeVito in brilliant makeup reminiscent of Laurence Olivier\'s ""Richard III""), and Seli
na Kyle, the Catwoman (Michelle Pfeiffer), whom Wayne romances both as himself and as the Batman. The four princi
pals turn in excellent performances, especially Walken and DeVito, while together Keaton and Pfeiffer explore the
darker side of double identities.

There are some intriguing concepts in this film. About the only weak
ness I can really point out is a certain limpness to the script in some places, which I think is due mostly to th
e way this film is a four-cornered fight. There simply isn\'t enough time to properly explore what\'s going on.<b

Nevertheless, this is a damn good film. I highly recommend watching this in conjunction with the first,

['868,"The Quick and the Undead is, finally, the first movie to actually render its own storyline null and void.
It is, essentially, one gigantic plot hole.

Aside from that, the acting was quite bad, character motiv
ations nonexistent or unbelievable and there wasn\'t a single character worth hanging our hat on. The most intere
sting cast member (who had great potential to be a dark horse protagonist) got snuffed halfway through the procee
dings.

What the Quick and the Undead DOES serve as is an excellent example of how to do good color-tim
ing. It looked excellent, when you take into account budget considerations.

Unfortunately, it plays ou
t like a guy got his hands on a hundred grand and watched a few westerns (most notably The Good, The Bad and The
Ugly) and then just threw a bunch of elements haphazardly into a movie... ""you know, they have movies where char
acters do THIS! Does it fit here? No, but who cares! They do it in other movies so I should do it here!""

Maybe a good view for burgeoning cinematographers and colorists (first-year film-schoolers). Otherwise, a mu

For many, it may be the worst of Antonioni- very slow, wit
hout an engaging conventional story line, microscopic examinations of human emotions and interactions- and the wo
rst of Wenders- verbose, confused transcendentalism. It is composed of short distinct episodes linked by Wenders\
' typical meandering hero\'s stream of consciousness, so it doesn\'t produce the temporary oblivion of escapist c
inema.

But for fans, the worst is the best and the disjointed story line is sketching a single poetic
image that stretches across the film. Wenders and Antonioni create a discourse between their segments that seeks
out the heart of things.

time he returns (still no senior cops, SOCOs or other assistance for the lovely Jolie - this is New York isn\'t i

an Amtrak to stop it disturbing the scene.

I want to know the name of that camera as the photographs w

the first was Rope, which I really enjoyed. With Saboteur Hitchcock was more room to roam free, whereas Rope took
place all in one room. I didn\'t enjoy this one as much as Rope but that\'s not saying this is a bad film, it jus
t seems like an average flick that could have been something more.

It seems like a film Hitchcock woul
d make as a break in between his more serious ones. As a thriller, I feel it fails to really get my on the edge o
f my seat or engaged with the lead character who is running around the States. The climax of the film feels like
a miss opportunity to really amp up the tension. The sound design is almost non existent. You can hear their dial
ogue and a bit of the environment around them, but the important things are missing, the stitches ripping apart f
rom the sleeve, the need of music to amp of the tension, all missing. Intentional no doubt, yet it lacks the emot
ional punch one would want from such a scene. Then it ends abruptly leaving you empty inside.

The film
doesn\'t feel like it should either, they are almost globe trotting from place to place, yet it feels more confin
ed. The script itself is very average and seems to go about the more obtuse ways to get the plot moving.

The performances are there, but nothing amazing. Everyone plays their parts to scripted words on the page. The
relationship between the two leads is weak and needed more work. The one stand out is Otto Kruger, who has that r

I found the BBC production dealing with this difficulty in the best way possible. The qualities of the book haven
\'t been lost: the dense and lively depiction of a fingersmith patchwork family in London in the 1860s, the cold
and obscene cruelty in which Maud is brought up, the characterization of different social groups by different way
s of speaking, the unexpected and surprising twists of the story, the way the film makes the spectators look diff

erent at the same scenes when they are told first from Sue\'s point of view then from Maud\'s one. The main actor
s do very good, and especially the growing love between the two women is convincingly developed, with a first cul
mination in a very tender love scene between the two and finally forgiving all the evil they were ready to do and
did to each other, because they still love each other.

For each of her books the author, Sarah Waters,
has thoroughly investigated what life was like in British 19th century. While in Tipping the Velvet it was the wo
rld of the vaudeville theaters and the beginning of social movements, in Affinity the dreadful reality of women p
enitentiaries and the fashionable evocation of spirits, in Fingersmith she depicts the public ceremony of hanging
people in London and the inhuman treatment of persons supposed or declared disturbed in asylums based on the read
ing of sources and scientific research. This is very well transferred to the film so that the corresponding scene
s show a high grade of historic truth. I highly recommend this film production because it offers three hours of c

What I hate is the people who bring the Bible and Religio

Religion does not make everything fact, one of the things I should mention in th

that is going on. Just because your investigation equipment does not pick it up, does not mean the camera filming
the show did not. I am glad they are skeptical, but it\'s like they do not understand that just because you did n

Despite its connection to the cannibal movie family, this film is more of an e

and graphic display ever brought to motion pictures. This inferior instalment employs all the motifs and gimmicks
of the others, but with much less success.

Was it the so called ""Amazonian natives"" who looked like
they were Bollywood rejects (this film was made on location in Sri Lanka), or the inept ""decapitation"" and ""ca

decide. Without spoiling the conclusion, it appeared as though Lenzi put more emphasis in his shock and awe climax than in the basic requirement for a cohesive ending, where all loose ends are resolved. Most unsatisfying.

As with the others, where the extent of the graphic depictions of violence toward humans is limited (thankfully), the filmmakers have spared no extreme in inflicting the worst possible cruelty on hapless animals in their pursuit of the most sadistic shocks. Unfortunately, the only thing shocking about this film is that it rates a mention among others of the ilk, that deal with the subject matter more convincingly.

The writing is pathetically lame. There is not one funny, clever, or witty line. There is not one good sight gag.

His whit and humor just cannot be transcribed by a screenplay or even the best acting performance. I believe that this movie exceeds in asking the key questions that Vonnegut poses in his book, but those frequent cynical moments of satire found on the page are not found on the screen. Does this mean that the movie misses the mark? Of course not. In my opinion, the movie succeeds because it does not try to recreate the experience of reading the book (this is not a medium for those too lazy to turn a page). It succeeds because it takes the fundamental elements of a story created by one of America\'s true artistic treasures and presents it in a a framework without pretense. I\'ve seen other movie versions of Vonnegut books where the director obviously tries to channel Vonnegut\'s genius and loses grip on his own craft. I would not place this movie as one of the best I\'ve seen, but it stands on its own legs as one well worth watching. By taking Vonnegut\'s ""voice"" out of the movie\'s narration or trying to insert it however it can, Mother Night tells his story brilliantly, and preserves the story\'s fundamental lessons without confusion, distraction, or disappointment."'],

The two ""heroes"" with their fantasy language are just annoying and it confused me quite a lot, that they touched each others genitals all the time. But the worst of all that nonsense is the cheap attempt to give that movie some appeal, by referring to German history and to show sensitive aspects of the ""heroes"", which finds its climax in showing how Erkan and Stefan cure a mentally ill woman with their ""joyful"" lifestyle (!). But I hadn\'t expect anything better by director Michael ""Bully"" Herbig, who also made two not funny TV-shows, a not funny western movie and a nearly not funny SF-comedy movie. I think that the difference didn\'t matter for a suspense drama like Vertigo, but it does matter for a romantic comedy. We can easily understand, that is, why his character would be attracted to hers, but it\'s less clear why hers would be attracted to his.

Still, the movie works as a light romantic fantasy. The scene where she stares at him across the cat\'s head, with her dark painted-on eyebrows flaring and the sounds of her humming and the cat purring, is true magic. It\'s a little jarring, therefore, when the scene shifts to the top of the Flatiron Building, and we see the age difference very sharply. The kids grow up,one all be it, in the hard way, to realize that no matter how old they or a parent is, the parent still loves their children and are willing to provide them a cushion when they fall. ALL the actors portraying their characters did outstanding performances. Yes, I shed a tear along the way knowing I had had similar experiences both as a young adult and later as a parent. This is a great exponent of screwy mid-80s comedy. I seriously doubt such big names in this cast did the movie because they were broke or even wanted to remake the first. Anybody who ever wanted to give a kick to the snobbish aristocracy should love this little opus. I maintain, the only reason this is in the IMDB bottom 100 is because of its title. I usually hate movies like these (i.e. adam sandler, will farrell, farrelly bros....), but this movie just keeps me laughing hysterically. But the rat, yes, the big rat. Why we didn\'t get to see the r

The most sublime part of the whole movie is the elevator scene. After

['907,"Following directly from where the story left off in part one, the second half which sets about telling th
e inevitable downfall and much more grim side of the man\'s legacy is exactly as such. In direct contrast to the
first feature, part two represents a shift from Che the pride and glory of a revolutionised country, to CheÂ–stru
ggling liberator of a country to which he has no previous ties. The change of setting isn\'t just aesthetic; from
the autumn and spring greys of the woodlands comes a change of tone and heart to the feature, replacing the optim
ism of the predecessor with a cynical, battered and bruised reality aligned to an all new struggle. Yet, as Che w
ould go on to say himselfÂ–such a struggle is best told exactly as thatÂ–a struggle. While Part One certainly hel
ped document that initial surge to power that the revolutionary guerrilla acquired through just that, Part Two ta
kes a much more refined, callous and bleak segment of Che\'s life and ambition, and gives it an assertive portray
al that is both poignant and tragic in a tangible, easy to grasp manner.

While the movie\'s tone in so
me regards does stray off and differ quite drastically from Part One however, there still remains that same docum
ented approach taken a month ago that avoids melodrama and fabrication as much as possible. This somewhat distant
, cold approach to telling Che\'s story and struggle will no doubt turn some viewers off; indeed, I still remain
reserved about whether or not the feature itself should have been named after one manÂ–if anything, the entirety
of Che, taken as a whole, delivers a tale that goes beyond mere biography and instead documents a man\'s struggle
alongside those who helped carry him along the way. By no means does Soderbergh try to paint a humanistic portrai
t here akin to what Hirschbiegel did with Der Untergang half a decade ago (excuse the ironic contrast); Che is a
slow moving, reserved and meditative approach to telling a history lesson that just happens to be narrated by the
one man who Â–arguably- conducted the whole thing.

Yet by moving from the lush green landscapes of Cub
a and retreating to the bleak, decaying backdrop of Bolivia for Part Two, the story does inevitably take on a dis

tinctly contrasting tone that doesn\'t feel too disjointed from its predecessor, but does enough to give it its o
wn reference points. Here, the basic structure of Part One is echoed backÂ—there\'s the initial struggle, the bat
tles, the fallen comrades and the recruiting of those to replace them, all the while we see some glimpses of the
man behind the movement. Yet, as anyone with the vaguest idea of the actual history behind the feature will know,
Part Two is destined to end on a much more underwhelming, and disquieting note. This difference, in combination w
ith the similarities to Part One, make a compelling and memorable whole; by all means, both could be digested one
their own (and kudos to Soderbergh for achieving as such) and enjoyed as they are, but taken as one statement, Ch
e delivers exactly what it sets out to achieve.

Indeed, everything that made Part One the treat that i
t was one month prior is still evident here from the subtle yet engrossing performances from the central cast to
the slow building, realistically structured combat scenesÂ—the drama inherent to the characters on screen is just
as vague and indiscernible, but with a feature such as this, Part Two once again proves that avoiding such elemen
ts don\'t necessarily hurt a film when there is enough plot and reflection on other elements to keep the viewer e
ngaged. In fact, upon writing this review I was at odds as to whether or not to simply add a paragraph or two to
my initial review for Part One, and title the review as a whole, yet I felt that to do so would only serve to dis
illusion those who may sit down to watch the entirety of both films consecutively.

With that said, I c
annot rightfully decree whether or not Che holds up to the task of engaging an audience for its sprawling four ho
ur plus runtime, but upon viewing both segments I can at least attest to each part\'s ability to do just that. Wi
th a reflective, intricate screenplay combined with endlessly mesmerising photography and nuanced performances th
at do justice to the movie\'s characters without drawing attention to themselves, Che Part Two is every bit as co
mpelling and rewarding as its predecessor, but this time with a tragic but uplifting, reaffirming conclusion fit
for the history pages of film.

d, raw and improvised way Cassavetes it was shot, put me off somewhat and I thought of it as an original - absolu

, even today.

Shot on a minimal budget of $40,000 with a skeleton six person crew, SHADOWS offers an o
bservation of the tensions and lives of three siblings in an African-American family in which two of the three si
blings, Ben (Ben Carruthers) and Lelia (Lelia Goldoni), are light-skinned and able to pass for white. Cassavetes
demanded that the actors retain their real names to reflect the actual conflicts within the group but saw the fil
m as being concerned with human problems as opposed imply to racial ones. Cassavetes shot the film in ten minute
takes and jagged editing, a reaction against \'seamless\' Hollywood production values. Cassavetes main inspiratio
n - at least in the cinematic style the film was shot - were the Italian neo-realists whilst also professing admi
ration for Welles\' pioneering spirit. The use of amateurs and improvisation might resemble some of the Italian n
eo-realist directors, but with his bebop score by Charles Mingus ans Shafi Hadi, the film feels very different, v
ery American, unlike anything made before really.

The song with the feathered girls, ""I feel like a

ook, it still makes a delightful time capsule of late Fifties New York today. I think it\'s this is one of the fi
rst films made aspiring filmmakers realize they could shoot an independent film, without Hollywood, improvised an
d without a real budget. Seymour Cassel, who acted and was involved in SHADOWS, claims it was Jules Dassin\'s THE

ad acting and amateurish directing bog down a fairly interesting little story, but the film already surpasses man
y in the ""Yankee comes down South to get killed by a bunch of rednecks"" genre because it is actually shot in th
e South.

A group of college girls head to Ft. Lauderdale for summer vacation and are waylaid in Georgi

Sue Ellen (Lisa Stahl) has to pee so she heads into the woods. When she finally finds a good spot to do her busin

: do not wander off into the woods when in the South; not because you might witness a murder, but you may run acr
oss a marijuana plantation.) This is the point where the story, not the movie, actually comes close to being good
.

While Tony March will never have to practice his Oscar speech, his Sheriff Dean becomes a creepy fac
simile of a normal guy torn by what he has done and what he must do. Tom Law is likable as Deputy Scott and is as
authentic a Southern deputy as I\'ve seen since Walton Goggins (Deputy Steve Naish) in HOUSE OF 1000 CORPSES.

A few scenes in the movie are worth the mention. The girls stop at a BBQ in South Carolina and display th

eir racism when a big black guy checks them out. Sue Ellen runs into a barn to hide behind some hay bales and in a shockingly realistic moment a large snake is hiding in the hay with her.

And in the strangest scene, Sheriff Dean makes like he\'s about to rape Patty (Carol Cadby) and tells her to take off her clothes. Dean has turned the radio up to drown out the noise of what he\'s about to do. The preacher on the radio needs to go back and read his Bible. His sermon is about how Jezebel is saved by the blood of Jesus Christ. I feel sorry for this preacher\'s flock. There are some nice Brasilian sunsets and the characters are believable, but the story of how they interrelate, even if very unusual by our standards, is not interesting enough to sustain a movie this long. The central woman takes up with one man after another in a close knit way and putting the interests of her children first. You know that when the critical moments precede the commercials, which of course, one can\'t find in this version we watched.

The film\'s star is Lara Flynn Boyle who sports a new look that threw this viewer a curve because of the cosmetic transformation this actress has gone through. From the new eyebrows to other parts of her body, Ms. Boyle is hardly recognizable as Col Kennedy, the character at the center of the mystery. This was not one of the actress better moments in front of the camera. That goes for the rest of the mainly Canadian actors that deserved better.

The film has a feeling of a cross between ""Desperate Houswives"" with ""The Stepford Wives"" and other better known features, combined with a mild dose of creepiness. The best thing about the movie was the house which serves as the setting."'],
['915,"Meticulously constructed and perfectly played, To The Ends Of The Earth is a simply astonishing voyage out of our reality and into another age.

Based on William Golding\'s trilogy, these three 90-minute films chronicle the journey towards both Australia and experience of youthful aristocrat Edmund Talbot (Benedict Cumberbatch) aboard an aging man o\' war in the early 19th century as he heads for a Government position Down Under.

Among the crew and hopeful emigrants sharing his passage are a tempestuous, bullying captain (Jared Harris), a politically radical philosopher (Sam Neill), a canny 1st lieutenant who\'s worked his way up from the bottom (Jamie Sives) and, fleetingly, the first brush of love in the form of a beautiful young woman (Joanne Page) whose ship literally passes in the night.

Quite aside from the astonishing degree of physical historic accuracy, director David Attwood and screenwriters Tony Basgallop and Leigh Jackson have a canny eye and ear for the manners and stiff etiquette of an earlier time, crafting a totally convincing microcosm of the Napoleonic era.

Shipboard life is one brutal, monotonous round of seasickness, squalor and danger after another and as Edmund becomes entangled in the loves, hopes and miseries of his fellow passengers he experiences a delirious whirl of life\'s hardships, Man\'s inhumanities and his noblest sentiments.

Rightfully so (it was the runner-up, or second place if you will). Why? Because it is a movie about oppression. It\'s not even that this is a complete women issue. ['918,"I know little or nothing about astronomy, but nevertheless; I was, at first, a little sceptical about the plot of this movie. It follows three children that were all born during a solar eclipse and so have no emotion, and thus (naturally) become ruthless serial killers. The plot does sound ridiculous at first, but once you realise that a solar eclipse blocks out Saturn and, as you know, Saturn is the emotion planet, it all falls into place; makes complete sense and it\'s then that you know you aren\'t simply watching another silly 80\'s slasher with a pea brain plot. Thank god for that! Seriously, though, Bloody Birthday is based on a ridiculous premise, but it more than makes up for that with it\'s originality. Having a bunch of kids going round slaughtering people may not be the most ingenious masterstroke ever seen in cinema, but when given the choice between this and another dull Friday the 13th clone - I know what I\'d choose.

Also helping the film out of the hole that some people would think it\'s silly plot dug it into is the fact that it\'s extremely entertaining. Many slashers become formulaic far too quickly and the audience ends up watching simply to see some gore. This film, however, keeps itself going with some great creepy performances from the kids (which harks back to creepy kid classics such as Village of the Damned), a constant stream of sick humour and a small, but impressive for the type of film, dose of suspense and tension. One thing that I liked a lot about this movie was the vast array of weaponry. There\'s nothing worse than a slasher where the killer uses the same weapon over and over again (cough Halloween cough), but that\'s not the case here as Bloody Birthday finds room for everything from skipping ropes to bow and arrows. There wasn\'t any room for a chainsaw, which is a huge shame, but I suppose not every film can have a chainsaw in it."'],
['919,"After many, many years I saw again this beautiful love story, thinking about how would I, half a century after, react to a film which made so many girls cry and sigh at that time, when I was just an male adolescent trying to understand women\'s behaviors, in a small city in Brazil.

This time, however, what caught my attention in the film was something very different, namely the insistence with which the physician Dr. Han Suyin (Jennifer Jones) makes clear to the journalist Mark Elliott (William Holden) her special ethically condition as an Eurasian. In fact, she is constantly putting emphasis on this point in their relationship, repeating she is willing to assume her love for him and carry it on in a ""occidental way"", provided that, by doing so, she is not betraying her Chinese side. Its seems to the spectator that Suyin is eagerly making efforts to establish a very subtle conciliation between those two unstable and opposite aspects of her culture, for they will immediately engage in overt conflict in her mind at a minimum failure in her attempts to control them.

Therefore, Suyin\'s attitudes always leave poor Elliott Â– a determined, brave and extremely practical man Â– anxious and perplexed, without knowing how much importance to give to her words. For him, whose love for her is plain and simple, the situation is totally clear: if we love each other, let us make a couple and begin immediately a life together. ""Not so fast"", is what she seems, verbally and non-verbally, to answer him all the time.

In fact, Suyin\'s Chinese portion would never allow her such a level of pragmatism. And, as she goes on and on reinforcing this much aimed equilibrium between those two worlds inside herself, she also frequently signals to him that also a very peculiar trait of Chinese culture is deeply rooted in her mind, namely the constant ""raids"" on the real world by invisible beings from an spiritual or non-physical world. For Suyin is always alerting Elliott about how dangerous is life, not because of any objective and concrete threat (as would be the perpetuation of the English c

olonialism or the eminence of a Japanese invasion), but due to the threats of plenty of cruel and harmful gods an
d other mystical and mythical beings over the poor, fearful and vulnerable human beings.

In fact, it l
ooks like a whole bunch of Chinese deities are permanently on the watch to make people\'s life totally miserable.
Because of that, mothers must dress their precious male babies in girls clothes, so that they are not taken away
by jealous gods; everyone should always be ready to make loud noises to send the clouds away, in order to avoid t
heir covering the sight of the moon; peasants are advised that they should shout loudly ""The rice is bad! The ri
ce is bad!"" to protect their crops from being stolen by deities; and, in a funeral, it is recommended that the d
ead\'s family be isolated from the other people by curtains, so that the gods don\'t take advantage of their sorr
ow and fragility.

In other words, Suyin introduces us to a culture in which the supernatural has a rea
l existence, as if a rather disturbing pantheon of malign and sadistic gods are always on the verge of negatively
interfering with the most banal acts in anyone\'s daily life.

As the story takes place in Hong Kong in
1949, it should be clear that China really was, at that time, almost a semi-feudal society, while the country fro
m which Elliott had come from was not yet dominated by the fierce capitalism that, launched by the USA after the
first oil shock in 1973, took charge of the whole world. Therefore, at least in one aspect, both sides of Suyin\'
s Eurasian personality were still much more innocent than they would be today.

A lot of History came i
nto being since those old days. As to China, the main fact is that, after several phases of a communist regime, t
he country finally reached, in the last two decades, the condition of a very aggressive economy much more properl
y described as State capitalism. And, what happened to that old spirituality that so much enthralled Suyin in Hon

The movie i

One important factor of Christy\'s success is his mother\'s support which seem

['931,"The film\'s design seems to be the alpha and omega of some of the major issues in this country (U.S.). We see relationships all over at the university setting for the film. Befittingly, the obvious of student v.s. teach er is present. But what the film adds to its value is its other relationships: male v.s. female, white v.s. black , and the individual v.s. society. But most important of all and in direct relation to all of the other relations hips is the individual v.s. himself.

I was amazed at how bilateral a point of view the director gave to showing the race relations on campus. Most films typically show the injustices of one side while showing the s uffering of the other. This film showed the injustices and suffering of both sides. It did not attempt to show ho w either was right, although I would say the skin heads were shown a much crueler and vindictive (quite obvious t owards the end). The film also discusses sex and rape. It is ironically this injustice that in some ways brings t he two races together, for a time. Lawrence Fishburne does an over-the-top performance as the sagacious Profesor Phipps. He crumbles the idea of race favortism and instead shows the parallelism of the lazy and down-trodden wit h the industrious and positive. Other stars that make this film are Omar Epps, Ice Cube, and Jennifer Connelly. M ichael Rapaport gives an excellent portrayal of a confused youth with misplaced anger who is looking for acceptan ce. Tyra Banks make her film debut and proves supermodels can act.

Higher Learning gets its name in sh owing college as more than going to class and getting a piece of paper. In fact, I would say the film is almost a satire in showing students interactions with each other, rather than some dry book, as the real education at a un iversity. It is a life-learning process, not a textual one. I think you\'ll find ""Higher Learning"" is apropos t o the important issues at many universities and even life in general. 8/10"'],

Richard Burton climbs Taylor\'s mountain uninvited; she dresses him in a samurai\'s robe complete with saber. ['934,"The screenplay is the worst part of this film, as it lurches from one premise to the next, missing all th e important bits that would have made a number of different stories possible. (This film is confusing, because th e audience doesn\'t know what the story is.) I had no problem with the low-production values and the acting wasn\ 't great, but this is telly, so it was fine. I don\'t mind if some scenes looked like they were done in one take. But having such a non-sensical screenplay is completely unnecessary. Did any executive actually read it before fo rking out the cash? Avoid this at all costs.

The prologue in particular was so poorly written, it need ed a voice-over to fill in all the details that had been left out. The prologue was rushed, it wasn\'t clear what was happening, ie. The Russian Revolution was reduced to ""Some riots are happening in Petersburg"", with the nex t scene being soldiers arresting them. I know the basic history of the Revolution, so I could fill in the details , ""those pesky Communists"". The prologue is best ignored.

This could have been a thoughtful study of a person who is confused about who she is. It sets up this premise in the asylum. It could then have her struggli ng to identify herself for the rest of the film. No. Gone. The film assumes she is who she says she is (even thou gh there is still no empirical evidence.) It sets up a melodramatic romance, a love so strong, it\'ll believe any thing she says. Okay, a soppy romance. No, because it makes no sense. The love interest seems like a crazed (and incidentally, sleazy) lunatic, bursting out in wild gestures. This also doesn\'t work, because the film stupidly decides to tell the truth in the monologue at the end. They never got married and she returned to America. The lo ve story collapses. Despite there being plenty of love scenes, I was never convinced of the reason that they were in love. I find rom-com romances more convincing, despite there only being one or two scenes which establish that they\'ve even spent any time with each other.

It could have been a thriller-type thing where the film assumes she is who she says she is, and she struggles to prove her identity. No, the court case is summed up rath er than dealt with. The bizarre voice over comes back, again to fill in the details of a better film.

 The funniest thing to consider is what really happened. Anna Anderson was a loony who went to America and married another loony and they did crazy things together. Throughout her life, she had bouts of lunatic behaviour. None o

f this in the film either. There\'s a really annoying character in the asylum who crops up from nowhere and annou nces herself as a \'One Flew Over the Cuckoo\'s Next/\'Twelve Monkeys\'-type informant. Thankfully, she vanishes, having brought nothing to the story."'],

['936,"Wow, what\'s this on the video rental store\'s shelf in front of me? Nothing other than a questionable "" sequel"" to 8MM. It wasn\'t a very good sequel to a movie that had a very definitive end and an abundance of emot ional depth far greater than this movie.

Basically, from the plot outline verbatim, an American diplom at, David Huxley, and his fiancÃ©e, Tish Harrington, venture into the sordid underworld of sex and pornography in Budapest, Hungary to find out who is blackmailing them with a porno video taken of them with a prostitute, Risa. The entire story is based around the various characters who make up these various sex clubs and strip joints thro ughout the city. The mystery is solved when, in the end, Tish finds out that the ransom money for the video and (essentially later on in the story) her fiancÃ©e which came out of her trust fund money is basically going back to her future husband as the story unfolds til the bitter end.

I didn\'t like how this had nothing to do with the original 8MM at all. The only thing close to the original is the type of thriller that it was, the fact that David ends up with some kind of bondage contraption over him to keep him prisoner looks like the kinky world of the first film, and the fact that the entire movie has sex emblazoned throughout almost every key scene. Other wise, its a totally different movie. It made for a lousy love story, even before the end is known, which makes th e ending more of a possibility because I didn\'t believe the words coming out of David\'s mouth the whole time. B ut we were warned that he was a liar about most things that might get him in trouble.

There were ridic ulous nude scenes in most of the ""shocking"" moments of the film, which were trying to stir emotions in the audi ence to cheer for Tish to figure out the plot so she can leave this ""hellish"" sex debauchery. I counted at leas t 11 ridiculously filmed sequences when there was nothing but sex to be shown. Even the menu screen on the DVD is nothing but film with naked women on it to make the DVD seem totally provocative.

David was no heroic person throughout the film. You could guess he was the main problem long before the end. The actors who played ea ch role were all new to me, which might explain how they got so many of them to strip down to gain acting ""respe ct."" There were plot holes (How did David and Richard finally impress Tish\'s father by getting the lease they w anted when David was so wrapped up in this damn investigation to try and find a prostitute?) There were cheesy te chnology moments (like the talking email program dressed up like a bondage queen), and a gay brother character wh ich did nothing but show how the director was trying to get a Joaquin Phoenix knockoff to play this character. Th e tag line featured on this profile for this video is complete BS, too, because it wasn\'t even about a last brea th. Nobody really dies. But they did have a good car crash sequence that came out of nowhere...but that was a goo d 10 seconds long out of an hour and 3/4 long movie.

Go rent (and maybe buy) the original. It\'s one o f Joel Schumacher\'s better and more original films. It has everything better about it from this film. I wouldn\' t recommend seeing this unless you want to compare apples to oranges."'],

And, what was Stanley Kubrick thinking drafting Shel ly as the Wendy? She was so bad. She looked the same every time she got scared. The problem with this movie was t he ending. I would have had more respect for it if Kubrick would have ended it differently. And, the over all mov ie was just stupid. The problem with the movie is that the book was so much better. ['938,"This episode had potential. The basic premise of a woman living next door to an empty apartment (but a ph one that constantly rings) is somewhat interesting. And when she explores the noise, there is genuine tension and fear. But stupid script writing ruins any promise the episode had.

First of all, the woman readily adm its to seeing things that would send most of us running in the other direction (e.g. ""It\'s funny that the door slammed shut even though there is no wind;"" ""This door has serious damage to it that wasn\'t here a minute ago; "" ""The door opened by itself, without me touching it;"" etc.). Given these supernatural phenomena, plus the fac t that a woman committed suicide in the room, wouldn\'t she take some precaution before entering it? Maybe she co uld investigate in the day time. Or maybe she could investigate the apartment with somebody else. Or maybe she co uld TURN ON THE LIGHTS!!! Also, while in the haunted apartment, she decides to make numerous phone calls to the o perator and gets into an argument over who has the power to disconnect the phone, and then they begin discussing the details of the suicide. JUST UNPLUG THE PHONE! The phone company doesn\'t need to be involved. Walk up to the phone and unplug it. Case closed.

Finally, showing the phone scamper across the floor like it\'s alive was just comical. If the director wanted the woman to get strangled by the phone card, he could\'ve done it in a way that didn\'t look cartoony. Brave Little Toaster anyone?"'],
['939,"The quality of this movie is simply unmatched by any baseball title of its time. Pam Dixon branches out i n the film industry to recruit blue-chip prospects and make this work of art a must-see. Howev er, the dramatic performances are neutralized by quirky radio broadcaster Jay O. Sanders (JFK, The Day After Tomo rrow).

The story is centralized around a foster child, up-and-coming actor Joseph Gordon-Levitt (Brick , The Lookout). Sidekick Milton Davis Jr. delivers a tear-jerking performance as the longtime friend who never kn ew his parents. The two don\'t have much, but what they do have: Angels\' baseball, and what they are seeking: id entity.  ['943,"A film for mature, educated audiences...

I saw ""Random Hearts"" in an advance screening short
ly before its North American release. This romantic drama was quite a treat. I\'m sure this story will not be eve
ryone\'s cup of tea, especially considering the film\'s darkly downbeat premise. But the pic has some very uplift
ing strong points in its favor.

All-time Box Office Draw Harrison Ford (""Star Wars,"" ""Raiders of th
e Lost Ark,"" ""The Fugitive,"" ""Air Force One,"" ""Patriot Games"") is at the top of his game as the harried an
d desperate Internal Affairs officer, Dutch. Ford\'s very subdued, nuanced performance shows quite the range he c
an achieve with class and determination in bringing the audience into his world of loss & betrayal. This is the p
erfect complex role and very different type of film for Harrison Ford to grace the screen with between his action
blockbusters. Next year Harrison Ford returns to action, first for director Robert Zemeckis (""Forrest Gump,"" ""
Back To The Future"") in his summer 2000 thriller, ""What Lies Beneath,"" and reportedly later in the year in the
film adaptation of Tom Clancy\'s ""The Sum Of All Fears."" \'Fears\' will be Harrison Ford\'s third outing as CIA
operative Jack Ryan.

Director Sydney Pollack (""Out of Africa,"" ""The Firm,"" ""Tootsie"") has a supp
orting role in this feature as a political advisor to Scott-Thomas\' congresswoman. It\'s a very sharp & energeti
c portrayal for Pollack. Not only is Sydney Pollack a gifted director, he is also one of the most believable, nat
ural and charming actors around (see ""Eyes Wide Shut"" as well).

Kristin Scott-Thomas (""The English
Patient,"" ""The Horse Whisperer"") shows that you don\'t necessarily have to be eccentric or worldly to be consi
dered sexy. This is one of her better films, and she gives a tremendously crafted and mellowed performance that w
orks well opposite Ford\'s quiet-man toughness.

The subplots work wonderfully, especially the subplot
involving Ford\'s character\'s investigation into police corruption. Look for a chilling & effective turn by ""He
at"" actor, Dennis Haysbert, who plays Detective George Beaufort, the obstacle to overcome in Dutch\'s investigat
ion into police corruption.

The rest of the supporting cast is a wonderful delight. Charles S. Dutton
(whose long overdue for a film leading role) goes to show that he is one of the best character-actors around, and
Bonnie Hunt, who I find extremely solid in this production, steals most of her scenes with that wonderful, charmi
ng smile as Wendy Judd.

The technical side of Pollack\'s thriller is top notched. From Dave Grusin\'s
(Pollack\'s ""The Firm"") perfectly surreal-feeling jazzy score, to Philippe Rousselot (""A River Runs Through It
"") crisp photography, to the sharp editing that keeps the film feeling fresh, despite the film\'s unfortunate do
wner premise.

I highly recommend this film to anyone who enjoys a good yarn of mystery, well-paced plo
t, character-driven stories, and romance all rolled into one. This is a terrific story about betrayal & forgivene
ss. It also features one of the most surprising, yet poignant, and certain to be controversial endings for a Harr
ison Ford film in recent times. ""Random Hearts"" is definitely one of the better films of the year.

days at Comedy Central. Back in those days (the 90\'s) their programming consisted of Benny Hill reruns and the o
riginal MST3k, complete with bearded host.

Capt. Frank Drebin (played by the stone-faced, dead-pan fil
ibuster, Leslie Nielson) is a process created first from the amalgamation of various stereotypical police televis
ion show protagonists (think Dragnet meets Starsky & Hutch the Show), boiled in a flask full of well-known police
television show plots and scenarios. This is distilled, 3 times to produce the most pure policeman every made. Fo
rget about Simon Pegg in Hot Fuzz (for now. save it for later). Frank Drebin is clueless at most times, a terribl
e driver, a terrible shot, macho yet sensitive and vulnerable. He is a master of the police investigative methodo
logy (a.k.a - ask Johnny the Leathery Old Shoe-Shine Boy). This does not make him a bad cop. Cops get lucky also.
Capt Drebin (notice he\'s a Captain here) has perfected it. Along with his partner, Nordberg, and the rest of for
ce, perfectly parody the police drama over the course of 6 golden episodes.

The show is a treasure tro
ve of hilarious dialog and quotable quote-ables. Most of the sight gags are a bit dated and silly. The magic neve
r came from the sight gags,however. At its core was a nonsensical and straight-faced conversation and activities
in the foreground, with crazy things occurring in the background. The movies can best be described as 90 minute c
ompilations of the best gags from this series. Think of Monty Python\'s And Now For Something Completely Differen

Waco: The Rules of Engagement dissects the evidence behind the s
tandoff in Waco, Texas that led to the destruction of the Branch Davidian homestead and the alleged government co
ver-up.

The first thing you need to know about this film: you will see brief but disturbing photos of
the victims bodies. This is not done for shock value, but to illustrate points about the way they died, as if you
were present at the coroner\'s inquest.

The second thing you should know about this film: at two and a
quarter hours, it\'s pretty ponderous - especially if you already followed the events closely at the time. If you
are unaware of any of the events other than what was reported in the mass media, or if the only side of the story
you are familiar with is the official government report, this may be essential viewing. If, on the other hand you
want a more concise (albeit unapologetically one sided) version of events, you should see ""Waco: The Big Lie"".<
br />
In summary, this is pretty much the definitive documentary about this tragic event, and is very soberi
ng, but as a work of film-making, could test your patience, especially if you have a short attention span. And it
\'s at times superfluous for those who watched the CSPAN hearings and the 60 Minutes reports.

Perhaps
someday someone will make a documentary that covers some of the stranger aspects of this story, such as the bizar

Anyway, Still Crazy is probably the best movie about rock n\'roll I hav

['967,"Life Begins - and ends - in a typical 1930\'s maternity / recovery ward, where we view 48 hours in the li
ves of several high risk pregnant women, played by Loretta Young, Glenda Farrell, Clara Blandick (Aunty Em???), V
ivienne Osborne, Dorothy Tree, and Gloria Shea, as they await to give birth. While the film features plot devices
which seem far fetched today when maternity wards are much more controlled and restricted, it does offer us a loo
k back in time to see what giving birth in a typical city hospital in 1932 was like for our grandmothers and grea
t-grandmothers. I found the film fascinating and exceptionally moving.

Oddly enough, the most outstand
ing performance in this film comes from a male cast member, young Eric Linden as Jed Sutton, Grace\'s (Loretta Yo
ung) husband. What an actor! As a first time father, Jed is distraught and uneasy with hospital staff who seem to
brush off his concerns about his wife as they might brush crumbs off a cafeteria table. I felt his every concern
keenly. I\'d like to see more of this actor\'s work. He had a very emotional voice, which was used to unforgettab
le effect in Gone With The Wind. In that film Eric played the young soldier whose leg was amputated without anest
hesia, who screamed ""Don\'t cut! Don\'t cut!"" as Scarlett fled the hospital in horror. Chilling! Another great
performance is from Aline MacMahon, who plays Miss Bowers, the nurse. Her character is a salt of the earth type,
the kind of nurse we all hope to get for our hospital stays, who breaks the hospital rules constantly in order to
show a more humane side of the medical profession.

Loretta Young did another superb acting job here as
well, a very authentic and deeply felt performance as Grace. My, she is great in these precodes, I\'ve really gro
wn to appreciate her more as an actress the last few months.

Glenda Farrell played her role of a shril

ot water bottle might be hazardous to unborn babies\' health?) but her character redeems herself in the end.<br /

['970,"*Criticism does mention spoilers*

I rarely make user comments, but this is one movie I have no
problem slandering. This movie stinks, and its mediocre of rating of 6 and a half stars is probably too high for
such pulp. The Bone Collector is not at all the same calibre of film that Silence of the Lambs or Seven were, des
pite what its ad claims. This is a perfect example of how not to make a thriller. The pace of this movie was extr
emely slow- I actually left for about 10 minutes half-way through and came back at the exact scene with the exact
same character with absolutely no progression (I refer to you the part where Angelina Jolie\'s character debates
Denzel about cutting off a corpse\' hands). The movie is not at all scary, but tries to compensate this with a lo
ve-subplot albeit sexy Angelina Jolie\'s character and Denzel Washington\'s. Of course, what you get is something
comparable to that of the mentor-student relationship as seen in the brillian epic Silence of the Lambs with Hann
ibal Lecter and Starling, however, even this lacks all effectiveness and I was personally routing for the villain
to kill Denzel off so as to avoid hackneyed giggles between the two. With such a crappy movie, I was half-expecti
ng a plot-twist or some sort of spectacular situation to occur at the end to give the movie some credit- things t
hat mediocre movies like Arlington Road and Scream pulled off. Anybody with a 4th grade education can see the end
ing how will be resolved (a situation which mimicks Alfred Hitchcock\'s Rear Window). The cliche of having the k
iller explain his motives was uninspired enough, but the reason was so ridiculous and stupid it had me spewing la
tte over the screen. Esoterically speaking, I even think the murderer\'s intention was completely lost as Denzel
happily recovers from his loss over the proverbial \'chess game\' and gets with his pet project, Angelina.

If you are a fan of movies with original ideas and genuinely dynamic concepts (like I am), you will not appr
eciate this film. If you have not attended a single movie in your life and would like to catch-up on every single
Hollywood cliche ever borne (the late-night knock on the window from somebody else but the murderer, the ridiculo

['971,"Possible Spoilers, Perhaps. I must say that ""Cinderella II: Dreams Come True"" is one of the worst movie

"") Let me go ahead and say that I am an avid supporter of good Disney films, and I absolutely adore the original
Disney ""Cinderella."" The sequel to ""Cinderella,"" however, was a waste of time. The character of Cinderella in
the sequel was so very unlike the original girl that I grew up watching. In the original, Cinderella was kind and
loving. The new Cinderella had very out-of-character moments with current-era phrasing like, ""I\'m going to do t
his banquet my way!"" Let me also tell you that new Cinderella (as I have affectionately named her) says, ""Ewww!
"" That is the anti-Cinderella. I try to find the best in people, but in the sequel, Anastasia, one of the stepsi
sters, is good! What the heck? Why? They made it all out to be like Lady Tremaine and Drizella are just horrible
family members for poor little Anastasia. My question to the world: did the people at Disney watch the original "
"Cinderella"" when making this sequel? Well, it surely doesn\'t seem so. If I remember correctly, Anastasia was j
ust as abusive to Cinderella as Drizella and Lady Tremaine. I am all for redemption and forgiveness, but there wa
s no point of redemption for Anastasia in this movie. In the first one, Anastasia was evil. In the second one, sh

Not so with ""Viva la Bam"". We f
ollow our hero around as he plays pranks on his friends and tortures his relatives, but never does it feel like a
nything else than really lame and scripted comedy. The stunts and pranks are mildly entertaining, but presented i
n such a tedious and dull fashion that they can barely make you smile.

""Viva la Bam"" is a poor spin-

ive show to anyone."'],
['976,"I had never heard of Larry Fessenden before but judging by this effort into writing and directing, he sho
uld keep his day job as a journeyman actor. Like many others on here, I don\'t know how to categorize this film,
it wasn\'t scary or spooky so can\'t be called a horror, the plot was so wafer thin it can\'t be a drama, there w
as no suspense so it can\'t be a thriller, its just a bad film that you should only see if you were a fan of the
Blair witch project. People who liked this film used words, like ""ambiguity"" and complex and subtle but they we
re reading into something that wasn\'t there. Like the Blair witch, people got scared because people assumed they
should be scared and bought into some guff that it was terrifying. This movie actually started off well with the
family ""meeting"" the locals after hitting a deer. It looked like being a modern day deliverance but then for th
e next 45 minutes, (well over half the film), nothing happened, the family potted about their holiday home which
was all very nice and dandy but not the slightest bit entertaining. It was obvious the locals would be involved i
n some way at some stage but Essendon clearly has no idea how to build suspense in a movie. Finally, when somethi
ng does happen, its not even clear how the father was shot, how he dies, (the nurse said his liver was only graze
d), and all the time this wendigo spirit apparently tracks down the apparent shooter in a very clumsy way with 3r
d grade special effects. The film is called Wendigo but no attempt is made to explain it in any clear way, the fi
lm ends all muddled and leaves you very unsatisfied, i would have bailed out with 15 minutes to go but I wanted t
o see if this movie could redeem itself. It didn\'t."'],

tel specials actually do something scary and do not resort to a tired formula.

This is a B movie about
the making of a B movie...that went horribly wrong. Faith Domergue (This Island Earth) stars as an over-the-hill,
B movie queen making a movie about a series of grisly murders that befell a family in their home. Her boyfriend/d
irector, who looks and acts like Gordon Jump with an attitude, is filming on location and on a tight schedule. Th
e Ken doll co-star discovers a book of Tibetian chants that they work into the script to add ""realism"". Unfortu
nately, ""realism"" is something they could have done without.

John Carradine, having long since given
up looking for the 17th gland (The Unearthly), now eeks out a humble existence as the caretaker for the estate. H
e goes about his daily work, but always seems to run afoul of the director.

The horror builds slowly;
a dead cat here, John Carradine entering a grave there, finally culminating in seven, yes seven murders. (At leas
t there\'s truth in advertising.) It\'s just sad that the ghoul didn\'t understand that there was a movie being m
ade above him. How was poor Faith to know that those darn Tibetian chants would actually work? Face it, you just

ee about the Octopus scene near the end where it attached itself to the Seaview. Obviously not well staged...or t

['979,"This is one of the finest films to come out of Hong Kong\'s \'New Wave\' that began with Tsui Hark\'s ""Z
U: Warriors of Magic Mountain"". Tsui set a tone for the New Wave\'s approach to the martial arts film that prett
y much all the directors of the New Wave (Jackie Chan, Sammo Hung, Wong Jing, Ching Siu Tung, etc.) accepted from
then on as a given; namely, the approach to such films thenceforth would need more than a touch of irony, if not
outright comedy. ""Burning Paradise"" put a stop to all that, and with a vengeance.

It\'s not that the
re isn\'t humor here; but it is a purely human humor, as with the aged Buddhist priest at the beginning who someh
ow manages a quick feel of the nubile young prostitute while hiding in a bundle of straw. But this is just as hum
ans are, not even Buddhist priests can be saints all the time.

When irony is at last introduced into t
he film, it is the nastiest possible, emanating from the \'abbot\' of Red Lotus Temple, who is a study in pure ni
hilism such as has never been recorded on film before. He is the very incarnation of Milton\'s Satan from ""Parad
ise Lost"": ""Better to rule in Hell than serve in heaven!"" And if he can\'t get to Satan\'s hell soon enough, h
e\'ll turn the world around him into a living hell he can rule.

That\'s the motif underscoring the bru
tal violence of much of the imagery here: It\'s not that the Abbot just wants to kill people; he wants them to de
spair, to feel utterly hopeless, to accept his nihilism as all-encompassing reality. Thus there\'s a definite sen
se pervading the Red Temple scenes that there just might not be any other reality outside of the Temple itself -
it has become all there is to the universe, and the Abbot, claiming mastery of infinite power, is in charge.<br /
>
Of course, fortunately, the film doesn\'t end there. Though there are losses, the human will to be just or
dinarily human at last prevails. (If you want to know how, see the film!) Yet there is no doubt that, in viewing
this film, we visit hell. Hopefully, we do not witness our own afterlives; but we certainly feel chastened by the
experience - and somehow better for it over all."'],

Ms. Gai as the Karmen of the title is very good to look at. Her fiery dancing smolders the screen, as is the ca se with her torrid love scene at the beginning of the film.

This is a Karmen that aims to please to al l genders, but a real Carmen, she is not!

We would like to see Ms. Gai in other films in which her tal ent is better used than here."'],
['984,"This is a very noir kind of episode. It begins with Jim returning from a weekend trip with a new girlfrie nd, the recently divorced Karen Mills (Pat Delaney--daughter in law of John Huston, who knew a few things about n oir film) and her daughter. When they arrive, Karen goes in the house while Jim picks up her daughter from the ba ck seat and carries her up to her room. He then discovers Karen has disappeared without a trace. Of course he cal ls Dennis and when the police arrive, they see no sign of Karen, but find her next door neighbor murdered in the bushes. So of course that makes Jim an immediate suspect.

This is a great little mystery and the first half of the story is shown by Rocky asking Jim to go over the story once again. Rocky suggests that by Jim tellin g him the story he might remember a little detail that he didn\'t think was important at the time, but now might lead to a clue as to what happened. It\'s a really well written scene and completes the transition of the Rocky c haracter from a grifter to a concerned parent. It also goes a long way to show that Rocky isn\'t just some cluele ss old man either. As he says ""You come to me because I\'m your father. And I\'m smarter than you!"" This is one of those times where we see where Jim got his smarts.

This episode also features an appearance by hott ie Lara Parker, who played Angelique in the ""Dark Shadows"" series and went on to play Laura Banner, Bruce\'s wi fe in the ""Incredible Hulk"" series a few years later. She looks terrific here.

This episode also mar ks the first mention of the Minette crime family, a name that would keep popping up on the Rockford Files almost whenever they needed a mob family. This time, its Vincent Minette who Rockford helps apprehend.

Lt. Di ehl (Tom Atkins) makes his first appearance on the series and Dennis is quietly demoted from a police lieutenant that he was on the earlier season one episodes to a police Sargent. I guess they figured it would be better to ha ve Dennis less powerful and add some conflict between Jim and the police. Frankly, they were right, though I pref er the later Lt. Chapman to Lt. Diehl.

Not a lot of the typical ""Rockford"" humor in this episode, b ut a good mystery with a lot of heart."'],
['985,"The Royal Rumble has traditionally been one of my favourite events, and i\'ve been a wrestling fan for a good few years now. The other shows may have better matches, but i\'ve always found the actual rumble match to be full of excitement.

I\'m not going to reveal the winners of any match as i don\'t see it as fair to ru in the results on a review. I will comment on the quality of them though.

We have the standard 4 match es, and then the big rumble event. Two from Smackdown and two from Raw.

Shawn Michaels and Edge open u p for Raw. This proves to be a good match from two talented guys. This is a match i\'d recommend watching. It\'s hard to sum up without giving away the winner.

Next we have the usual Undertaker against some big nast y monster, be whoever it is. Giant Gonzales, Yokozuna, Kamala... well this time it\'s Heidenreich. Its also a cas ket match. Typical Undertaker fare. Watch if you\'re a fan. I have to admit i am, purely for the entertainment fa ctor. It can hardly be regarded as a classic wrestling match.

The next two matches are the title match es. For once Smackdown manages to upstage Raw. Their title match is pretty thrilling and enjoyable, but with a an ti-climax and let down to end it. Raw\'s match is a pretty dull and boring affair, which is a pity as i\'m a fan of both guys involved.

Now to the main reason i love the event, the rumble. It\'s a pretty good one th is year. Coming up to the event we all had a pretty good idea of who might win, and it may not prove a big surpri se, but hey, its very enjoyable. There are the usual diverse ways of people being eliminated. There is the token guy who doesn\'t make it to the ring, the entrant who is ridiculous and we all want to see vanquished, and someon e gets eliminated by a previously eliminated combatant. It has its usual highs and lows, and i loved the ending, in particular the Vince McMahon entrance.

I\'d recommend this show. Not the WWE on top form, but its s till good. Add it to your collection."'],
['986,"I remember this in a similar vein to the Young Ones. We\'d stumble back from the pub and watch this or ta pe it and then spend weeks replaying the lines to each other.

We called one of our mates ""Zipmole Wat kins"" after the brilliant episode in which Daniel Peacock has a bit of \'restyling\' on his nose by the Back Str eet Abortionist.

Lots of great lines ""Remember at 5:30 in the morning you can only get white bread fr om a brown man. Take it easy guy!"" - Gandhi as a local shopkeeper.

Tony woodcock was definitely on th ere in the episode they were teaching Ralph (Daniel Peacock) to be a barman ""It\'s no good Amanda I\'ll never ma ke it as a bar man"" Helen Lederer teaches him to ask people about the match ""See the match last night? I though t Woodcock played well"" After a string of failed conversations the curly haired Arsenal star was sitting at the bar: ""See the match last night?"" ""Yeah. I thought I played well""

We still do odd stupid lines now - ""Reg and Ralph..... or..... Ralph and Reg. Reg, Reg... Reg Reg Reg Reg""

Lots of very surreal sil ly moments and very surreal songs from the Flatlets - The Back Street Abortionist a personal favourite with the g reat ending line - ""And he\'ll mark your packages \'Return To Sender""

Good old Danny Peacock - you a dded a lot to some young drinkers\' evenings sir.

One day, a French woman, Babette, comes to work for them. After some years she wins the lottery and is determined to do something for the sisters who have taken her in. Her solution is to prepare an exquisite and sumptuous feast, which changes the lives of all those invited . This is a film about human and cultural interaction, reflected in the changing language of the dialogue from Da nish to French, and especially between the dutiful sobriety of Protestant northern Europe and the sensuousness of the Catholic south. It is also about human needs, and how warmth and kindness can be expressed and stimulated thr ough the cultivation of the senses. A profoundly uplifting film."'],
['989,"This movie was way over-hyped. A lot of the viewers, who thought this was ""amazing"" must have been into the old school movies, cause the whole movie is set in the past. At first I thought the movie was just showing so mething from the past, so I was expecting that faded dreamy like lighting on the characters to pass, but it just going. Basically this was a movie trying to mix the future with the past, and the 2 don\'t mix very well in this movie, even with special effects. You could actually see the blue screen the actors were working with. There are too many movies out there that do exactly what this movie did, so there is no reason for critics to hype this mov ie up saying ""it\'s the greatest movie ever done"". It\'s just crap on a stick. It also didn\'t help that the st ory line was sooo crappy. I don\'t understand why Hollywood agreed to have this movie produced, and I also don\'t understand how actors/actresses in this movie are willing to be in a movie like this. It\'s almost as though ever ybody read the script and forgot to read the fine print...""It will all be done on a computer"". This was a movie that should have been on a movie network, because nothing about this movie was revolutionary. I\'m very upset wit h myself for paying money to see this. ['990,"It is incredible that there were two films with the same story released in 2005. This one came out a day before that other one with Tom Cruise. Didn\'t they do that with Truman Capote the same year, and the Zodiac killer last year? Interesting.

Writer/Director David Michael Latt didn\'t have Steven Spielberg\'s budget and C. Thomas Howell is not Tom Cruise. This is a pale imitation of the blockbuster that grossed $588 million worldwide.

The action was minimal and most of the time we were treated to the whining of Rhett Giles, who played a pastor that was giving up on his god.

Gary Busey was creepy as an army LT."'],
['991,"I dunno sometimes...you try and try and try to be charitable towards all the B thru Z grade movies out there, but once in a while a particular movie just tests your patience until you want to slap everyone involved. ""Bat People"" (which I saw under the title ""It Lives By Night"") is just such a movie. You can\'t watch this without thinking that it really should have been an episode on ""Night Gallery"", and not one of the better ones, either.

The movie has something to do with a doctor who gets bitten by a bat and consequently starts to morph into a Were-Bat who drinks human blood. (Actually, you\'d think if he was turning into a real bat, he\'d be eating mosquitoes by the gallon bucket, but because this is a cheap, lurid horror movie, blood\'s the word.) In spite of the fact that he has grand-mal seizures at the drop of a hat, and black-out episodes almost every night, his friend and fellow physician, Dr. Mustache Aspen-Extreme, insists that he\'s just having an \'allergic reaction\' to the rabies shots. Meanwhile, the world\'s most obnoxious and stereotyped county sheriff suspects the doc of being responsible for the brutal murder and exsanguination of several local girls (and one wino). Also meanwhile, the doctor\'s wife decides that denial IS a river in Egypt and alternately patronizes him and nags him to distraction.

It\'s not so much that the acting is bad - you can tell that the actors are making professional level choices, and are trying to bring some juice and life to the script, even the guy who plays the sheriff. (Okay, it IS pretty bad, but it\'s bad in a clichÃ©d, wooden, professional way). It\'s just that everything about the acting, the way the scenes are paced, the costumes, the dialog, the script and the story line in general sets your teeth on edge and makes you want to, well, slap everyone involved.

I think the movie had an outside chance at being a spooky, unsettling little cult favorite, BUT:

1)The director needed to beat Michael Pataki, an experienced character actor, with a chair until Pataki agreed to ACT, and not just channel Dennis Weaver.

2)He also needed to find a script that made a little more sense with regard to the whole ""Bat Bites Human, Who Then Turns Into A Bat"" scenario.

3) He also needed the actor who played the doctor to find a little more physically believable bit of stage business for his \'episodes\', instead of resorting to ""Man Has A Seizure"" page from the Little Golden Book of ClichÃ©d Acting Mannerisms.

4) He needed to rework the whole \'wife\' character, make her both more intelligent, less shrill and waaaaay more observant.

I would never voluntarily watch this film again, except with the help of Mike and the Bots. It\'s bad, but it isn\'t bad in a silly, humorous or interesting way. Still better than ""Battlefield Earth"" or ""Waterworld"", though."'],
['992,"Big Fat Liar is what you get when you combine terrific writing, great production, and an emphasis on clever ideas over adolescent pap. The two stars work great together, and--what can I say? Amanda Bynes shines. Putting ""Irkel"" and Lee Majors in the film were brilliant touches. Watch this film with your kids. If you don\'t laugh throughout it, you must not have been paying attention."'],
['993,"Tim Robbins and John Cusack are two actors I have appreciated throughout their careers, and that was the only reason for choosing to watch this movie. Well, all I can say is I totally regretted it! These two great actors humiliate themselves all the way through by performing a number of irrelevant, unimaginative and kitch to the extreme (not that this is bad on its own)sketches that are supposed to make people laugh, but fail to do so. The only reason I can think is that the director was their friend, and they decided to support his movie by starring in it-I can\'t think of anything else because this movie is SO cheap! Fortunately Tim Robbins and John Cusack haven\'t disappointed me ever since. I would recommend you to avoid this film, unless you want your opinion about the two actors spoiled."'],
['994,"On watching this film, I was amazed at how media perception can mould a persons opinion of a celebrity. Karen Carpenter was a carefree, but very unconfident young lady, whose wonderful voice helped her and her brother Richard to soar the charts with wonderful songs. As with all celebrities of today, they were often criticised about their music as well as their looks, styles, etc. THis had a huge effect on Karen who raged a battle against her eating and drastically lost weight, which eventually caused her death. This heart felt film was not initially something which I would have thought of watching. But on starting to view it, then I was hooked. In the same way that the Tina Turner story does, then this film enlightens you and allows you to see into the young performers life. The acting was superb and even after nearly 20 years after it was made, then the directional and the dialogue are still entertaining.

I would recommend this to anyone who hasn\'t yet watched it. It is amazingly accurate and emotionally charged."'],
['995,"Nothing is sacred. Just ask Ernie Fosselius. These days, everybody has a video camera, and a movie is hardly out before the spoofs start flying, quickly written and shot, and often posted directly to the internet. Spoofs are hot these days, and we go out of our way to make sure filmmakers don\'t get off on their own self-importance. 25 years ago, when the first Star Wars was made, it was a different world. Filmmaking was the playground of a select few and spoofs were very rare. Then God gave us Hardware Wars. It was shot to look cheap (or was it just cheap?) and the audio was obviously recorded after the fact. Does that take away from the experience? HECK NO! That\'s what makes it so great! It was raw and unpolished, and hit relentlessly on some of the more pretentious moments of the original movie. From Fluke Starbucker waving around a flashlight instead of a lightsaber (I did that when I was young!) to Chewchilla the Wookie Monster, to Auggie Ben Doggie\'s ""nah, just a little headache"" remark, this film short is as much a part of the phenomenon as any of the actual Star Wars films. Rent it. Buy it. Borrow it from a friend. And may the Farce be with you. Always."'],
['996,"I hated it. I hate self-aware pretentious inanity that masquerades as art. This film is either stupidly inane or inanely stupid. After the first half hour, I fastfowarded through the DVD version, and saw the same juvenile shennanigans over and over and over. I became angered that I had spent hard-earned money for sophomoric clap-trap. Tinting drivel in sepia or blue does not make something a movie, let alone art."'],
['997,"I usually try to be professional and constructive when I criticize movies, but my GOD!!! This was THE worst movie I have ever seen. Bad acting, bad effects, bad script, bad everything!

The plot follows a group of teen cliche\'s on their way to a rave (that takes place in broad daylight) at a remote island. However, when the group arrives, all they find is an empty dance floor and bloody clothes. Determined to find out what happened to the rest of the party-goers, the clan set\'s off on a mission through a zombie-infested forest. During this crusade, they are aided by a police chick and a sea captain that just happens to have the right number of weapons to give to each of the kids. They also meet up with Jonathan Cherry and some other survivors. Basically the rest of the movie is a collection of poorly directed action sequences including a far too long shootout outside of the ""house of the dead."" This fight came complete with cheesy Hollywood violence, redundant clips from the HOTD video game, and sloppy matrix-esque camera rotations. One of the character\'s even volunteers to sacrifice himself to save the others. Why? Not because he was noble and brave, but because part of his face got scarred by acid a zombie spat on him after he continued to beat the creature long after it had been disabled! I\'m supposed to feel sorry for this guy?!?

To sum it all up, there is absolutely no point in seeing this movie unless you want to see for yourself just how terrible it is. The theater I was in was more dead than the zombies on the screen, and I\'m sure the money I wasted seeing this piece of sh*t could easily cover the costs it took to make it. GRADE: F"'],
['998,"If you like me is going to see this in a film history class or something like that at your school, try to convince your teacher to see something else. believe me, anything is better than this movie. it is slow paced, co

nfusing, boring, poorly constructed, gory, gringy, do I need to go on? It\'s message is good, but I have seen the m been handled better in several other films. The acting isn\'t even any good. This movie is just even more awkwa rd, as it start off as being funny (not intensional though)because of it\'s surreal story, than at the end, just becomes uncomfortable to watch.

I honestly feel like 1 hour and 40 minutes of my life has been robbed. Why would anyone want to watch a girls describe a threesome for 10 minutes, than watch them drive through a traff ic jam for 20 minutes, listen to a hippie who can make sheep appear, witness a sort of rape, than see the female lead role eat her husband.

Honestly this movie deserves nothing but a 1/10. And if your not happy with my preview,seriously I\'m an open minded guy and I like movies that protest through symbolism, but this movie was just awful. make any excuse you can, to avoid this film."'],

Sentiment Analysis.

Vader sentiment analysis is done in order to find if a given (Word) is positive, negative or neutral in nature.

VADER belongs to a type of sentiment analysis that is based on lexicons of sentiment-related words. In this approach, each of the words in the lexicon is rated as to whether it is positive or negative, and in many cases, how positive or negative. Below you can see an excerpt from VADER's lexicon, where more positive words have higher positive ratings and more negative words have lower negative ratings. Vader sentiment analysis for a given (word) if positive, negative or neutral in nature.
